TEN MEN WERE HURLED TO DEATH

DETROIT, Mich., May 16.—Ten men, most of them chemists, were killed by the explosion of acid and chemicals in the mixing room of the Mexican Crude Rubber Company on the West side here yesterday. Four other employees, removed from the steaming debris, were taken to a hospital, and all may die. Two men were less seriously hurt. The building, a one storey structure of solid concrete and cement, was almost obliterated. Other buildings within a radius of a mile were more or less damaged. The loss was estimated at \$50,000. The dead are:

Edward Christopher, William McCoy, C. Larsen, Al. Hodeins, Victor R. Burns, William F. Niles, Jose Casse, Gorton Latta, Emon Aman, and George Gleggora.

The four last mentioned victims were Mexicans. All but Gleggoria probably were instantly killed. He died in a hospital. Among those who escaped were John H. Evans, superintendent and John C. Treadwell, manager of the plant. Just what caused the explosion probably will never be known. In the mixing room was a large vat of molten rubber being prepared by a secret process. Without a moment's warning the building was torn to pieces. Every man who was in the mixing room at the moment was killed.

The company manufactured imitation leather, and it is understood that either and other explosives were used in large quantities. Because of the secret process of preparing the crude rubber, employees were not allowed to leave their department to enter other parts of the plant. Few of the employees knew each other, and it was some time before the victims were identified.

Coroner Rothacher said he has started an investigation to determine whether negligence was the cause of the explosion, or whether the concern violated a city ordinance by mixing dangerous explosives within the city limits.

GAS EXPLOSION CAUSES DAMAGE

(Canadian Press.)

ST. JOHN, May 17.—An explosion of gas in the conduit Chambers of the N. B. Telephone Co., here this evening threw five manhole covers into the air and put several telephone wires out of commission. Troop Thorne smelled gas escaping from a manhole and tested the gas with a lighted match. The manhole cover blew up and he was severely burned. The force of the explosion was heaviest at Long Wharf where an iron cover weighing two hundred pounds was thrown fifty feet in the air. In its flight it came in contact with several wires at the top of the pole serving them. No one was injured. Officials say the explosion was unique for the covers were perforated to allow the gas to escape.

SANG TO STAY PANIC

CHICAGO, May 18.—Mme Schumann-Heineck, by a commendable display of coolness, prevented a panic at a concert in St. Joseph's Tabernacle, Clinton Harbor, Michigan. She was singing the Rosary when, following a terrific peal of thunder and continued flashes of lightning the lights went out, leaving in complete darkness 2,500 persons, many panicky. Realizing the situation Madame Schumann-Heineck continued to sing and the fears of the audience had been dispelled when the lights had been flashed on again.

"NA-DRU-CO DYSPEPSIA TABLETS"

Proved of Great Value to Me"

There is only one explanation for the numbers of enthusiastic letters that we receive praising Na-Dru-Co Dyspepsia Tablets, and that is that these tablets certainly do cure any kind of stomach trouble.

Here is a typical letter from Miss Eliza Armsworthy, Canso, N.S.:

"It is with pleasure I write to inform you that your Na-Dru-Co Dyspepsia Tablets have proved of great value to me. I tried remedy after remedy but without any lasting good. Having heard of your tablets curing such cases as mine I decided to give them a fair trial. They proved satisfactory in my case."
