The above route will be continued fortnightly during the season, health and weather permitting. Mares at owner's risk.

BABY FALLS FROM ELEVATOR.

NEW YORK, May 6.—A three-year-old child fell from its mother's arms today, through a window of an elevated train on the city structure, in Second avenue. The mother screams were heard by two men, who were crossing the street below, and who glanced up in time to see the child falling and catch it in their arms and restore the youngster to its frantic mother, unharmed.

PEACHES CROP DESTROYED.

MIDDLETOWN, N. Y., May 7.—Seventy per cent, of the peach crop of Orange county is reported to have been destroyed by the recent frosts, the total loss exceeding \$200,000. Pears, plums and strawberries also suffer severely.

SENT TO QUARANTINE.

LONDON, May 7.—The Cape Town correspondent of the Daily Express says that the British steamer Haversham Grange, with cattle from Buenos Ayres, has arrived there, and has been sent to quarantine, as the foot and mouth disease is rampant on board. Two thousand sheep and 250 head of cattle are affected.

TURNING DOWN THE DOCTORS.

The marvelous cures of Catarrh are being talked about. Thousands are daily recognizing the exceptional merit of this simple inhaled treatment, and instead of running to the doctor with their winter illness they protect themselves by Catarrh; it kills colds in the head in ten minutes, quickly relieves Catarrh, Bronchitis, Asthma, Lung Troubles, and cures even though all other remedies have failed. Catarrh is very pleasant, safe and convenient to use, its best recommendation is its enormous sale; try it today. Price \$1.00, small size 25c., at Druggists.

COULD NOT GET IN.

OTTAWA, May 6.—During 1902, 193 immigrants were refused admission to Canada on the ground that they were diseased or paupers. For the current fiscal year, to April 1st, 147 persons were deported for similar reasons.

DR. A. W. CHASE'S 25c. CATARRH CURE.
Is sent direct to the diseased parts by the Inhaled Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Sent from All dealers, Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

H. J. LOGAN'S RAILWAY BILL.

OTTAWA, May 6.—In the house tonight H. J. Logan's bill to incorporate the Quebec, New Brunswick and Nova Scotia Railway Company was read a second time.

TO INCREASE YOUR WEIGHT.

If you are thin, weak and emaciated and want to increase your flesh and weight you should try Dr. Chase's Nerve Food. You can feel it doing you good from day to day, as it strikes at the root of trouble and creates new rich blood. You can prove that it builds up new tissues and adds flesh if you weigh yourself each week while using it.

DROPPED DEAD IN HALIFAX.

HALIFAX, N. S. May 6.—A man named Willis, about fifty years old, dropped dead in the Salvation Army shelter today. He arrived last night and it is said came from Sydney, where he had been working. Nothing is known of him except that he was a native of Ireland.

THE BREAD SUPPLIED TO THE PRINCE OF WALES.

