**INVESTIGATION**

Investigation into "charges of in-  
efficiency on the part of (Fishery)  
officials and the situation gener-  
ally," with regard to the adminis-  
tration of fishery laws in New Brun-  
swick and Prince Edward Island,  
"particularly the County of Prince"  
is to be carried out in the near fu-  
ture according to Mr. A. E. MacLean,  
M. P. for Prince County.

Mr. MacLean states that Hon. J.  
E. Michaud, Minister of Fisheries,  
has appointed Mr. Justice LeBlanc,  
of the Supreme Court of New Brun-  
swick, to act as commissioner to  
inquire into the above matters.

This action on the part of the  
minister follows numerous com-  
plaints regarding the adminis-  
tration of fishery laws, especially as  
they pertain to lobster fishing. The  
general situation as it pertains to  
illegal lobster fishing will be the  
subject of careful inquiry by the  
commissioner.

Sittings of the commissioner will  
open in New Brunswick in the near  
future, and will take place in this  
province after the New Brunswick  
hearings are concluded.

**SAINT JOHN, N. B., Dec. 2**—Mr.  
Justice A. T. LeBlanc said here  
today that he had been asked by  
the Federal Department of Fish-  
eries to act as commissioner at an  
inquiry but that he had not re-  
ceived any notification of any ap-  
pointment.

### Novel Christmas Gift Provided By Railway

MONTREAL, Que., Dec. 3 — In  
response to public request, the  
Canadian National Railways have  
placed in operation a simple and  
effective plan whereby railway tick-  
ets may be purchased and sent at  
Christmas and New Year gifts to  
relatives and friends, according to  
C. W. Johnston, general passenger  
traffic manager of the company.

While arrangements for such pre-  
paid tickets are in effect through-  
out the year, they are particularly  
timely at the approach of the festi-  
ve season, stated Mr. Johnston.

Tickets purchased in this way  
are good between any points in  
Canada, and also between points  
in Canada and the United States.

An amount for sleeping berth,  
meals and incidental travelling ex-  
penses may also be included as a  
remittance for the convenience of  
the travelling party. "It may be  
the boy or girl at school, a rela-  
tive, friend or business associate  
that may be wanted within the  
family circle during the Christmas  
or New Year's holidays," stated  
Mr. Johnston. "All the purchase  
of such a ticket has to do is make  
request on the nearest Cana-  
dian National ticket office, state  
to whom the ticket is to be deliv-  
ered and all arrangements will be  
made for safe delivery, no matter  
where the residence of the recipi-  
ent may be. This relieves the  
purchaser of all bother about de-  
tails and is a convenience of which  
many people are taking advantage,  
and because the whole transaction  
is handled by the railway, the  
sender is safeguarded in every  
way."

"There is already a large num-  
ber of people who make use of this  
prepaid plan when desirous of ar-  
ranging, at their own expense, for  
the movement by rail of relatives,  
friends and others," Mr. Johnston  
said, "and we anticipate that a  
considerable number of people will  
make use of this convenient ar-  
rangement during the festive sea-  
son."

### COMBAT RHEUMATISM

Rheumatism is often caused by uric acid in  
the blood. This blood impurity should be  
contacted by the kidneys. If kidneys fail, and  
excess uric acid remains, it irritates the  
muscles and joints causing excruciating pains.  
Plan to help prevent rheumatism by keeping  
your kidneys in good condition. Take  
regularly Dodd's Kidney Pills—half  
century the favorite kidney remedy.

### Evidence In Manslaughter Case Concluded

### The Case of the King vs. Harry Wm. Dickie Goes to Jury Today.

The case of the King against  
Harry Wm. Dickie was continued  
yesterday in the Supreme Court,  
Summerside. By 3.50 the evidence  
had been completed and C. D.  
MacCallum addressed the jury for  
the defence followed by Hon.  
Thane A. Campbell, K.C., for the  
Crown. His Lordship, Mr. Justice  
Arsenault will charge the jury this  
morning when the court opens at  
10 o'clock.

Witnesses for the prosecution,  
Mr. Beaudin, road engineer, was  
the first witness called when the  
court opened yesterday. He sub-  
mitted a plan of the roadway  
where the accident occurred. He  
was followed by Dr. J.A. MacPhee,  
who testified that he was called to  
the hospital at 12.30 July 3rd to  
see a man who had been injured  
in a motor accident. A cursory  
examination convinced him that  
the man was dead. From an autopsy  
performed later that day, it was found  
that the man had a fractured skull  
and a laceration of the brain.

