WOMEN CRIMINALS BROUGHT TO JUSTICE

One Kept a Starvation Sanatorium in Montreal—Another Murdered a Proprietor of a Laundry in Waltham Mass. Two Strange Cases are Being Dealt With.

Special to The Guardian. MONTREAL, November 23—Virginia Gobeil who conducts a starvation sanatorium was found guilty of manslaughter with a recommendation to mercy in the case of John O'Neill who died a few weeks ago while undergoing her treatment. Miss Gobeil's place is well known throughout Canada. She has been in trouble, but managed to evade conviction.

PORTLAND, November 23—A woman whom the Portland police think is Harriet Leblanc of Arichat, wanted for the murder of Clarence Glover at Waltham, on Saturday, was arrested here. The crime is attracting widespread attention. It is the first time in many years that a woman accused of murder has made her escape after committing a crime of this kind.

On Sunday night Glover was found lying on the doorstep of Dr Cousen's office, whether he had crawled after being shot in a Waltham laundry. Glover was the proprietor of the laundry and had been there, accompanied by Miss Leblanc, who was a servant employed by his wife. The story of the struggle was revealed when the police examined the laundry.

MODIFY FOOTBALL IS THE CRY

PHILADELPHIA, Nov. 22.—'Football is too fine a game to be abolished offhand,' said Dr. Woodrow Wilson, president of Princeton University, today when asked for his opinion on the present agitation to abolish or modify the game. 'I do think, however, that it should be modified to some extent in order to obviate those fatal accidents as much as possible. To this end I think the colleges and universities of the country should get together this winter and go over the situation carefully with the members of the football rules committee. I have no doubt that such a conference would result in the discovery of some means of preserving the autumn game, and yet of eliminating the tragic features that have made this season so memorable.'

WHERE THE GUNPOWDER PLOT WAS HATCHED

LONDON, Nov. 22.—A curious fate befell Red Hall, otherwise known as the Old Red House, at Bourne, in Lincolnshire, where the Gunpowder Plot is supposed to have been originally concocted. After being for centuries in the possession of the Digby family this historic Elizabethan mansion was sold about fifty years ago to the Great Northern Railway Company and converted into a station for the passenger traffic; but out of deference to popular sentiment the external appearance of the picturesque old place has been preserved practically unchanged.

VEGETARIAN CURE FOR DRINK

MONTREAL, Nov. 22.—Dr. Robert Bell, lecturing before the Psycho-Therapeutic Society at Caxton Hall, London, dealt with the affinity of an unwholesome diet to certain vices, and said he had known more than one instance of habitual drunkenness completely cured by abstinence from flesh food and it was a well-known fact that persons subject to violent outbursts of temper were enabled with much greater ease to control themselves when they abstained from animal food. He argued that the inmates of prisons, lunatic asylums and all charitable institutions should be confined to a frugal and vegetable diet.

BARON DEREUETER DIES IN LONDON

LONDON, Nov. 22.—Baron George De Reuter, youngest son of the late Baron De Reuter, who founded the Reuter Telegram Company, died today.

STRANGE ADVENTURES OF STOLEN MONEY

PARIS, Nov. 22.—To avenge himself on a bank which he held responsible for the loss of his savings, Louis Teodile Lelong, a Paris bootmaker, entered the service of one of the partners in the bank and succeeded in stealing £3,000. He placed this money in an iron box which he concealed in his mother-in-law's vault at a cemetery and fled, after informing his wife and stepdaughter. At length he became tired of concealment, gave himself up to the police and confessed all. When the police searched the vault they found the box gone, and Mme Lelong admitted that she had removed it to her sister's house. The police hastened thither and removed the box, only to discover that it was empty. They have now ascertained that the stepdaughter took the money, which was in notes, from the box, and sewed the notes into the lining of her petticoat.

STRIKE IN VICTORIA, B. C.

VICTORIA, B. C., Nov. 22.—Employment of the Victoria Machinery Department Company engaged in repairing C. P. R. steamer Ames, have struck for higher pay.

ARICHAIR GIRL IS WANTED FOR MURDER

BOSTON, November 22—Clarence F. Glover, proprietor of the Waltham Laundry and a wealthy man, was shot in or near his place of business on Crescent Street Waltham. He died in the Waltham City Hospital at 12:11 o'clock yesterday morning. The police are now searching for a young woman, Hettie LeBlanc, eighteen years of age, of Arichat, C. B., for over a year a domestic in Glover's home. She is believed by the police to have jumped into the Charles River. Glover was shot and killed with his own revolver. His automobile, in which he had been riding, was found in Spruce Street, a quarter of a mile from the laundry where he was found in a dying condition. He told those who found him that there had been a struggle between him and his assailant, and that after he was shot he had seized the revolver and threw it from the laundry.

