Apple Market Policy Is Designed

OTTAWA, Sept. 25—(CP) —To cope with the wartime loss of Canada's apple market in the United Kingdom, the Dominion Government tonight announced a comprehensive policy designed to meet the separate regional needs of the apple industry in the Maritimes, in Quebec and Ontario, and in western Canada.

IGNORANT IN REICH

FOLKSTONE, England —(CP) — Not until she arrived here from a visit to Berlin did Myfanwy Lewis of the Isle of Wight know Germany and England were at war, although she had been in Germany 24 hours after the declaration.

SAFETY PIN FATAL

LONDON, —(CP) —Jean Galloway, six, died of pneumonia contracted after an operation to remove a safety pin she had swallowed. The child was given cotton wool sandwiches that the pin point might be covered.

EARLY RISERS

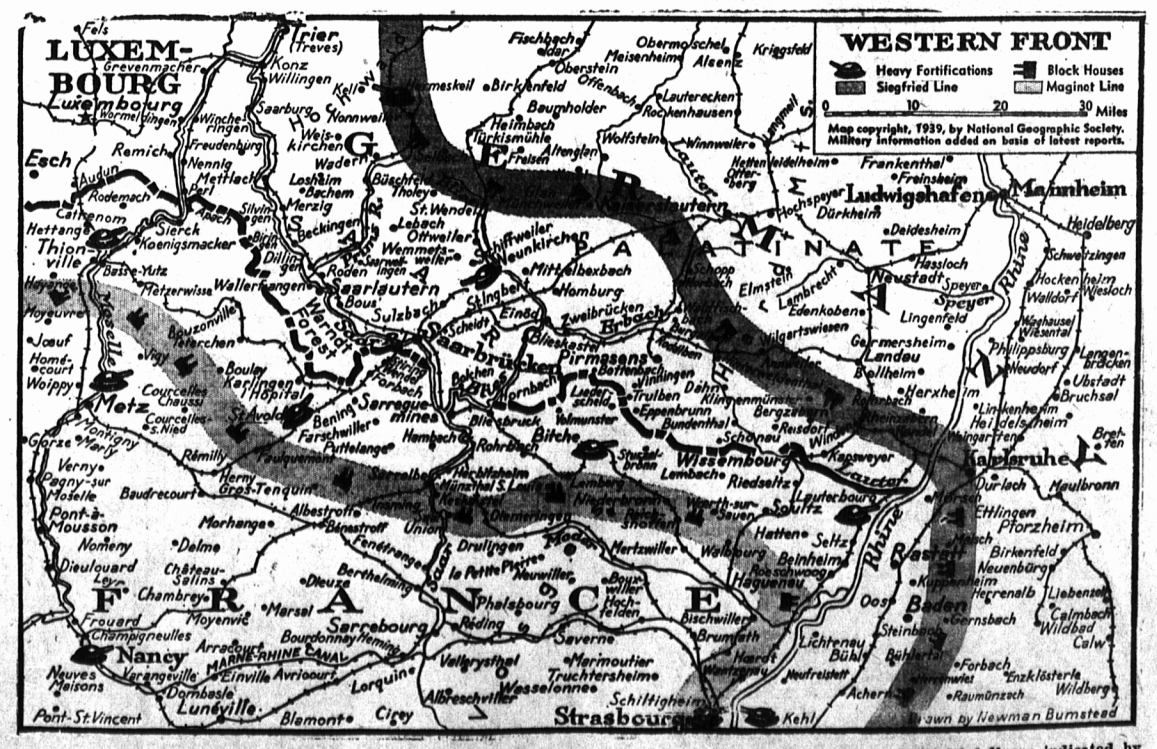
LONDON, —(CP)— Londoners cheerfully obeyed government suggestions that they travel early in the morning to their offices, to reduce mid-morning congestion, undesirable during evacuation of the city.

HOUSES FALLING IN

BRIGHTON, England —(CP) — When a tunnel built many years ago for flint mining subsided here, occupants of three houses in a terrace had to leave hurriedly, and piled their furniture in the street.

EVACUATION CASUALTY

BRIGHTON, England —(CP) — An 11-year-old London boy, Kenneth Holder, died from injuries he received when he fell over a 200-foot cliff here shortly after his evacuation with other children from the capital.



The northern flank of the Western front, where the forts, hidden pill boxes and block houses of the Maginot line in France and the Siegfried line in Germany face each other along the border. Between the lines of block houses and protecting all of the heavier fortifications, are lines of smaller concrete dugouts and pill boxes. It is between the main Maginot and Siegfried lines indicated by the block houses that the action on the Western front has centered, with the French driving into German territory but not yet penetrating the rear lines of heavier German fortifications. Keep this map to chart the course of the fighting.
