COMMITTEE ON FINANCE MEETS AT OTTAWA

International Action For Dealing With Falling Prices Is "Urgently Necessary."

By Ray Brown, Canadian Press Staff Writer

OTTAWA, Aug. 12.—The Imperial Conference committee on monetary and financial questions announced that international action for dealing with falling prices is "urgently necessary." The governments represented at the Imperial Conference desire to cooperate with other nations in any practicable measure for raising wholesale prices.

The report of the committee was issued this evening. It does not recommend the adoption of any scheme for the advancement of wholesale price levels or the stabilization of exchange.

It declares that:

- (1) In the monetary sphere the primary line of action toward a rise in prices should be the creation and maintenance, within the limits of sound finance, of such conditions as will assist in the revival of enterprise and trade.
- (2) Among these conditions are low rates of interest and an abundance of short term money.
- (3) The rate of interest for all purposes should be kept as low as financial conditions permit.
- (4) Favorable monetary conditions must be achieved by an orderly monetary policy.
- (5) The conference recognizes the great importance of stability of exchange rates, but the complete solution of this problem must await the restoration of conditions for

Believes In Her "Charms"

TOY DUCK BRINGS ELLEN LUCK

Pretty Ellen Preis of Austria, who won the Olympic games women's individual foil championship, kissed her toy duck before every event, and carried the little pet while she fenced. She pinned the championship medal to her mascot after her victory.

Fishermen Battle On Deck With Swordfish

Fish Revives After Being Landed And Has Things Pretty Much His Own Way Until Disarmed.

BOSTON, Aug. 12.—(A.P.)—Captain Fay D'Eon of the Gloucester schooner Mary D'Eon in from Georges Banks, with 130 swordfish, didn't have nearly as much to say today about one of the fish which measured 18 feet in length and weighed 570 pounds dressed, as he did about a modest 300 pounder. The 200 pounder had been taken in routine fashion—ly ironed, brought aboard with a dory and hoisted aboard apparently dead. Captain D'Eon related. As members of the crew were about to dress the fish the lookout sighted another swordfish. They all went forward to witness the capture and pandemonium cut loose aft. The fish revived unexpectedly and took furious charge of the deck. Its sword was driven through the side of the dory, the side of the pilot house splintered and other woodwork damaged. No one dared approach the maddened fish until the cook emerged from the galley with an axe. With a well directed blow, the swordfish was disarmed, its sword cut off close. The cook modestly returned to his kitchen and the crew prepared the fish for broiling. The schooner's catch was one of the largest brought to this port this season and the 18 foot fish the biggest.

Thomas A Good France Keenly Interested In Bridge Player

OTTAWA, Aug. 12.—(By The Canadian Press)—In his own unconventional way "Jim" Thomas, Secretary of State for the Dominions, has settled the Irish land annuities. It's not a way which the red-tape pundits of Whitehall can be expected to approve. President De Valera will naturally turn it down. But Sean Lemass, Free State Minister of Industries and Commerce, ruefully admits it. An English newspaper correspondent went to see Mr. Lemass. What about the two hour private conference in Nagara Hotel. The newspaperman excitedly questioned. What about talks in the train. "The land annuities question is settled," Mr. Lemass interrupted sadly. "We have no annuities any more. Jim Thomas has won them all back at bridge."

Grain Crop Will Square Accounts

(Canadian Press)
REGINA, Aug. 12.—The Saskatchewan farmer will square accounts with his chief creditor this year with grain from his 1932 crop. Premier J. T. M. Anderson today announced his government had decided to peg the price of all grains and accept that commodity as payment for all forms of relief debts. Under the official plan wheat would be pegged at 70 cents a bushel on a basis of No. 1 Northern, Fort William. Other grains will be pegged accordingly. Taking the present price as a basis, the government offer will promise the liquidating farmer a bonus of 10 cents a bushel; 5 cents on oats, 7 cents on barley; 10 cents on flax and 6 cents on rye. The government hopes the offer will enable the farmer to successfully wipe out his obligations to the government and, at the same time, give a lead that other creditors may follow in the working out of a solution to the present debt problem.

1933 EMPIRE CONFERENCE IS MOOTED

With Success Of Present Parley Assured, Delegates Hold To View That More Frequent Meetings Should Be Held.

OTTAWA, Aug. 12.—An Empire conference in 1933 is mooted. The report comes from highly informed Imperial Conference circles, although no definite consideration has been given to the proposal. With the success of the present Imperial Conference assured, delegates from all parts of the commonwealth hold to the view that more frequent meetings should be held. The smoothing out of difficulties in the work of welding the Empire together as a successful economic unit, it is suggested, might well be advanced by Imperial Conference meetings every one or two years. The new order would replace the old. It would come with the change of relations brought about in the interests of intra-empire trade. In the past, decade, imperial conferences have been divided in point of time from three to four years.

