Owing to a large excess of Assets over Capital, a portion of these Assets were recently applied to cancellation of the uncalced Capital Stock. Increasing the Paid Up Capital from \$120,000 to \$240,000. As will be seen from the above figures these Assets still represent a large surplus over Capital. Net earnings for 1905 were over 20 p. c. upon the old capitalization and more than 10 p. c. upon the increased capital. Doubtless equally favorable results will be attained for the present year. This stock is now sold as fully paid.

The Summerside Board of Trade received last night a message of sympathy from the Halifax Board of Trade on the loss sustained by the recent fire.  
JAMES R. KENNY was badly hurt during the fire Wednesday night. While engaged with others in shifting one of the fire engines, he accidentally fell and one of the wheels passed over his left arm, breaking and dislocating it at the elbow. Medical aid was at once summoned and he was taken home where the bone was reset and the dislocation reduced. Yesterday he was reported doing nicely.

The St. John Star says: Charles McKelvie, who for some years was in the employ of P. S.
