Happenings of the Week

Mrs. (Judge) Inman and her sister, while the general outlook will be more slender than heretofore. Mrs. Bears entertained at a charmingly arranged bridge party last week at their home in Summerside.

The sympathy of friends throughout the Province goes out to Mrs. W. K. MacGougan and family in their recent bereavement.

Mrs. Escey entertained the mixed bridge club at her home in Summerside this week.

Mrs. H. H. Lefursey was hostess at a charmingly arranged party of seven tables on Thursday evening. Delicious refreshments were served at the conclusion of play.

Mrs. Robert Gardine will be the hostess this evening for the East End Bridge Club.

A charming social event in Summerside this week was the bridge party given by the Daughters of the Empire in the Library Rooms on Tuesday afternoon. There were eleven tables and the affair was considered one of the most successful parties the Order has given. Afternoon tea was served during intervals of play.

Mrs. Morley M. Bell of Summerside spent the week visiting in Charlottetown with friends.

Dr. S. K. Donald of Moncton arrived on the Island early this week to be with his mother, Mrs. Donald of Malpeque, who is in a very serious condition and not expected to recover.

Pewter is now being used to decorate bedroom furniture. A delightful bedroom suite was in rosewood, the dragon design of its hand-wrought pewter covering lighted up with red-brown Ruskin stones and tinted mother-of-pearl. A charming toilet set to match the furniture was in a leather case of the same soft sheeny grey as the pewter.

Here is how the well-dressed man will look in the spring and summer of 1923, as decreed by the International Association of Clothing Designers.

The predominating color is green. Shoulders will be broader, waist trimmer and higher, coats longer and sleeves narrow at the hand, indicating that anything but the splendor young man will be passe.

Bottle green and a deep, dark blue are the predominating colors for sports wear, and a return of the notched lapel is favored. Sports coats to be worn with flannels are trimmed with white pearl buttons, patch pockets and belted backs, and one display of business suits was of bright green, elaborated with bright green buttons.

For the well-dressed man, H. K. Burnam, secretary of the association, issued this style forecast at the close of the organization's semi-annual convention: "There will be a decided tendency toward square shoulders of generous width for sack coats, and definite outlines will be stream-lined."

Was Weak and Run Down Could Scarcely Do Housework

Mrs. Edward A. Allen, Beausoleil, Ala., writes: "I would like to tell you of the great benefit I have received from your Milburn's Heart and Nerve Pills. I was feeling very much run down in health, and was so weak I could scarcely do my housework, in fact, I would have to lie down in the afternoon for an hour or so. I saw your Pills in the drug store and took a box home with me, and I was delighted with my renewed strength. I have recommended them to a neighbor and feel sure they will help her too."

Price 50c a box

Sold by all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

BRIEF SESSION FOR N. S. SOLONS

Little Contentious Matter In Prospect For Session Which Opens Feb. 19.

(Canadian Press) HALIFAX, N. S. Jan. 23.—The third session of Nova Scotia's seventeenth legislature since Confederation, which opens on February 18, is expected to be brief, last year's session, which opened on March 5, was drawn out until the end of April by extended discussion of the Liquor Control bill, and to some extent, by the measure providing for regulation of the pulpwood cut; this year, however, anything in the way of legislation likely to provide unusually lengthy debate is unexpected. Prominent as an incentive to occasional wordage during the past few years, Old Age Pensions will undoubtedly come in for increased attention at the coming session, with a likelihood that the prorogation will find a pensions measure on the provincial statute books. Following the assertion of Premier Bracken of Manitoba that Prime Minister Bennett had assured the prairie premiers that the Federal Government was prepared to assure 95 per cent of the cost of such disbursements, Premier G. S. Harrington of Nova Scotia stated that if the Manitoba premier was correctly quoted, the Nova Scotia government would prepare legislation, to be introduced at the coming session, providing for the inauguration of an Old Age Pensions scheme in this province. The Liquor Control Act, also, will undoubtedly be drawn to the House's attention on many occasions. Amendments to this measure are expected to be few, as it is believed the Government will wish to see the Act in force a full year before altering its provision or machinery of operation. Last year an opposition demand that the municipalities share in the profits of government sale was met by the suggestion of Premier Rhodes that after a year or two of operation and consequent knowledge of the economic situation resultant therefrom, the question might be brought up again with a view to action. Net profits from the 'Act's going into force on August 18 to September 30, end of the fiscal year, were \$23,000 on a \$600,000 turnover, and although the opposition will likely renew a demand for municipal participation, it is unlikely the government will propose or accede to any such scheme this year. New return for the six weeks in question were cut, of course, by organization of the Nova Scotia Police and of the Liquor Commission machinery of administration.