LA THREATENS TO BURY TOWNS

MADRID, Nov. 22.—With the volcano, Mount Saleres, belching forth great quantities of boiling lava, threatening the destruction of the Island of Tenerife, in the Canaries, despatches from Garachico, Tenerife, say that the inhabitants of the towns in the Oratava Valley are rushing to the coast, in an effort to escape from the threatened island by ship. The eruptions from Mount Saleres grow in volume hourly, and torrents of lava pouring down the sides of the smoking mountain threaten to overrun the entire Oratava Valley. The towns directly in the path of the lava stream are Gua, Icod, Santiago, and Teguestes. Each of these has already been deserted by its inhabitants who leaving everything behind, are fleeing panic-stricken toward the coast. Every available vessel in the vicinity of the Canaries is being intercepted and ordered to Tenerife, including the motorship *Oratava* which is rushing to the coast, in an effort to escape from the threatened island by ship. The eruptions from Mount Saleres grow in volume hourly, and torrents of lava pouring down the sides of the smoking mountain threaten to overrun the entire Oratava Valley. The towns directly in the path of the lava stream are Gua, Icod, Santiago, and Teguestes. Each of these has already been deserted by its inhabitants who leaving everything behind, are fleeing panic-stricken toward the coast. Every available vessel in the vicinity of the Canaries is being intercepted and ordered to Tenerife, including the motorship *Oratava* which is rushing to the coast, in an effort to escape from the threatened island by ship.

KAISER HAS PLAN TO AID BIRTH RATE

BERLIN, Nov. 22.—Germany's birth-rate, which for the past 10 years was considerably greater than that of other countries of western Europe, began lately to show signs of declining. With the view of checking this, and as an inducement to parents to beget large families, the Kaiser has undertaken to stand as godfather for the eighth child in any German family, rich or poor, while the government will empower local authorities to pay birth parents 80 marks upon the birth of their eighth child. It is understood that the scheme owes its initiation to the Kaiser, who recognizing that Germany's high birthrate has been one of the great factors in Europe, regards any tendency toward smaller families as a national evil.

THE WILL OF THE LATE SENOR FERRER

MONTREAL, Nov. 22.—The will of the late Senor Ferrer, dictated to his lawyer on the night before his execution, is published in M. Jaures' paper, *L'Humanite*. In this document he protests vigorously against his sentence, and expresses his conviction that before very long his innocence will be publicly acknowledged. At the same time he strongly deprecates the holding of any political demonstrations over his remains, believing that time is wasted over the dead when it is needed to improve the condition of the living and he gives instructions to one of his friends as to the best method of continuing his educational work at the Modern School. In a remarkable passage he attempts to dissuade his friends from enrolling him personally. 'I desire that my friends speak little or none at all of me, because when men are exalted idols are created, which is a great harm for the future of mankind. Deeds alone, from whomsoever they emanate, should be imitated when they seem to make for the common good; let them be criticized so that they be not repeated when they are considered injurious to the general well-being.'

MORE TROUBLE IN NICARAGUA

Rebels Threaten to Invade Salvador. Armed Troops on the Border.

Special to The Guardian. NEW ORLEANS, November 23.—Passengers arriving at Punta Arenas report a great movement of troops in Salvadoran ports. Gen. Prudencio A. Faro is at the head of 1,000 well armed Nicaraguans. The revolutionists are in possession of Castillo Viejo. In the San Jose papers, it is credited that the invasion of Salvador by the Nicaraguans may precipitate a general uprising in Central America.

ALL RED ROUTE NOT YET DEAD

Conference to Be Held at Session's Close in Order to Revive It.

Special to The Guardian. OTTAWA, November 23.—A conference of representatives of Canada, Australia, New Zealand and Britain will be held soon after the close of the present session to make arrangements for the consummation of the All Red Route project.

ATTEMPT TO POISON MANY ARMY OFFICERS

VIENNA, Nov. 22.—An extraordinary attempt at wholesale poisoning of military officers here has caused a sensation. A large number of officers just promoted to be captains in the general staff have received through the mails samples of pills. These were accompanied by a circular recommending them for nervous debility. One of the officers, Capt. Mader, took some of the pills and died almost immediately. An autopsy revealed the presence of cyanide of potassium and that his death was caused by that poison.