Death was due to a fractured skull.  
Roy Sobey, sworn, told how he  
was coming from the concert with  
Calvin Clark and Arthur Mac-  
Quarrie on the evening of July  
2nd. He was walking, the others  
were riding bicycles. Finally they  
went on ahead. Clark turned back  
and came towards the witness.  
Two cars passed, one car passed  
the other. The gleam of the re-  
flectors on Arthur's bicycle was  
picked up by lights of approaching  
car. Witness heard a crash like a  
blowout. Clark came on towards  
witness and both then ran back to  
where they saw the bicycle on the  
road. Arthur was in the ditch.

Two men came running from the  
direction of Borden and one of  
them looked at MacQuarrie. Mac-  
Quarrie was later taken in one of  
the cars to the hospital.

Arnold MacGrath gave evidence  
that he was on the road between  
Tremaine's Corner and Seven Mile  
Bay that night. He was at Chel-  
ton Corner about 11.30. He heard  
some boys coming and recognized  
Arthur's voice. He next saw two  
cars coming from Trueman's Cor-  
ner. One car passed the other. The  
second car only had one light. He  
heard a crash but thought it  
was a blowout. The car was still  
coming on. As he got to Major  
Lowther's woods he saw the car  
pull to the shoulder of the road  
and stop. This was between Wal-  
ter Hammill's and John Hammill's  
place. The witness drove on home  
as he thought they had a blowout.

Edward Steele gave evidence that  
he was in the car with Dickie  
when the accident happened. He  
was in the front seat. They passed  
someone on bicycles or walking.  
Something struck the windshield.  
Sounded like a stone. Dickie stop-  
ped the car in about 50 yards.  
Dickie and the witness went back  
and found a man in the ditch.  
Went for the car and the man was  
out into it. Eidon Hickey drove  
the car first to Dr. Moysie and then  
to the hospital.

### Italy To Boycott League Meeting

ROME, Dec. 2—An official com-  
munique today told of virtual com-  
pletion of the Italian-Japanese ac-  
cord providing for recognition of  
Ethiopia and Manchoukuo.

At the same time, well-informed  
sources said Premier Mussolini in  
all probability would continue his  
boycott of League of Nations ses-  
sions until that body formally re-  
cognized his conquest of Ethiopia.

Because of this, it was said, Italy  
would be unlikely to attend the  
League council session scheduled  
for Dec. 10 to discuss the Spanish  
civil war.

gestion that some responsible body  
should be in possession of the facts  
that were formerly in the posses-  
sion of the Commission."

Rev. Mr. Nicholson: "I don't  
think the Commission was too  
generous with their information.  
There was always difficulty in get-  
ting information regarding the  
vendors."

Rev. Mr. Baker: "But they were  
here to be questioned."

Rev. Mr. Nicholson: "Yes, once  
a year. But that is not often en-  
ough. My own feeling is that we  
should have the executive face the  
Attorney General, and leave things  
to them. In these frequent consul-  
tations whatever is of value to the  
public should be given to the  
press."

The Chairman: "I think in the  
matter of receiving information from  
the Attorney General's depart-  
ment, that discretion ought to be  
used in its use. He did give us

broken glass on the road near the  
accident; some pieces of glass found  
on the road and some taken from  
car driven by Dickie fitted togeth-  
er. He also gave evidence of visor  
on car being bent in as if struck  
by something round. Dickie came  
with George MacLeod to report the  
accident. He was sober. There was  
nothing to indicate he had been  
drinking.

Constable Drummond Hay cor-  
roborated evidence of previous wit-  
ness and submitted tests he had  
made with the car involved in the  
accident. He had known Dickie for  
some time. He had a good reputa-  
tion. Mary Arsenault and Alex  
Nicholson also gave evidence. This  
closed the case for the Crown.

Heath Strong opened the case  
for the defence.

George MacLeod was the first  
witness. He was out driving that  
night and came upon the acci-  
dent. Dickie was bending over  
MacQuarrie. He assisted the in-  
jured man into Dickie's car, then  
drove on ahead with Dickie and  
after an unsuccessful attempt to  
get a doctor went with Dickie to  
report the accident.

Corp. MacDonald, sworn, said he  
had never had any complaints with  
regard to Dickie. There was no  
sign of intoxication when Dickie  
came to report the accident. In his  
opinion bicycles are hard to see on  
a wet pavement. Cross examined  
MacDonald stated Dickie had no  
license to drive a car.

