NEW YORK NOW HAS A BRAND NEW MURDER

A Leading Physician Shot in His Bed Early Saturday - Hack Driver Held on Suspicion The Latest Sensation

NEW YORK, Jan. 28.—Moses Silverman, the St. George Hack driver, who was arrested after Dr. Charles Wilcox Townsend, a prominent physician, had been shot and mortally wounded at his home in New Brighton, Staten Island, Saturday was arrested yesterday and held in \$25,000 bail for further examination.

Magistrate Marsh was not inclined to hold Silverman, but Police Captain Mallogher insisted. The latter declared in court that while Dr. Townsend was being removed to a hospital Townsend said in the presence of Louis Crabtree and a detective that Silverman was the man who shot him. The physician's remarks were previously understood to have been to the effect that Silverman looked like his assailant or that the assailant looked like Silverman.

Magistrate Marsh said if responsible bail for a much smaller amount was tendered, he would re-open the case and accept it. Coroner's Physician Marsh said last night that Dr. Townsend, in a statement made to the Coroner completely contradicted Silverman. This was not brought out in court yesterday. Dr. Townsend was not to be arraigned until today.

Little light was thrown on the case yesterday, although the police continued their investigation. They refused to entertain the theory of burglary and held to the opinion that a personal grievance was avenged in the physician's death. Dr. Townsend, who was shot while in bed early on Saturday died at 10.30 Sunday morning, after testifying that he recognized his murderer but it is generally understood he refused to reveal the man's identity.

Following the death of her husband at the hospital, Mrs. Townsend collapsed. The story of the shooting was told by Mrs. Townsend. It was to the effect that she had been awakened by the intruder, and she called upon her husband to get up. She then started and saw the man and saw him point a pistol and fire twice. She exclaimed that the shooter was a coward to shoot an unarmed man and he turned and left the room.

Mrs. Silverman said today that her husband entertained callers until after midnight on Friday. He went to bed after the visitors left and did not leave the house again until 8.30 o'clock Saturday morning. Dr. Townsend, she said, attended her nine months ago. He also attended her in 1904.

State of Ohio, City of Toledo, L. S. Lucas County Frank J. Cheney makes oath that he is the owner and proprietor of the City of Toledo, Ohio and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every copy of said paper that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY Swears to before me and subscribe in my presence this 30th day of December, A. D. 1906.

tended her husband shortly after that but was never in the house again. Last week she communicated with Dr. Townsend to engage his services again. He did not call at the house.

Mrs. Silverman went to the police station today and pleaded for the release of her husband. She also went to Magistrate Marsh but did not succeed in having the case re-opened.

MEN TURNED INTO BEAUTIES VERY QUICK

Fumes Made Russian Light-Haired And Turned Italians Into Swedes

NEW YORK, Jan. 28.—How to be beautiful is to get a job at the American peroxide plant, No. 63 Murray street, and not get fired too soon.

The peroxide plant is the largest in town. Up to a few weeks ago the operators in the tank rooms were solidly but quite accidentally a part of the German vote. Then two Italians and a dark Russian named Rubin were taken on.

Operators at the peroxide works are paid one a month. With the others, the two Italians and the Russian went to the pay window yesterday. Rubin, the Russian, was first in line.

The superintendent looked him over and decided that there had been a substitution. The man calling himself Rubin had the kind of hair Titian loved to paint and eyebrows that a government mule would have nibbled for straw. Behind him stood the two Italians looking as though they had become Swedes.

The paymaster turned them away with a threat of arrest. One of them went for a foreman of the tank room, who made an explanation.

After working all day, sewing, scrubbing, baking, sweeping, washing, writing, operating a typewriter, or behind the counter, a woman is sure to get tired. It's too bad a woman has to work, still that's the way the world goes, but it's a consolation to know that the pains which come through hard work and worry such as headache, backache, indigestion and dyspepsia can be cured by Hatch Tablets. They are put up inexpensively so anyone can buy them. 10 for 10c. For sale by all druggists.

An advertising Agency has been established in connection with this paper. This persons and firms desiring advertising in any newspaper outside of this city, are having some placed by The Guardian. They thus secure the same rates as if they placed their order direct, and have each advertisement checked to see that it gets the proper number of insertions and appears as desired.

Condensed Advertisements (Too late for Classification.)

LOST - A silver medal pin with monogram on back. Finder please leave at this office. 13131p.

REMEMBER - That everybody reads a morning paper like the new is then fresh and up-to-date, and that at some time during the day somebody is likely to buy the good advertised while their mind is still bright and active.

KAISER'S PLANS EXCITE POWERS

Ha Free Hand Now

Big Docks To Be Built - Five Plants to Be Established Capable of Constructing Largest Warships Afloat.