The question of hotel and tavern sale of beers and wines is another matter to come under review. The New Brunswick Liquor Commission recently refused a request of New Brunswick hotel men for hotel sale, on the ground that the matter was properly a question for the government to settle. There is provision in the Nova Scotia Act for the taking of local plebiscites to settle this problem, the towns concerned to pay the cost of such a vote. So far Glace Bay is the only town circulating the petition necessary for the taking of a plebiscite. It is understood the government takes the position that for it to pay the cost of these plebiscites would be looked on as encouraging the sale of liquor, and no such course could properly be taken.

ALBERTA PREM. DENIES RUMORS

(Canadian Press) CALGARY, Alta., Jan. 23.—Premier J. E. Brownlee of Alberta in a statement to the Canadian Press today denied that he said at Vancouver there is reason to believe Russia has made tentative proposals to Canada with a view to co-operation in stabilizing the world price of wheat. Mr. Brownlee was quoted as having made a guarded statement to that effect last Monday. I have heard rumors that Russian authorities are not well satisfied with existing wheat prices, stated the Alberta Premier on his arrival to discuss the situation. However I have no information of any definite action having been taken and am not at all certain of the dependability of the rumors.

that time, with Hon. Mr. Rhodes in the throne was read for the first time by Hon. J. C. Tory, who had been a member of the previous house on the former government side, which the election of 1925 had transformed into the opposition. That opposition was led by Hon. William Chisholm, assuming the position for the first time. In this case, both Premier and Lieutenant Governor have occupied seats in the same front row. The house this year will number six less than last, the present party standing being Government, 21 opposition, 16. This was brought about by the resignation of four opposition members to contest the Federal election, all of whom were unsuccessful, Hon. Mr. Rhodes appointment to the Federal Ministry, and Hon. Mr. Stanfield's elevation to Government House. No by-elections have been held to fill these seats. Incidentally, two of the seats vacated by opposition members, that of D. A. Cameron in Victoria, and E. C. Doyle in Richmond, have passed out of existence by their resignation. Under the redistribution act of 1920, the assembly was reduced from 43 to 38, to take effect at the next general election. In the meantime, however, should vacancies occur in any of the five counties reduced from two to one man constituencies, these seats were to remain vacant.

New Portfolio

Since the house last met a new portfolio has been created. Dr. George H. Murphy, previously a member of the executive council without portfolio, assuming administration of the new department of Public Health.

The opening will be marked, also, by the presence of a new lieutenant Governor, a new premier, and a new opposition leader. Lieutenant Governor the Hon. Frank Stanfield, occupied a seat on the government side of the house last year, and Hon. G. S. Harrington, Minister of Mines was sworn in as Premier last summer succeeding Hon. E. N. Rhodes, now Federal Minister of Fisheries. Across the floor the responsibility of leading the opposition attack will rest, it is understood, on A. S. MacMillan, member for Digby. Angus L. MacDonald was chosen leader of the Liberal party in Nova Scotia following the resignation of Hon. William Chisholm because of ill health. But Mr. MacDonald is not a member of the legislature, and J. C. Chisholm, although retaining his seat, does not appear to accept the responsibility of leadership, it is understood.

