

How NESCAFÉ saves you money

• Today coffee costs you *even less* per cup when you use Nescafé than it does when you use ordinary coffee in cans or jars. Everywhere, smart thrifty housewives, faced with the soaring costs of ordinary coffees, are demanding Nescafé.

And what wonderful coffee you make with Nescafé! Rich, full-bodied coffee that's alive with flavour. Made in an instant in cup or coffee maker. Just add one cup of boiling water to each teaspoonful of Nescafé. No waste. No messy grounds to dispose of.

Nescafé comes in powdered form in airtight glass jars—4 oz. and 12 oz. sizes. Try Nescafé today.

Delicious coffee—quick as a wink!

More people drink NESCAFÉ than any other instant coffee!

Nescafé (pronounced NES-CAFAY) is the exclusive registered Trade Mark of Nestlé Milk Products (Canada) Limited to designate its Soluble Coffee Product. It is composed of equal parts of pure soluble coffee and added carbohydrates (dextrin, maltose and dextrose) added solely to protect the flavour.

Delay In Opening Of Dial Phone System At S'Side

The dial phone system will not be in operation in Summerside before December 3 and very probably not until late in the month or early in January, it was learned from Mr. Leslie Gass, Manager of the Island Telephone Company, last night.

The engineers had set December 3 as the date when the new phone system would be in use after learning that the deadline previously set for November 29 could not be met. However, an additional delay was now anticipated.
