NOT A PAIN IN YOUR BACK?

You get a pain in your back, and you wonder what is the matter. You perhaps pay no attention to it. Backache is caused by imperfect action of the kidneys, in fact, is the first sign of kidney trouble to follow.

The kidneys, proper, are composed of a close network of fibrous tissue, interlaced with tiny elastic fibres. Their object is the excretion of the uric acid, and other poisonous matter composing the urine, from the blood.

They are continuously at work to preserve the general health of the body, and most people are troubled with some form of kidney trouble, but do not suspect it.

Some of the symptoms are: A feeling of weakness in the small of the back, sharp pains in back, puffiness under the eyes, and swelling of the feet and ankles, urinary troubles such as suppressed urination, excessive urination, cloudy, thick or highly colored urine, etc.

Mr. J. L. Whiting, Ottawa, Ont., writes: "I suffered for two years with kidney trouble. I had terrible pains in my back, hips and legs. I could not sleep and had a poor appetite. I took four boxes of Doan's Kidney Pills, and the pains left me. My appetite returned and I now sleep well. I can recommend Doan's Kidney Pills to anyone suffering from kidney trouble."

Doan's Kidney Pills are 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in this Province.

Charlottetown has a population of 12,000 and Prince Edward Island has 108,000. The Guardian's daily circulation is therefore as 1 to 11 of population in the city, in which it is published, or 1 to 13 of the population of the Province. This is the management believes, is equalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and you will see.

St. John has a population of 40,000 and the Province of New Brunswick 320,000. St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 5,000, or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,250,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 100,000. That is as 1 to 5 of the population of Toronto and 1 to 22 of the population of Ontario.

The point is this, that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city, and over three times as well, taking the population of the Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertiser patron alike. They have a right to know how completely their favorite Journal's endorsement by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this City and Province.

\$50,000,000 FOR ADVERTISING

James B. Duke, the tobacco king of Long Beach, New Jersey, recently claimed in an interview that he had spent more money in advertising than any other living man. He said that the figures would reach fifty million dollars.--Newspaperman.

Yet James B. Duke is to-day one of the wealthiest men in the world. When you see a liberal advertiser you see a rich man. The business man who in the age of advertising is afraid to invest any money in publicity will never accumulate a fortune.--Record.