Incidentally, almost the same situation with respect to personal occupation when the first Conservative Government in many years took office in 1923. At that time, with Hon. Mr. Rhodes in the throne was read for the first time by Hon. J. C. Tory, who had been a member of the previous house on the former government side, which the election of 1925 had transformed into the opposition. That opposition was led by Hon. William Chisholm, assuming the position for the first time. In this case, both Premier and Lieutenant Governor have occupied seats in the same front row. The house this year will number six less than last, the present party standing being Government, 21 opposition, 16. This was brought about by the resignation of four opposition members to contest the Federal election, all of whom were unsuccessful, Hon. Mr. Rhodes appointment to the Federal Ministry, and Hon. Mr. Stanfield's elevation to Government House. No by-elections have been held to fill these seats. Incidentally, two of the seats vacated by opposition members, that of D. A. Cameron in Victoria, and E. C. Doyle in Richmond, have passed out of existence by their resignation. Under the redistribution act of 1920, the assembly was reduced from 43 to 38, to take effect at the next general election. In the meantime, however, should vacancies occur in any of the five counties reduced from two to one man constituencies, these seats were to remain vacant.

Bandits Stage Daring Hold-Up

(Special to the Guardian)

BELLE FONTAINE, Ohio, Jan. 23.—Six bandits, their faces swathed in red masks, boarded the Detroit-Cincinnati "big four" train at Grant's today, shot a passenger and escaped with cash and jewelry worth \$2,500. Among the passengers were four Canadians, Mr. and Mrs. W. W. Young, 35 Lyall Ave., Toronto, who lost nothing, and Mr. and Mrs. Alec McPherson of Cedar Springs, Ont., Kent County, who were robbed of \$80.

It was a methodical, carefully planned robbery and passengers roused from their sleep, tumbled into the aisles of the pullman car, while the robbers swiftly went through their luggage and then marched the occupants of the car to dressing rooms where they were searched. Edwin K. Nelson, Jr., of Tampa, Fla., made an outcry as the bandits began to search him and he was promptly shot, the bullet piercing his left lung. Nelson's condition was regarded as serious. He was in a semi-conscious condition, unable to furnish an account of the holdup.

After all the passengers had been robbed, the six men jumped from the train at what police said was a selected spot, where accomplices in automobiles were awaiting them.

BELLEFONTAINE, Ohio, Jan. 23.—Every community in this section was on watch tonight for trace of six daring train bandits who shot and seriously wounded one passenger and robbed five others, among them two Canadians on a big four pullman car as the train sped between Carey, Ohio, and here early today. The Canadian victims were Mr. and Mrs. Alex McPherson, of Cedar Springs, Ont. Cash amounting to \$90 was taken from Mr. McPherson, but his wife, by a clever ruse, saved \$300 from the bandits. Mr. and Mrs. W. W. Young, of Toronto, also on the train, slept soundly through the hold-up.

NATIONALIST QUARTERS UNIMPRESSED

By Premier MacDonald's "Policy"—Fear Further Unrest Due To Unsatisfactory Ending of Session.

BOMBAY, India, Jan. 23.—Widespread criticism was heard in Indian Nationalist quarters of the scheme of federal India evolved at the London Round Table Conference, and the British Government's proffer of an eventual qualified Dominion status. The Bombay Chronicle, principal Nationalist organ, commenting today upon the statement of British policy by Premier Ramsay MacDonald in closing the conference yesterday, said:

"A Minor View"

"As far as one can see in the wilderness of MacDonald's glib phrases that the Labor government intends to impose upon this country a system of camouflaged self-government in which the safeguards for Britain are the principal element and the bestowal of genuine responsibility upon the Indian people a minor item. There will be responsibility at the centre of a type which no Dominion in the British Empire would have accepted for a moment, a responsibility irritatingly reserved and in which the will of the legislature will count for nothing when some important items of National interest such as finance, defense and foreign relations are concerned. Would Canada or South Africa have accepted such 'Dominion' constitution?"

FORCE TELEGRAPHERS TO LEAVE FOR STATES

TORONTO, Jan. 21.—Because of complaints made to the immigration department by other telegraphers dropped by the company when reduction of staff became necessary, three telegraphers employed by the Canadian National Telegraphs may have to return to the United States.

That the three men must return to their homes in the United States by the decision of the local inspectors, who instituted an inquiry, it is stated. The telegraphers concerned have lodged an appeal with the department at Ottawa, and are awaiting final decision in the matter. No information or information of any action having been taken by the department of immigration against three telegraphers in the employ of the Canadian National has been received by an official of the telegraphers' department, he stated.

