THE Guardian is indebted to The Patriot for courtesies extended in connection with the printing of this paper for the past week. The stock of paper became exhausted on the 10th inst., instead of being sufficient to last until May fifteenth as anticipated. On January sixth an order for twenty tons was placed and arrived in Pictou about February first, about one tenth of the entire shipment reaching Georgetown yesterday.

THE Wetaskiwin, Alta. Post in a write up of Sparling a new town on the C. P. R. Branch, 30 miles east has the following of Humphrey L. Higgs, formerly of this city and brother of E. T. Higgs: "Higgs & Ward, druggists. Here on Main street we run against another friend, 'Hum' Higgs, looking after the business of this firm, just opened up a week ago, and for a real neat, clean, up-to-date creditable drug store, commend us to this little place of Higgs & Ward. EDWARD JOHNSON, son of Adam Johnson, Brackley Point, has returned to the Province. He is from the Klondike being one of the many who traileed it there in '98, but returned home, remaining till three years ago when he went out for the second time. PROFOUND sympathy goes out to Neil D. and Mrs. Munn, Wood Islands, who are again bereaved of a son. Only a short time ago their youngest and dearest loved son, Ernest, at the age of nineteen years, met his death at Pictou N. S. under most trying circumstances. The parents who have never recovered and are prematurely old with grief, are now prostrated under this heavy blow. The lecturer touched on many of the causes of delay in transmitting messages and the uncalculated and advised the students to be patient and considerate when operating an instrument as it was the most delicate of all mechanisms. The lecture was very interesting and all enjoyed themselves, both because it was a subject of extreme importance and also because of the lecturer's easy and pleasing manner of address.

I took out this policy 20 years ago, upon the 20 Payment Life Plan; the annual premium being \$197.50.
