After Influenza, Grip

And Other Prostrating Diseases That Exhaust the Strength

There is always a depleted condition of the blood, that extreme tired feeling, nervousness and digestive weakness from which recovery is slow unless a good medicine is taken.

The lack of red corpuscles in the blood makes it too thin properly to nourish the body and the general prostration, annoying humorist boils, loss of appetite and poor digestion prevent progress towards health.

Hood's Sarsaparilla meets these conditions perfectly as many people know. It has proved the greatest blood-purifying vitalizing medicine. Nothing else so good in Spring.

It is made from a formula comprising ingredients often used by the best physicians for impure blood, scrofula, rheumatism, weakness. Truly it purifies the blood and makes the weak strong. It is a fine family cathartic, take Hood's Pills.