Federals Break Rebel Lines

RIO DE JANEIRO, Brazil, Aug. 2.—(A.P.)—Federal troops operating against the rebels of Sao Paulo reported today that they had broken the rebel line at four places in the southern sector. Every coastal state is represented in the federal forces now, with the addition today of battalions from the equatorial states of Para and Maranhao.

Ex-Policeman Sought By Police

TRURO, N. S., Aug. 12.—(By The Canadian Press)—Police sought tonight after Alphonse Toomey, suspended special officer of the town force, clubbed his way to escape after being arrested on a charge of attempting to burglarize Brookfield creamery garage. Constable Gordon Hayman arrested him on the creamery property. Later he reported Toomey had struck him with the butt of a revolver and escaped. When the wanted man was not found in Colchester County, the Royal Canadian Mounted Police instructed all officers in the province to watch for him. Toomey was suspended recently pending an investigation into complaints about his activities.

Reviews History Of Church

HALIFAX, N. S., Aug. 12.—(By The Canadian Press)—Grant K. Lewis of Indianopolis spoke tonight at the annual meeting of the Disciples of Christ of the Province of Nova Scotia and New Brunswick. Mr. Lewis reviewed the history of the church from its inception 125 years ago and said that considering its comparatively short period of service extraordinary progress had been made. At a meeting this morning, Mr. H. B. Kilgour of Toronto, secretary of the Disciples of Christ in Canada, introduced several "all Canada" resolutions. An address on "inspiration from Christ" was delivered by Paul Richardson, Saint John. Miss Kathleen MacArthur of Toronto addressed a women's missionary society meeting this afternoon. Mrs. Charles Grammer of Saint John conducted devotional exercises, and Mrs. C. Haines of Saint John, who presided, reported on missionary work.

They Escaped Serious Injury

APOHAQUI, N. B., Aug. 12.—(By The Canadian Press)—Two occupants of a car from Brooklyn, N. Y., escaped injury today when the machine, travelling at a high rate of speed, left the main highway to Sussex at a point one and a half miles east of Apohaqui. The car hurtled into a telephone pole, breaking it in two places, tore through a wire fence and broke off four posts, and ended its flight by crashing broadside into a garage on the homestead of Herbert Barns. The side of the garage was smashed while the structure itself moved six feet from its concrete base, but a car inside was only slightly damaged. John Mannon, enroute from Brooklyn to visit his mother in Prince Edward Island, was injured. A young woman companion, who was driving faintly from shock but also escaped injury.

GERMAN PRES. WILL DECIDE

Chancellorship In Germany's Cabinet Bone Of Contention.

BERLIN, Aug. 12.—(A.P.)—Adolf Hitler, whose importance in the German political drama is constantly increasing, left his vacation retreat in the Bavarian Alps to talk with Chancellor Von Papen tomorrow morning. After that meeting he probably will see President Von Hindenburg, and on the outcome of that conference depends Hitler's immediate future. Chancellor Von Papen made it clear that he was leaving to President Von Hindenburg the question of deciding whether he would continue as the head of a "Presidential" cabinet or whether Hitler would be selected to serve as Chancellor in a party-ruled government. Expectations were that Chancellor Von Papen will be present when the Nazi leader sees the President and that the aged Von Hindenburg will explain to Hitler that he wants a presidential cabinet in which the Nazis would participate. This evening "somewhere near Berlin" Hitler met several of his chief lieutenants who had been arranging for tomorrow's meetings. The Nazi headquarters were confident that their leader would emerge the victor in these negotiations. This afternoon Hitler, speaking through his associates, and Alfred Hugenberg, leader of the Nationalist party, informed former Chancellor Bruening's Centrists that they would not send representatives to a meeting on Monday at which reorganization of the Prussian Cabinet will be considered. The Centrists had invited the other two parties to participate in that discussion. As a counter move, Hitler told them that the Prussian issue will have to be deferred until he has learned the viewpoint of the President and Chancellor regarding the futures of the National Government. This morning there was a possibility that the next government might be dominated by a coalition of the National Socialists and Centrists. This evening it appeared that the Nazis had definitely backed away from that idea.

Reserved Decision Re Auto Fatality

HALIFAX, N. S., Aug. 12.—Magistrate J. L. Barnhill today reserved decision at the conclusion of his enquiry into the automobile collision which caused the death of Miss Margaret Smith, New York University librarian, and injuries to Senator W. H. Dennis, of Halifax, and four others.

Will Work Over Anglo-Canadian Trade Agreement

British And Canadian Experts To Go Further Into Proposed Treaty During Week-End.