STANDARD OIL THINKS IT CAN DEFEAT THE LAW

NEW YORK, Nov. 22.—Conferences of officials and leading counsel of the Standard Oil Company were held here today to outline the company's action following the adverse decision in the government's suit rendered Saturday. Thirty days are allowed before the decree of the court takes effect and within that time the form of appeal which the corporation has announced that it will take to the United States Supreme Court will have to be perfected. John D. Aschbold, vice president of the Standard Oil Company, took an optimistic view of the situation. He said: 'I believe that the decision will result in a gain looking toward the repeal of the Sherman Anti-Trust Act. For under that law it is not only impossible for practically every corporation to transact business, but even co-partnerships may be attacked. I believe that the officials at Washington are coming to the view that the law is too drastic and that even Mr. Roosevelt himself shares in that opinion.'

SIRENS ON MONTREAL FIRE APPARATUS

MONTREAL, Nov. 22.—Owing to the risk that firemen have to meet in going to fires, Chief Tremblay has made a recommendation that the present bells on hose wagons, and other apparatus be replaced by sirens powered by electricity to warn all approaching vehicles to keep out of the way. It is the contention of the fire brigade that so many firms now use bells as warning signals that they are no longer the protection that fast moving vehicles require on the way to fires. The street cars, the ambulances, and the wagons of the Heat & Power Company all have bells which closely resembled those of the fire department. He therefore suggests that a change in the signals be made.

Mindard's Liniment Cures Cold, &c. COLDER. TORONTO, November 24.—Strong northerly winds and gales with local rain or snow flurries, turning colder. The length of today will be nine hours and twenty minutes.

MINERS MAY BE STILL LIVING

In Depths of Cherry Mine Below Where Fire Penetrated and Living on Mule's Food. Vigorous Rescue Work.

Special to The Guardian. CHERRY, Ill., November 23.—The crucial struggle is being made today to rescue whatever living men are still entombed in the St. Paul mine. Two youths who penetrated the deepest levels reported the air sufficient to maintain life, but found no traces men or bodies. Experts believe that if the fire did not reach the lower levels that scores of miners are still buried alive and probably able to maintain strength with the stores of fodder in the mules' stables. Today was spent in fighting the fires which are constantly breaking out, but it is expected the way will be cleared sufficiently for rescuers to do it tonight.

CONGRESSMAN AND GRANDSON

Burned to Death in Their Homes and Their Bodies Totally Consumed.

Special to The Guardian. KANSAS CITY, November 23.—Representative David Dearnond, one of the oldest Democratic members of Congress and his grandson, aged 6, were burned to death in a fire that destroyed the Dearnond home early today. Other members of the family all escaped.

PROFESSOR DISLIKED HIS BABY; ENDED LIFE

URBANA, Ill., Nov. 22.—Professor Wilfred C. Wheeler, first assistant chemist in the engineering experiment station of the University of Illinois, committed suicide at the college campus today by taking a dose of potassium. He was an expert on poisons. He left a note to his wife saying he was 'tired of living.'

SMUGGLER HELD IN \$10,000 BONDS

PORTLAND, Nov. 22.—Held for the April term of the United States court in bonds of ten thousand dollars was the action taken by Judge Hale Saturday when William J. Kelley of Richmond, N. B., was arraigned on the old indictment charging him with assault with a dangerous weapon on Deputy Collector Frank W. Burns near Houlton in the night of April 17, 1902. Kelley was captured Tuesday night at East Hodgdon by Deputy U. S. Marshal Ferdin and E. Stevens of this city and Deputy Collector Victor E. Peters of Houlton, after a desperate fight with Deputy Stevens. Burns was not furnished.

LABOR LEADER IN OHIO MURDERED

CLEVELAND, Ohio, Nov. 22.—Frank Krug, president of the local iron moulders' union, died today from a bullet wound in his head. He was waylaid and shot Saturday night outside a saloon. The police say they know who shot him.

WAR SECRETARY'S FIGHTING SPEECH

LONDON, Nov. 22.—Secretary of War Haldane made a fighting speech before the Eighty Club in regard to the Government's policy on the budget. He declared that the Government accepted the challenge of Mr. Balfour, the Unionist leader, to go to the country on the issues, which would be free trade, the budget and the House of Lords. No quarter would be asked by the Liberals, said Mr. Haldane, and none would be given. The Cabinet, he said, was anxious to be placed before the electors. Since the British Constitution became what it is, no step so violent or so revolutionary has been taken as the contemplated re-arranging of the Budget Bill by the House of Lords. It was opposed to the policy of the Liberals and was a constitutional revolution which would be followed by protection.

