There have been several complaints sent in to this paper regarding certain nuisances in this City—for instance a lot on Sydney Street East where there is an unfenced cellar dangerous to the public, also an unsightly and unhealthy cellar full of water on Grafton Street West. Of course The Guardian does not mind mentoining generally that these should not exist but those immediately interested in the matter should call the attention of the proper authorities to the facts.

Another crowded house greeted the evangelists Mitchell and Bilby at the Central Ohristian Church last evening. The meetings are growing in interest each evening, and much good is being done. Dr. Mitchell preached a masterly and powerful sermon on "The relationship of our spirits, in this life and the future life." He went on to show that only as one had the spirit of the Master in this life could he hope to enter into life eternal in the life that is to come, that the wages of sin is death, but the gift of God is eternal life through Jesus Christ. Prof Bilby sang one of his sweet solos and was greatly appreciated by the large audience present. Tonight Dr. Mitchell will preach on the topic. "What must I do to be saved." This sermon will be illustrated and should be of interest to all. Prof. Bilby will sing and give one of his popular sketches. The meetings begin at ight o'clock and all are welcome.

At the City Police Court yesterday morning the test case against certain citizens for running an automobile on the public roads contrary to the law provided, was heard before Stipendiary McDonald. The charge was brought against an automobile owner W. K. Rogers who is acting in concord with other automobile owners in this City. Their interests in court were watched by McLeod and Bentley, and W. A. Weeks, while the prosecution was conducted by Attorney General Palmer anh J. J. Johnston. When asked to plead in reply to the charge Mr. McLeod stated to the court that his client would not make any admission. He contended that the present Court had no jurisdiction in the case saying that the Provincial Legislature of this Province had no power to pass the act known as the Automobile Act, under which the charge was brought. The offence was proved on the evidence of policemen who saw the automobile running on the evening of June 3rd. The running was admitted by J. A. S. Bayer who rode in the car on that occasion. Mr. McLeod then stated to the Court that it was not with any intention of defying or setting at naught the law that this case was brought to court. It was done merely to establish whether or not the Act passed by the Legislature was really law. Attorney-General Palmer intimated that the counsel for the defence should give reasons for his objection. This, Mr. McLeod stated, would require considerable time and would probably be considered later, and he was content to leave the matter in the hands of His Honor at present. The Attorney-General then asked the Court to impose the penalty for the offence, and His Honor thereupon found the defendant named guilty of an offence under the act and imposed a fine of $500. A writ of certiorari will be applied for on behalf of the defendants, and it is probable that the next steps in the case will be before the Supreme Court at next term.
