TO HARNESS TIDES FOR POWER.

But before embarking on the Amer-ika for Hamburg for the home voyage, after a three months' outing abroad, Thomas A. Edison had a shore session with the newspaper representatives, in the course of which he told of his inspection of some of the great factories in Germany and dwelt at some length on a conference between himself and Prof. Pein, who for many years has been "wrestling" it is said, with the problem of utilizing for power purposes the ebb and flow of the tides.

It will probably surprise both the American "wizard" and the German professor to learn that at Bath, Me., for nearly three months past there has been in successful operation a small model plant for the automatic impounding and release of the tides that has attracted the attention of hundreds of scientists and practical manufacturers and the interest of not a few capitalists.

in the necessary oiling of the bearings and so forth. The motive power of the model has time and again been carefully computed by engineers and others competent to measure it by scientific processes, and according to local reports no one of them has expressed an adverse opinion as to the perfect practicability of the device when its principles come to be applied on a larger scale.

So far as the latest information hereabout it concerned, there has as yet been no business organization formed for handling the patent and developing the thing in a large way, but the ownership is said to be with very close control with no particular effort at an exploitation that might turn out to be premature.

SOUTHERN OCEAN WHALING.

One of the most remarkable features of present day shipping and on which is not very generally recognized is the enterprise of Norwegians in

Southern Ocean whaling. The first trial, which met with immediate success, was made in 1903 by a Sandefjord firm on the advice of Capt. Carl A. Larsen, who was in command of the Antarctic at the time of Otto Nordenskjold's south polar expedition, and who reported that the sea

PAINS OF RHEUMATISM

Are Ended By Zam-Buk.

When you have any deep-seated pain in the joints, the back, the wrists or elsewhere, place a liberal supply of Zam-Buk on the fingers or on the palm of the hand and rub it in. The penetrating power of this "counteraction-balm" is very great. It kills pain and removes stiffness.

It rubbed on to the chest and between the shoulders in cases of cold Zam-Buk will give speedy relief. Apart from its use as an embrocation, Zam-Buk is a cure for eczema, rashes, ringworm, cold sores, ulcers, abscesses, chapped hands, piles, varicose veins, cuts, burns, bruises, etc. All druggists and stores at 50c. or post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations.

OBITUARY.

The many relatives and friends will regret to learn of the death of Mrs. Christina MacNeill formerly of Douglas St., Charlottetown, P. E. Island. Mrs. MacNeill was born in Belfast in 1830 and passed away Sept. 27, 1911. The greater part of her life was spent in Charlottetown, coming to Boston in 1909 to make her home with her daughter Mrs. C. B. McLaine of 46 Warren Ave., Hyde Park, Mass., where she made many friends in her short stay. Her remains were laid to rest beside those of her brother Alex. MacDonald, who was killed but a few weeks before. The Rev. Mr. Shepler of the Methodist Episcopal Church officiated and the Aeolian Quartette of Hyde Park sang, Lead Kindly Light, Beautiful Isle of Somewhere, and Some Blessed Day. Her nephew J. B. Morrow of New York was undertaker and interment was made at Forest Hill Cemetery. The floral tributes were many and beautiful among them being: Pillow, inscribed mother from Mrs. C. B. McLaine; Wreath, C. B. McLaine; Spray of white and pink roses, marked Gramma, Edith and Eddie; Wreath, Arthur and Mrs. White; Wreath of Galax leaves and pinks--Sister, Mrs. Annie MacDonald; Spray, red and white pinks--Auntie, Miss Sarah MacDonald; Wreath Galax leaves and Red Roses, J. B. and Mrs. Morrow; Sickle roses, pinks and scabiosa, Mrs. and Miss Lowe and Mr. Beaton; Spray pink roses, Robert and Mrs. Ward; Spray White pinks, George K. and Mrs. McLaine; Spray Gladioli, John and Mrs. McPherson; Spray pink and Candy Tuft, Mrs. Bebe; Spray pinks, Mrs. Vincent; Bouquet Astors, Mrs. Kelly.

THE MANUFACTURERS HAVE WARM DEBATE.

TORONTO, Oct. 12--There was a warm debate at the Canadian Manufacturers Association yesterday as to whether a resolution should be sent to Premier Borden opposing any further preference to Great Britain. A resolution was passed without opposition requesting the tariff Commission to draw up a resolution favoring the appointment of a tariff Commission to thoroughly investigate the tariff conditions in the interests of all Canada.

Baltimore, Md., Nov. 11, 1903. Minard's Liniment Co., Limited. Sirs--I came across a bottle of your MINARD'S LINIMENT in the hands of one of the students at the University of Maryland, and he being so kind as to let me use it for a very bad sprain, which I obtained in training for foot races, and to say that it helped me would be putting it very mildly, and I therefore ask if you would let me know of one of your agents that is closest to Baltimore so that I may obtain some of it. Thanking you in advance, I remain,

Yours truly, W. C. McCURRAN, 14 St. Paul Street, Care Oliver Typewriter Co. P. S.--Kindly answer at once.

PATONS

Perfect Porridge in 15 Minutes

SOME housewives don't believe it. That's because they have not tried Tillson's Rolled Oats.

True, you can't do it with some rolled oats, which are so unevenly rolled that they must be cooked all night to become digestible.

But you can do it with Tillson's.

Tillson's Oats consist of perfect flakes rolled to a filmy thinness. Every flake is whole, unbroken and of uniform size. The meal or flour is retained in the flake instead of being spilled out. 15 minutes on the stove cooks them through and through.

And the aroma and appetizing appearance of the porridge made from Tillson's far surpass those of any other porridge you ever ate. Try Tillson's tomorrow.