Harry Dickie then took stand on  
his own behalf. He stated he was  
a bookkeeper and worked for Re-  
liable Motors. He had no license  
that night. He took a car from the  
garage, and drove home to supper.  
He later went to MacDonald's  
Garage. About 10.30 he picked up  
Nicholson and then picked up the  
girls and Phil Dadds and about 11  
o'clock started for Borden. He  
noticed lights were on when he  
started the car. He was driving  
about 30 to 35 miles an hour. An-  
other car passed him just after he  
turned the corner. Just after that  
he noticed an object on right.  
Thought it was man on bicycle or  
walking. He pulled over to pass  
it. They were on the right. Went  
to straighten the car on to the  
right side of road; heard a crash  
and the windshield breaking. As  
he realized something had happen-  
ed he stopped the car. Dick and  
he ran back; noticed bicycle on  
pavement; saw two boys and a  
man in the ditch. The witness  
spoke to him and felt for heart  
beat. He appeared to be dead.  
The witness told Steele to get the  
car, and they put the injured man  
into it. With George MacLeod the  
witness went to get a doctor and  
report the accident. He had not  
been drinking.

### Italy To Boycott League Meeting

ROME, Dec. 2—An official com-  
munique today told of virtual com-  
pletion of the Italian-Japanese ac-  
cord providing for recognition of  
Ethiopia and Manchoukuo.

At the same time, well-informed  
sources said Premier Mussolini in  
all probability would continue his  
boycott of League of Nations ses-  
sions until that body formally re-  
cognized his conquest of Ethiopia.

Because of this, it was said, Italy  
would be unlikely to attend the  
League council session scheduled  
for Dec. 10 to discuss the Spanish  
civil war.

permission to make public his de-  
claration last February. But there  
are certain matters that the At-  
torney General and you yourselves  
would not want made public every  
month. I think there ought to be  
a check on the whole situation by  
some responsible body so that the  
abuses which do exist might be  
stopped."

Rev. Mr. Christie: "I suggest in-  
cluding a resolution to the effect  
that the information as to the  
number of prescriptions issued and  
the amount of liquor sold be made  
available at all times to this Fed-  
eration or other responsible citi-  
zens desiring it."

The Chairman: "I don't think it  
is possible to supply it to every  
'citizen.' Other responsible 'bodies'  
perhaps."

### Urges Publication

Rev. Mr. McCleary: "Would it  
not be possible to ask the Govern-  
ment to publish those figures in  
the papers?"

The Chairman: "No. I wouldn't  
like to be a party to that."

Rev. Mr. McCleary: "I should  
think the Government would be  
only too glad to do it. There are  
many rumours going around."

The Chairman: "It would not be  
fair to the medical men."

Rev. Mr. McCleary: "I mean the  
amount of vendors' liquor in the  
stores. Let the public know how  
much is being sold from month to  
month."

Rev. Mr. Nicholson: "Yes. Why  
shouldn't the public have informa-  
tion as to what is happening? We  
got some information today that is  
not very general. Why wouldn't it  
be a good thing for the Govern-  
ment itself? If it is doing its duty  
it should be glad to let the public  
know it. And if so the public ought  
to know it. Why shouldn't we ask  
the Attorney General's depart-  
ment to publish quarterly such  
information regarding temperance  
matters as would be of interest and  
benefit to the public?"

The Chairman: "Mr. Christie has  
brought before you a suggestion  
which more or less includes that.  
It reads: 'Believing that public  
opinion should be better informed,  
the Federation urges that infor-  
mation as to the number of pre-  
scriptions issued and the amount  
of liquor sold through the various  
vendors should be made accessible  
at all times to the officials of the  
Federation and other responsible  
bodies desiring it.'"

Rev. Mr. McCleary: "And should  
be released for publication once  
every quarter."

The Chairman: "I would say  
that would make all the difference  
of having this request refused."

### "Why Not?"

Rev. Mr. McCleary: "Why, if they  
are interested in temperance? Why  
should they refuse?"

The Chairman: "The Govern-  
ment has not refused us any in-  
formation."

Rev. Mr. McCleary: "But what  
good is it doing? It is the public  
we are after."

Rev. Mr. Nicholson: "It will want  
a lot more information than that."

(Rev. Mr. Christie's resolution,  
seconded by Mr. Ira MacKay, was  
adopted.)

Rev. Mr. McCleary: "I think we  
could have included in that a sec-  
ond clause to the effect that the  
information received would be used  
at the discretion of this body, for  
release and publicity; not the doc-  
tors' names, but the number of  
prescriptions that are issued each  
month; and the public can make a  
comparison by keeping the clip-  
pings."

Rev. Mr. Nicholson: "Personally  
I would rather that it should be  
released by the Government, rather  
than through the Federation."

Rev. Mr. McCleary: "My under-  
standing from the chairman is  
that they want to do it."

The Chairman: "Don't take my  
word for that. If you feel that that  
is a thing that ought to be done,  
get your resolution ready and we  
will receive it and put it to the  
meeting."