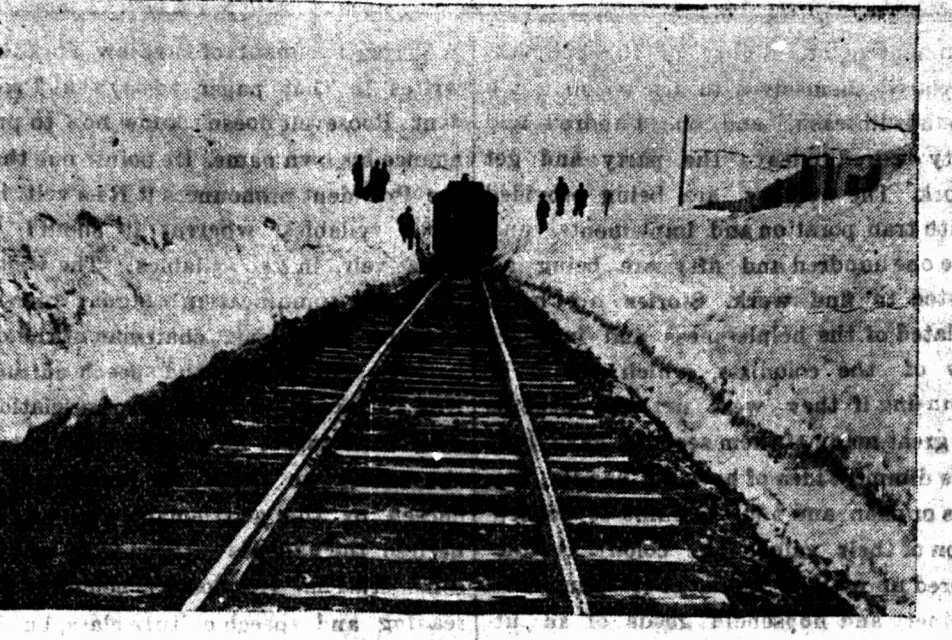

It has been an eye opener to a good many bread makers to discover how much easier it is to get good results from Ogilvie's Flour in bread baking than from any other kind. The most successful bread makers in Canada today are the people who use none but Ogilvie's Flour; they get the same kind of bread exactly as is supplied to the table of the Prince of Wales.

A BIG NEW ENGINE.

SYDNEY MINES, May 6.—Yesterday the Nova Scotia Steel and Coal Company received an eight ton locomotive from the American Machine Works, Schenectady, New York. This is one of the largest engines imported to Cape Breton, and is capable of drawing 1,600 tons of coal to the shipping pier from the collieries.

Gentlemen: Weeks & Co. keep in stock all sizes in full dress shirts for evening wear. These are the correct style perfect fit, finish and material. Latest style collars, ties, cuffs, etc. Weeks & Co. The Peoples Store. 8d 21.

THIS DAY TWENTY-ONE YEARS AGO. The above cut is from a photo taken by R. S. Bowness (then of Clark & Bowness) on May 9th, 1882. It shows the snowed up condition of the P. E. Island railway at a point known as Nod, a short distance west of Emerald.

THIS DATE TWENTY-ONE YEARS AGO A FAR DIFFERENT DAY FROM NOW

An Interesting Sketch of the Weather Twenty-One Years ago With Winter Weather and Abundant Snow on All Parts of the Province.

Much has been said of the severity of the past winter; yet here we are in the early part of May with navigation clear for a month past, the snow all disappeared, the frost going since out of the ground, trees beginning to bud, flowers starting to bloom and farmers commencing to sow their grain. And this is not one of our earliest Springs either. Nor was last winter by any means the longest or coldest, nor was it remarkable for much snow. Older residents tell us of the winters in the years gone by—and yet not very long ago—when conditions were such that the whole province for four or five months was embedded in ice and snow, almost dead to the outside world.

Judging by the glimpses we get through the periodical press, the winter of 1882 must have been erratic and unusual. Here are some items from one of our Summer papers, which carefully observed matters. In an issue of January 4th, 1882 we read: "The weather during the past month (Dec. 1881) was more like April than December—green fields, sunny days, southerly winds with temperature seldom down to freezing point."

"A rainbow at this time of year is a small-sized phenomenon. That which spanned the eastern sky last Friday evening was extremely beautiful and complete from end to end." "During February and March we read reports of snow fights, people being storm-stayed; the weather of January and February extreme to an unheard of extent, one day genial and mild, the next a fierce war of the elements." "In an issue of April 5th, reads an item, 'The weather has again taken one of its January tantrums, quite regardless of the season. A furious snow storm on Sunday last . . . Sounding taken in front of Holman's store (old) would give at least a fathom depth of snow.'"

BANKRUPT RAILWAY COMPANIES.

OTTAWA, May 6.—Mr. Demers introduced a bill in the house of commons today respecting jurisdiction of the exchequer court as to railway debts. It seeks to confer on the minister of railways authority to wind up bankrupt railway companies.

THE AX

of toughest steel becomes dulled by constant use and must have a new edge if it is to do good work. Constant work dulls a man as it does an ax, makes him sluggish of body and dull of mind. He needs a tonic, something that will restore the keenness of mind and activity of body. Dr. Pierce's Golden Medical Discovery puts new life into weak, worn-out, run-down men and women. It strengthens the weak stomach, purifies the blood, and effectively stimulates the liver. The whole body is built up with sound, solid flesh by the use of "Golden Medical Discovery."