NEW YORK, Jan. 28.—Apparently the triumph of the German emperor at the polls, which is considered as a stunning setback to the Socialist party, has opened the way for a display of the big naval plans of Kaiser William, which under other circumstances, would probably not have been forthcoming just yet.

Schemes of great scope in a naval way have been shown forth since the elections, and the suggestive announcement was made today in Berlin that Germany will shortly have in readiness five shipbuilding yards capable of building battleships of 18,000 tons and over.

More than this, the statement is made that giant ships will be built at Kiel with the idea of constructing warships of 25,000 tons and 780 feet in length. It is considered that when these ships are completed Germany will be enabled to construct the largest war vessels in the world.

Thus, in the view of other European powers, these ambitious plans are constructed as another step toward the hoped for Teutonic supremacy on the sea. The already widespread holdings of German merchant marine will, of course, be only given greater strength by these new projects. German steamships will be seen in larger numbers in South America, Africa and far Eastern ports and further inland will be made upon the interests of other powers, who, more solicitous than the enterprising Germans, are apparently willing to let well enough alone.

BRITAIN CONCERNED ABOUT KAISER'S PLANS. England, more than any other European power, appreciates the significance of the Kaiser's broad policy, and the British papers are evidently worried over the naval outlook produced by the emperor's victory at the polls. It is realized that further armament will be forthcoming and one of the London dailies looks for "further self-assertion by Germany."

While various comments are made upon the result of the elections the English press is practically a unit in showing concern over the new naval plans. The Morning Post, commenting on the results says the Chancellor Von Buelow, evidently, thinks he has won what would be called in this country a "Khaki" election. His speech shows plainly the sort of policy in which his German supporters suppose the electors will encourage him. There will be further armaments, especially naval, and further self-assertion by Germany in the international sphere.

The Standard congratulates the Kaiser. It says the results show that the Germans support his naval policy, which is a clear indication that Great Britain must not allow her vigilance to be relaxed.

SOCIALIST SET-BACK FAR-REACHING. The Times declares the defeat of the Socialists in an event of considerable importance in the international history of Germany, while it may not be without effect on the general history of Europe. It can hardly fail to exercise a salutary influence on international affairs. A sweeping victory for the Democrats not only might have encouraged the parties more advanced than the German Social Democrats, who in other countries bear the same name, but must also inevitably have led to a prolonged conflict with the German crown in the Reichstag, from which escape might not inconceivably have been sought in a policy of foreign adventure.

There was an illustrious meeting of cardinals, diplomats and members of the German colony in the Austrian church at Rome yesterday at the official to dem

in honor of the Kaiser's birthday which was ordered by the Pope. This is said to have been the first time the Vatican has allowed a te deum for a Protestant monarch.

ABEGWEITS WIN BOTH GAMES WITH THE CRYSTALS

In Arena Rink - Seniors 9-8 And Second Team

4-3

Last night the Arena Rink was crowded with devotees of hockey, the usual lovers of the game in this city—and the routers—being re-inforced by a large contingent of people from Summerside, who had come down to see their team, the Crystals on ice with the home team, the redoubtable Abegweits.

It was a grand evening's sport. Excitement rose as quickly as indignation at a lumbable meeting, and soon the rink resounded with the encouraging and terrifying yells of the supporters of either side. The tussle was between the Senior and second teams of the Charlottetown Abegweits and the Summerside Crystals.

The older players were started first. Shortly after the puck was thrown down the Crystals began to show unexpected enterprise and they kept everybody wide awake. Their ardour lasted till they had got the insidious puck twice into the net, and the row could have been heard in Summerside. Then a goal fell to the Abegweits and the next to the Crystals. Again such made a goal, and just before half the Abegweits were two making the score 4-4 for half time. The noise that then arose could have been heard further than Summerside.

In the second half the first two goals went to the Crystals who were playing a fine game and making the rink a most enjoyable place for sports. But the Abegweits woke up then and three goals one after the other sent the score in favor of Charlottetown and gave about five hundred people sore throats.

The Crystals, however, were not by any means put to sleep, and they put so much ginger into the next few minutes of play that twice there arose the cry which denoted the entry of the puck into the Abegweits' net. Time was now short and the home team one behind. There were some who held their breath even if the silence was not as still as death, but gloom was turned into joy by two more goals being added unto the score of the Abegweits, and the bell ringing shortly after.

There was no question about the game being a good one. Very few of those who were present but enjoyed the sport furnished. There was a little roughness, but nothing to make remark about in such a lively bout between such evenly matched teams. W. Brahan was refereed. The next struggle with the plucky and clever hockeyists of Summerside will be looked forward to with interest.

The game between the junior teams was a good one, but the spectators had been many of them sated with sport by the first game. The two teams made a fine struggle of it, but the victory went to the Abegweits in this game also by a score of 4-3. Charles McQuillan refereed.