Praise Closing Speech LONDON, Jan. 22.—The policy of the British Government on self-government for India, pronounced by Prime Minister Ramsay MacDonald as he closed the Indian Round Table Conference yesterday, received wide commendation in the newspapers today. Liberal, Labor and Conservative organs alike, with only scattered exceptions, praised the Prime Minister for his most careful review of the highly important steps that may be undertaken.

N. B. Will Spend Million Dollars On Unemployment

FREDERICTON, N. B., Jan. 23.—More than a million dollars is being expended in New Brunswick under the unemployment relief plan, according to figures given out today at the conclusion of a meeting of the Cabinet here.

The Provincial Government has already distributed \$461,500 of its total allocation of \$600,000 from the Federal Government under the plan, the figures showed.

Expenditure in the different counties, of which the Dominion Government fund shares 40 per cent, and the Provincial Government 60 per cent, totals \$715,000. The Dominion Government's share in this amount was roughly \$286,000. Provincial and Federal Governments each contributed 50 per cent of a sum of \$28,000 for unemployment relief work in cities and towns.

APPORTIONMENT

Under the plan the cities and towns must put up another \$81,000 so that they bear half the total expenditure while Province and Dominion each bear 25 per cent of the total, which is \$162,000.

The Federal Government gave \$75,000 directly to the Provincial Museum at Saint John, and \$60,000 to the Provincial Government as compensation for loss of revenue incurred by a reduction of the stampage rates in New Brunswick.

With an expenditure of \$715,000 in the counties, \$162,000 in the towns and cities, \$75,000 on the Provincial Museum and \$60,000 for the reduction of stampage, the total amount being expended under the unemployment relief plan is well over \$1,000,000. The Provincial Government still has \$38,500 of its original allocation of \$600,000 from the Federal Government to distribute under the plan. (Canadian Press)

NEW YORK, N. Y., Jan. 23.—James A. Farrell, President of the United States Steel Corporation, said today there was no foundation for a report that he would visit Premier Bennett of Canada next week with a view to discussing the extension of the United States Steel Corporation's plant at Ojibway, Ont. The report emanated from Ottawa.

FAMOUS SHIP ENDS CAREER

PORTLAND, Me., Jan. 23.—Once the pride of the North Atlantic sailing fleet and one of the fastest vessels on the coast, the five-masted schooner Bright, built in 1918 at Seattle Wash., will end her days as a coal barge.

With the exception of one trip on the Pacific Coast, the Bright worked between North Atlantic ports. Like many of the old sailing ships, she had a hectic career. When owned by Walter E. Ried, Portland millionaire, in 1927, the schooner had her bow smashed in a collision with a steamer, and was towed to this port. Two years later she was towed to Falmouth Foreside, and plans were underway to convert her into a floating dance hall when she broke loose from her moorings and crashed into The Brothers, two islands in the harbor. She was refloated and

schooner Bright, built in 1918 at Seattle Wash., will end her days as a coal barge. With the exception of one trip on the Pacific Coast, the Bright worked between North Atlantic ports. Like many of the old sailing ships, she had a hectic career. When owned by Walter E. Ried, Portland millionaire, in 1927, the schooner had her bow smashed in a collision with a steamer, and was towed to this port. Two years later she was towed to Falmouth Foreside, and plans were underway to convert her into a floating dance hall when she broke loose from her moorings and crashed into The Brothers, two islands in the harbor. She was refloated and again towed to an anchorage in the harbor. A few weeks later the vessel was dismantled, her rigging sold and her long masts shipped away to be used as hoists in a gigantic quarry. The Bright measured 238 feet in length and registered 2,100 tons gross. She had been anchored in the lower harbor for months when it was decided to moor her by a local coal firm for use as a storehouse for coal.

GROUND LIME STONE

We have shipped large quantities of Ground Limestone to the Island and it has given wonderful results. We solicit your orders for either bulk or bagged Lime. Can ship bagged lime at one day's notice.