THE DENTIST'S TRADE.
A foreign dentist has recently completed a device relating to the harmful effect of the unavoidable inhalation of metallic dust by cutlers and file cutters. Assuming, he says, that in the case of an ordinary active existence in a healthy atmosphere the number of deaths per 100,000 artificers is 100, the figure of mortality resulting from consumption and other lung complaints among the best named workmen would be 200, and among file sharpeners 300. The death rate prevalent in the cutting trade would, it seems, be much heavier were it not that the slight handle magnifying device is included in the statistics. Altogether the number of fatal terminations to pulmonary diseases among cutlers and file cutters is nearly equivalent to the aggregate deaths among fishermen from all causes, including accidents, which are numerous.—London Iron.

UNHEALTHY KIDNEYS

Cause More Sickness and Serious Complications than Anyone Knows.

Thousands of Men and Women Have Kidney Disease and Do Not Know Until It Has Developed Into Bladder Trouble, Rheumatism, Diabetes or Bright's Disease, Which Will Prove Fatal if Not Attended To At Once.

PAINS IN THE SMALL OF THE BACK, painful passing of urine, inflammation of the bladder, torpid liver, cloudy urine, pains in the back of the head and neck, rheumatic pains and swellings all over the body, coma and jaundice tell you your kidneys are diseased and are not able to do their work properly. If you have any of these symptoms great care should be taken to stop the progress of the disease and prevent it becoming chronic and pregnant the entire system.

Thousands of unsolicited letters are received daily from grateful men and women who have been cured by Warner's Safe Cure.

DOCTORS GAVE HIM UP.
Dear Sirs: I feel it my duty to thank you. Eighteen years ago was suffering from kidney complaint, and for two years was very low. The doctors had given me up and I went through an operation. At that time I heard of Warner's Safe Cure and immediately stopped all doctors and commenced using your remedy. For the last fifteen years and a half have enjoyed perfect health. I advise it to all sick people I come in contact with, and with a great many it has effected a cure. Very respectfully, JOHN C. FELZER, Denham, Ind., Dec. 14, 1902.

COULD NOT SLEEP. "SAFE CURE" CURED HIM.
Dear Sirs: I received yours of the 3d inst. I got your trial bottle of Warner's Safe Cure and used it. Since I have taken two large and two small bottles, which I can gladly say have cured me of kidney trouble, for which I had to be up from two to three times a night, now I can rest without getting up. I had severe pains in kidneys and back, and I have no more pain, and am now enjoying perfect health. You are at liberty to use the above statement. I return hearty thanks to you. Signed, J. F. SAUNDERS, Long Beach, Cal., Dec. 11, 1902.

After your morning urine stands 24 hours, if you find a reddish brick dust sediment in it, or particles floating in the urine, or if it is cloudy, you will know your kidneys are in a diseased condition and are unable to perform their work, the result will be the bladder and urinary organs will become inflamed, uric acid will poison the blood, the stomach will be come affected and unable to digest the food, the system will become weak and the result will be a break-down of the general health, with Bright's disease or diabetes, which will prove fatal if not treated with promptness and great care.

ANALYSIS FREE.
If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send a sample of your urine to the Medical Department, Warner's Safe Cure Co., Rochester, N. Y., and 44 Lombard St., Toronto, Can., and our doctors will analyze it and send you a report with advice free of charge to you, together with a valuable book describing all diseases of the kidneys, liver, bladder and blood, and treatment for each disease.

All letters from women read and answered by a woman doctor. All correspondence in strictest confidence.

A KNIGHT OF THE GRIPSACK

Who called at our store a few days ago said, "You have the prettiest colored shirts I ever saw in any town," needless to say he bought one. He was right. There are no better. We sell the W. G. & R. make, not the cheap, gaudy kind that fades in the first or second wash. The (woods) town is full of that kind. If you want a shirt that is first class in make, up-to-date in pattern and holds its color to the last day you wear it. Buy our \$1.10, \$1.25, \$1.35 or \$1.50 shirt.

D. A. BRUCE,

The Up-to-date Haberdasher and Hatter.

A PUBLIC MEETING
Of the Liberal Conservative Electors of Ward Four and Five will be held in B. S. Hall, Kent Street on Monday the eleventh (11th) of May, A. D. 1903 at 7:30 o'clock p.m. for the purpose of organizing and electing delegates to nominate candidates for the offices of Common Council and Royalty, for the Legislative Assembly. All electors interested in the welfare of the Conservative party are invited to attend. P. S. BROWN, Convener. Charlottetown, May 4, 1903.

Portland Cement
600 barrels, best qualities to arrive this week. CARVELL BROS. 22, To, St. 1m.