GREAT STORM IS RAGING ON LAKES

CHICAGO, Nov. 22.—Rain and sleet, driven by a wind which at times reached a speed of 48 miles an hour, marked the entrance of a storm which has raged all day on Lake Michigan, and throughout the region of the Great Lakes. Only a few vessels braved the big waves which thundered outside the breakwater and

PRESBYTERIAN MISSION GROWTH

Thirty Thousand Dollars More This Year for Western Canada.

Special to The Guardian. TORONTO, November 23.—The Presbyterian church will spend 20,000 dollars more this year than last on home missions in western Canada. This makes a total expenditure of \$18,000. Winnipeg agreed to give \$25,000. A special collector has been appointed to raise \$10,000 more in Ontario.

ANOTHER GALE ON THE LAKES

Blowing Forty Miles an Hour and Increasing. Ships Seeking Shelter.

Special to The Guardian. DETROIT, November 23.—A heavy northeast gale, accompanied by a fierce snow storm has been raging over the upper lakes since yesterday. All the vessels are running for shelter. At Mackinac City the gale blew forty miles an hour and is still increasing.

BACK TO THE FARMS OR DESTRUCTION

NEW YORK, Nov. 22.—James J. Hill the pioneer of the northwest, and since the death of Mr. Harriman, the most conspicuous railroad man of the world sounded another warning against extravagance, and said: 'The people should get back to the old way of hog, hominy or milk, or else go to destruction. Not only America but Europe,' he said today, 'is afflicted with the germ of recklessness. The country gives the word. It provides the lesson. Our national legislature sets the pace. We are spending millions on top of millions for the navy, when we need the other. For congress to appropriate the several hundred millions annually as it does for guns and ships, is encouragement for the individual to talk about warfare when there isn't any war cloud apparent anywhere. Germany, England and France are advancing and pre-empting territory that naturally belongs to us. We can recover that trade only by encouraging shipping industries, by more marked methods of inviting trade, by systems of reciprocity, by competition the better after all, being the royal keynote of commerce. If I were in control of the finances of this government I should spend more for the development of the farm and less for the armaments of war, situated in all parts of the union where one might come to be taught to grow two blades of grass, where but one grew before. I should like to see the government spend millions in the encouragement of men and women going to the country, there to live as God intended they should live—to raise children, produce grain, meat and milk. This country, as a government, ultimately must go backward unless we induce the people to go to the farms—out in the country where health may be obtained, where a man may make a living, where the boys and girls may go hop-footing over the hill and valley gaining strength with every step. I can see no back spot anywhere. There will be no standard bank; the country will not stand still at that. There is to be no drastic legislation at the forthcoming congress that I can hear anything about. We must be taught to understand that I can hear anything about. We must learn to be less extravagant than at the rate our people are living, destruction to the whole moral fabric of the nation is inevitable.'

WAR SECRETARY'S FIGHTING SPEECH

LONDON, Nov. 22.—Secretary of War Haldane made a fighting speech before the Eighty Club in regard to the Government's policy on the budget. He declared that the Government accepted the challenge of Mr. Balfour, the Unionist leader, to go to the country on the issues, which would be free trade, the budget and the House of Lords. No quarter would be asked by the Liberals, said Mr. Haldane, and none would be given. The Cabinet, he said, was anxious to be placed before the electors. Since the British Constitution became what it is, no step so violent or so revolutionary has been taken as the contemplated re-arranging of the Budget Bill by the House of Lords. It was opposed to the policy of the Liberals and was a constitutional revolution which would be followed by protection.

GREAT STORM IS RAGING ON LAKES

CHICAGO, Nov. 22.—Rain and sleet, driven by a wind which at times reached a speed of 48 miles an hour, marked the entrance of a storm which has raged all day on Lake Michigan, and throughout the region of the Great Lakes. Only a few vessels braved the big waves which thundered outside the breakwater and

A SILVER BOWL FOR INFLEXIBLE

LONDON, Nov. 22.—Admiral Sir Edward H. Seymour today presented to the flagship *Inflexible* a silver bowl for its wardrobe, to commemorate the battleship's mission in carrying the admiral's flag to the United States celebration at New York.
