Pinkham's Vegetable Compound and been helped by it."—Mrs. MARGARET NESS, 1846 E. Hazzard St., Philadelphia, Pa.

German Crown Prince Expresses Some Views About the Present War

THE German idea of victory as defined by the German Crown Prince, in an interview published in a Budapest newspaper, is an "intention to hold our own and not let ourselves be vanquished." The Crown Prince is quoted as saying that this was clear to him the moment the British entered the war.

In discussing the present operations on the western front, the Crown Prince said: "The enemy attacks and the withdrawal on our front at several places are often wrongly interpreted in some circles. Some of our people are too accustomed to a continuous advance and when a battle occurs wherein the enemy attacks and we have to defend ourselves, the situation is not always correctly understood."

In judging the situation, both military and political, we must never forget one thing—that we are waging a war of defence. The war is one of annihilation only for the enemy, not for us. We want to annihilate none of our enemies. We mean, however, to hold our own."

Regarding the American forces in France the Crown Prince said: "I've found that the majority don't know what they are fighting for, but we feel, of course, the effect of the entry of the Americans. They have sent over very much material and are now sending very much human material."

"We speak openly of victory," the Crown Prince said. "The word victory must not be understood to mean

GERMAN CROWN PRINCE.

that we want to annihilate the enemy, but only that we mean to hold our own and not let ourselves be vanquished. The moment the British entered the war that was clear to me, and I always emphasized it."

When the interviewer remarked that the Crown Prince was contented abroad a "fire-eater," he answered: "I am aware of these accusations. Do I need to say that not a word of them is true?"

Reverting to the question of what nation wanted the war, he declared that "it was clear that the British would take advantage of the opportunity."

"Belgium, after all, was only a pretext," he continued. "The British intervened because German competition was unbearable. "We are fighting for our existence. I repeat our aim, therefore, can only be to safeguard ourselves."

"The enemy assault doubtless will continue for some time," the Crown Prince said with reference to the fighting on the western front, "but our enemies must themselves see that they will not be able to attain their aim. Our troops are fighting splendidly, and I attribute to their courage that such colossal superiority in strength does not crush us."

Discussing the fighting qualities of Germany's enemies, he said: "The French fight brilliantly, and are bleeding to death. They do not hesitate at any sacrifice. With the British, the individual man is very good and tenacious, but the leadership is deficient. Among the Americans I've found that the majority do not know what they are fighting for. I asked an American prisoner what they were fighting for, and he answered: 'For Alsace,' and to the question, 'Where is Alsace?' he replied 'It's a big lake.'"

**Demands of Politeness.** In all continental countries men lift their hats when saluting one another. It is also customary for them to uncover their heads on entering any kind of private premises, including offices, and in some parts, even banks.

It was until recently considered extremely rude for a man in Poland to enter even a shop without removing his hat, and it was not unusual for a customer who omitted this formality to be told that he would be attended to when compliance with the demands of politeness should entitle him to the shopkeeper's consideration. It was only a few years ago that the practice was gradually being abandoned.

In Poland and Russia visitors are expected to leave in the hall not only their gloves, but hat, coat, and stick as well, no matter how short their stay. Clients calling on professional men are expected to do the same.—Tit-Bits.

It takes any man longer to make a garden than it takes an old hen to unmake it.

PALESTINE NOW FREE

Victorious British Annihilate the Turkish Army.

Gen. Allenby Defeated Ottoman on Field of Armageddon, Capturing 18,000 Prisoners and 120 Guns—Only Small Remnant of Foe Escaped Into the Hills—Nazareth Has Been Occupied.

LONDON, Sept. 23.—Gen. Allenby's forces in Palestine have taken 18,000 Turkish prisoners and have captured 120 guns. This means the virtual annihilation of the Ottoman forces in this region. The British losses were surprisingly slight considering the importance of the advance.