By George Hambleton, Canadian Press Staff Writer
OTTAWA, Aug. 12.—Through the week-end, British and Canadian experts are to work over the proposed Anglo-Canadian trade agreement. An important point has arisen in regard to textiles. The British delegation takes the ground that the rate of duty against United Kingdom products should be fixed "no higher than is necessary to give a reasonably efficient industry in the Dominion a fair chance." Canada's offer, in this regard, is said to be:
(1) Appointment of the tariff board contemplated in legislation passed by the Dominion Parliament two sessions ago.
(2) Reference of the textile tariff to the board with instructions to make recommendations equalizing the rates according to differences in costs of production.
Otherwise stated, the board would hear evidence of both British and Canadian textile men and then recommend rates which would give the Canadian industrialist just sufficient protection to safeguard him against lower wages and lower costs of production in Great Britain. Reaction among British industrialists to the reported offer is favorable rather than otherwise. British cotton and woolen men think that if given opportunity they can demonstrate that the protection now given to the Canadian textile trade is fixed at an unnecessarily high level. At the same time, they would like some guarantees as to the personnel of the board and they fear that the determination of exact costs may prove extremely difficult. Another point which arises is the Quid Pro Quo. If Great Britain is satisfied with the offer, what is she prepared to give in return? Both on this point, and on the reported offer itself, British headquarters preserve the silence of discretion.

TRADE DISCUSSIONS NOW GOING ON WITH OTHER DOMINIONS

By George Hambleton, Canadian Press Staff Writer
OTTAWA, Aug. 12.—Canada has opened trade discussions with the other Dominions. Today, Canadian delegates were in conference with delegates from South Africa, Irish Free State, India, Australia, New Zealand, Newfoundland, Southern Rhodesia. Canada's trade treaty with South Africa awaits little more than formal conclusions. With Australia and New Zealand, the idea is to widen treaties already existing. Almost from the opening of the Empire conference, the Irish Free State has been sounding out the possibility of a trade treaty under which among other things they would take Canadian wheat for whiskey. And as Anglo-Canadian negotiations enter the final stage, lobbies of the Chateau Laurier buzz with rumor and conflicting story. One learns in one quarter that agreement has been reached.

TRUCK TURNS OVER 1 KILLED

FREDERICTON JUNCTION, N. B., Aug. 12.—(By The Canadian Press)—One person was known to be dead and five or six others were badly injured as a result of a motor truck overturning near Tracy Station this afternoon. First reports said three had been killed but a check-up revealed only one immediate fatality. Six persons were taken to hospital at Fredericton. Other members of a party of twenty-one were riding in the truck on a berry-picking expedition sustained minor injuries and proceeded to their homes. The accident occurred early this afternoon when the truck rounded a bad turn, overturned, and landed upside down on the railway tracks at Yoho crossing. The driver seized a child who was riding on the front seat and jumped to safety. The party included residents of Tweedside, Harvey and McAdam.

To Remain Aloft For Five Days

CURTISS FIELD, Valley Stream, N. Y., Aug. 12.—(A.P.)—Confident of remaining aloft more than five days, two women pilots took to the air in a big cabin monoplane today in an effort to establish a new refueling endurance flight record for the sex. The fliers, Mrs. Frances Marsalis of San Antonio, Tex., and Mrs. Louise Thaden, of Baltimore, Md., left the ground at 3.17 p. m. (Eastern Standard Time), and began circling over the field. Shortly after their takeoff a plane piloted by William Scott, Jr.

WILL ATTEMPT ATLANTIC HOP WITH FAMILY

Aviator Plans Taking Two Small Children And Wife Along.

(Canadian Press)
NEWARK, N. J., Aug. 12.—George Hutchinson, who plans to fly the Atlantic next week with his wife and two small children, arrived today from Bridgeport, Conn., where he took delivery of a new amphibian plane. He flew here with his wife and daughters, Catherine, 3 and Janet, 6, and Mrs. Hutchinson's sister, Mrs. Felix St. John, of Baltimore. Hutchinson said he hoped to start the ocean flight Monday, but might not get off until Wednesday. The flight will be started from Bolling Field, Washington. He plans stops at New York, Saint John, N. B., Anticosti Island, Cape Burwell, Labrador, Gothaab, Greenland, Reyjavik, Iceland, Faroe Islands, Edinburgh, Manchester and London.

Fire Proof Trees For S. Carolina

COLUMBIA, S. C., Aug. 12.—(A.P.)—South Carolina's going to put a stop to forest fires by growing fire-proof trees. The trees, red alder, will not burn and their foliage is fireproof, too, according to state forester H. A. Smith. Smith obtained a pound of seed some 500,000 seedlings, which should produce about 50,000 red alder. The saplings will be distributed to landowners.

Fishermen In Bad Way

SAINT JOHN, Aug. 12.—(By The Canadian Press)—The plight of Bay of Fundy fishermen is desperate. Walter W. Leonard, of a local fish firm, said here following a trip around the coast. Discussing reports that fishermen's families in the Campbell district were on the verge of starvation, Mr. Leonard said the present fishing season was worse than he had ever experienced. There was no prospect of improvement, he said, until the general economic situation resulted in a normal demand for fish. Adding to lack of markets, fishermen were facing one of the worst catching seasons in years, this applying particularly to salmon, he stated.

Improving

ANNAPOLIS ROYAL, N. S., Aug. 12.—(By The Canadian Press)—Hon. E. Biddget, former Chief Justice of the Superior Court of Rhode Island, was improved today after a serious illness, according to a message received tonight from his summer home at Milford.