Rev. Mr. MacLeod: "I think you  
have gone as far as it is prudent  
to go."

Rev. Mr. McCleary: "Prudence?  
I move: Resolved that the Govern-  
ment ought to release once per  
month figures for publicity with  
regard to scrips and vendors'  
sales."

Motion carried.  
The Chairman complimented the  
resolution committee on its work.  
(The question of the Federation's  
duty to stand openly behind its  
field secretary, Rev. Mr. Watter-  
worth, was then discussed, as re-

ported in yesterday's Guardian.  
General discussion followed on the  
financing of educational work).

### Field Work Discussed

Rev. Mr. Nicholson: "I have al-  
ways wondered, in a province as  
small as this Island, whether we  
need the continued service all the  
year of an educational field secre-  
tary. I think at one time New  
Brunswick and Prince Edward Is-  
land had a field secretary between  
them. I have always believed that  
the summer months were the best  
for promotional work. There would  
be no doubt about the difficulty  
of financing. We feel today we  
ought to be behind Mr. Watter-  
worth. We all know that; but  
there is a difficulty about getting  
the community to feel the same  
way, after this immediate crisis is  
past. I believe it would be a good  
piece of strategy. I was wonder-  
ing if he could be continued on a  
smaller remuneration for the win-  
ter months. That would give him  
our backing and moral support,  
but it would not take as much of  
his time—it wouldn't be as expen-  
sive. That is my idea, that Mr.  
Watterworth be continued as edu-  
cational secretary, but asked to  
make such arrangement as he  
thinks possible."

Rev. Mr. Baker indorsed this  
suggestion.

Rev. Mr. Stavert referred to ac-  
tion taken at the Sons of Temper-  
ance, Grand Division, meeting, in  
associating Mr. Watterworth with  
Band of Hope Work.

### Serious Situation

Rev. Mr. McCleary: "The man  
who takes this position is taking  
his life in his hands; that is the  
point. Mr. Watterworth will soon  
be able to give you all his time,  
because his church won't keep  
him, I am afraid."

Rev. Mr. Baker: "Does Mr. Mc-  
Cleary know that, that Mr. Wat-  
terworth's church is going to turn  
him out?"

Rev. Mr. McCleary: "I am fairly  
certain of it."

The Chairman: "We haven't any  
jurisdiction over his church. We  
are not all agreed with the atti-  
tude Mr. Watterworth took at that  
particular time, though it may have  
had some provocation. I don't be-  
lieve that this is the proper meth-  
od of handling the situation."

Mr. Profit: "I think we should  
carry Mr. Watterworth on at the  
present time, with as much re-  
muneration as possible. I don't  
think we can estimate the value of  
his work. He does great work  
among the young people. As I see  
the situation, I think our power as  
a Federation is greatly limited un-  
less we have some man who will  
stand the brunt; and I can tell you  
he has a lot to stand."

Rev. Mr. Stavert: "He has stood  
a lot already."

Rev. Mr. Christie suggested a re-  
solution continuing Mr. Watter-  
worth provided financial support  
could be secured, which was sub-  
sequently carried.

Rev. Mr. Baker: "I object to that  
'provided.' It should be a definite  
commitment."

The Chairman: "Whatever ac-  
tion we take must be contingent  
upon our finances."

Rev. Mr. Stavert: "What we want  
is a definite statement to show  
that we are behind Mr. Watter-  
worth."

Rev. Mr. Christie: "It is difficult  
to make that statement unless we  
know where the finances are com-  
ing from."

Rev. Mr. McCleary: "Perhaps if  
we continue Mr. Watterworth we  
will get no more information from  
the Attorney General."

The Chairman: "That is not a  
fair statement. I have been in  
touch with the Attorney General  
since that time, and I have got  
good information."

Rev. Mr. McCleary: "You may  
have."

The Chairman: "I am the Presi-  
dent of the Federation, and I have  
got good information from him."

Rev. Mr. McCleary: "I didn't say  
with you or any one of us; but  
with Mr. Watterworth it may make  
a difference."

The Chairman: "That is an un-  
fair statement."

The meeting proceeded to the  
election of officers.

**Mr. Harding's Broadcasts**

The question of Rev. Mr. Hard-  
ing's broadcasts on temperance was  
brought up by Mrs. Hazen Howard,  
Provincial Secretary of the Women's  
Christian Temperance Union. Funds  
were needed for continuing  
this work, to which the W.C.T.U.

In London and Europe. This man does not  
merely visit an occasional Auction — he is ON

ESTS. He will maintain daily contact with all  
Sales Houses, with the buying Fur Trade and  
with our Head Office. Such a combination

junction with his activities in the Private Sales

Harding."

Mrs. Howard: "We would be sorry