MINARD'S LINIMENT CO. LIMITED. SPECIAL - I have used your MINARD'S LINIMENT for the past 25 years and whilst I have occasionally used other liniments, I can safely say that I have never used any equal to yours.

If rubbed between the hands and inhaled frequently, it will never fail to cure cold in the head in twenty-four hours. It is also the Best for bruises, sprains, etc.

Yours truly, J. G. LESLIE Dartmouth.

TEN MILLIONS CHINESE PEOPLE ARE STARVING

Government Unable to Cope With the Situation, But Trying to Help By Taking Peoples Oxen and Buffalo in Pawn.

WASHINGTON, January 28.—Mail reports from American consular officers in China which reached the state department today regarding the famine and the resultant conditions, still further confirm the stories of suffering and hardship among the people in the district affected.

In fact, Consul Naples, at Kanking, says that the famine is ten times worse than anything in that Empire for the past forty years. The Chinese officials, Mr. Haines says, admit their inability to cope with the situation. The government is trying to help the starving people to keep their cattle and to this end is taking their oxen and buffaloes in pawn for two taels each, keeping them thus until next spring, when it will return them. Consul Naines declares that whatever aid may be extended by the government in the present crisis will certainly do much to dispel the ill-feeling recently aroused by the boycott, the exclusion act, etc.

Consul General Rogers at Shanghai advises the department that the reports as to the conditions appearing in the newspapers, both foreign and Chinese, are for the most part sustained by the investigations made by American naval officers. An inquiry which he has made through entirely private sources gives the general impression that the famine will by March first be regarded as severe and perhaps more so than in 1878, by which it is thought ten million lives were lost.

The report of Mr. Rogers is accompanied by a statement by Dr. Henry K. Woods of the Southern Presbyterian mission at Hwai-An-Fu, who estimates that ten million people are affected by the famine, over millions of whom are starving. He says there are at present more than five hundred thousand refugees at Tsiang-Kiang-Pa, huddled in wretched sheds and that the pitiful sight is daily witnessed of parents offering their children for sale at from \$2 to \$4 each. Brigandage and robbery are everywhere rife.

HAMILTON, Ont., January 27.—With the mercury hovering around zero, the natural gas supply of the Ontario Pipe Line Company failed entirely about eleven o'clock yesterday morning. Much suffering resulted, as hundreds of houses were gas heating fixtures. Two of the hotels were unable to prepare the meals as their cooking apparatus was heated by gas.

At the office of the company customers were advised to get coal stoves as there may be no supply for two or three days. It is supposed the pipes are frozen up miles back on the mountain.

SYDNEY MINES, Jan. 28.—Two young ladies of this town are today mourning the loss of twenty-two dollars as a result of carelessness. They decided to send an order for some dress material and other equipment to a Toronto firm, and each contributed eleven dollars for the purpose. While one of the young ladies was engaged in writing the order the other laid the money under some paper which lay on the table and later on went to an adjoining room. Before her return the former finished her writing, and she proceeded to tidy up the table. Noticing some loose, and what she thought waste, paper on the end of the table, she seized it and threw it in the stove. A few minutes later she called her friend, that she might enclose the money in an envelope. Then the discovery was made that among the refuse paper burnt was the combined wealth of the two girls, amounting to \$22.

of the amount due differed. The matter is under negotiation. It is understood that the military credit provides for twenty-one divisions of regulars, including two divisions that will be stationed in Manchuria, Corea and Sakhalin Island. The Manchurian railway guards will number six battalions. The authorities contemplate an increase of the present fifty-two regimental districts to seventy-six, with a view to organizing divisions more readily in case of an emergency.

FITS YOUR CASE EXACTLY. You know how you feel—blue, shaky and heavy. Each morning you waken in a dull "dopy" condition and wish it were night again. Your liver is wrong and needs fixing with Dr. Hamilton's Pills; they do cure all liver ills. At once the system is relieved of poisons, blood is enriched and purified, appetite increases and digestion picks up. If ail and vigor return because Dr. Hamilton's Pills make the body proof against weakness and disease. For your liver, your kidneys, your stomach, for the sake of your looks and feelings, try Dr. Hamilton's Pills, 25c. per box at any dealer.

JAPAN DOES NOT REQUIRE TO MAKE A LOAN Her Finances in Good Shape Not Counting What Russia Owes Her

TOKIO, Jan. 28.—At a meeting of the Budget Committee, Yoshiro Sakatani, Minister of Finance, explained that the Government aimed to prevent fluctuations and had definitely decided not to resort to new foreign loans. He said he was assured by the Treasury Department that the budget of 1908-09, about which was the chief anxiety, would insure a surplus. More than 100,000,000 yen (800,000,000) was due to Japan, he said, for the maintenance of Russian prisoners, but the receipt of this sum was somewhat problematical, as the Russian and Japanese estimates