In less than four days the British have swept forward in the centre between the River Jordan and the sea and taken the famous city of Nazareth, while their wings closed round in a swift enveloping movement and nipped within the maw of the great pincer all the Ottoman forces in the coastal sector, the Plain of Sharon, the hill region in the centre and along the western Jordan Valley. Meanwhile to the northeast the friendly Arab forces of the King of the Hedjaz have cut all railway communication in front of the fleeing Turks, and standing a barrier to their escape by way of the eastern plains.

It is not improbable that within the bag, the string of which has been drawn taut closing the mouth, thousands of Turks are enmeshed. Many of those already made prisoner, fleeing in disorder, literally walked into the hands of the British, not knowing their line of retreat had been cut off.

Although the Turks at some points offered considerable resistance to the British, at no point were they able to stay the advance, even on the famous field of Armageddon, which the British cavalry swept across and occupied Nazareth to the north. In the operation of sewing the enemy with the sack, airmen played an important role, vigorously bombing the retreating Turks, inflicting enormous casualties on them.

Further information received concerning the dramatic advance of the British army in Palestine, begun during the night of Sept. 19, serves to confirm the completeness of the surprise and the magnitude of the success. A special correspondent at Gen. Allenby's headquarters writes: "The victory is much more important than the number of prisoners at present reported indicates, for the Turk had had a smashing blow and is retiring into the hills as fast as his weary legs will permit. The British are pressing him with splendid energy, delivering overpowering blows in every attempt to resist."

"The situation is most promising. It is certain that Gen. Allenby will now deliver another large portion of Palestine from the dominion of the Turks, as well as inflicting on the enemy a severe defeat."

"Preparations for this battle entailed a good deal of marching. The troops were always moved by night and remained hidden in the orange and olive groves in the day time. The British mastery of the air prevented enemy observers from seeing any change in the dispositions of the movements of large columns. Troops of all arms were thus concealed skilfully in a country where the marching of men raises huge columns of dust, and the Turk, too, possessed positions that commanded a wide range. But he remained mystified, which is the finest tribute that could be given to the work of the British staff."

"The infantry opened a way for the cavalry to pass through, and there was a wonderful spectacle of long columns of British yeomanry and Australian light horse and picturesque Indian cavalry moving over a wide expanse of country throughout the coastal sectors of the Plains of Sharon to get to the enemy's rear."

**Finns Open Doors to All Refugees.** HELSINKI, Finland, Sept. 23.—In view of the condition of anarchy and murder at Petrograd and the defenceless situations of a great part of the population," says an official statement issued here, "Finland's Government feels that on purely humanitarian grounds it cannot refuse to permit Russian, British, American and Italian refugees to come to Finland."

The Finnish Government, however, is compelled by the scarcity of provisions in the three Scandinavian countries—Norway, Sweden and Denmark—to help in harboring a portion of the refugees.

**Ten Sailors Die Trying to Save Ship.** WASHINGTON, Sept. 23.—Ten enlisted men of the crew of the coast guard cutter Seneca lost their lives Sept. 16 while attempting in a heavy sea to save the British steamer Wellington, which had been put in a sinking condition by an enemy torpedo, the navy department was informed last night by Admiral Sims.

**St. Quentin in Flames.** PARIS, Sept. 23.—The city of St. Quentin, beset by both British and French, is in flames. The enemy is reported to be removing the civil population and placing his batteries in the city to combat the steady onslaught of Foch's men.

**Death of Oxford Pioneer.** WOODSTOCK, Sept. 23.—George Green, one of Oxford's oldest and most highly respected residents, died Saturday. He was 83 years of age and was born in this county. Two sons and one daughter survive.

J. C. Watters was defeated in the contest for the presidency of the Trades Congress by Thomas Moore, of Niagara Falls. "Jimmy" Simpson was dropped from the executive.

LESS MEAT IF BACK AND KIDNEY'S HURT

TAKE A GLASS OF SALTS TO FLUSH KIDNEYS IF BLADDER BOTHERS YOU

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urine organs clean, thus avoiding serious kidney disease.

Love is a great help to the girl who wants to make herself miserable.
