Crop Report

Below will be found a brief synopsis of telegraphic reports received at the Head Office at the Bank of Montreal, from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all sections of the districts mentioned.

GENERAL

Crops in the Prairie Provinces are backward and a week to ten days later than at this time last year. Cool weather is retarding growth but this and scattered showers generally have prevented serious damage from drought. Few districts are actually suffering from lack of moisture and all crops would benefit from good steady rain followed by warm weather. In Quebec all crops are late but are making rapid growth. In Ontario good showers have been reported from a few scattered districts but there has been no general rain and while crops so far have made fair progress they are now commencing to show the effects of the long dry spell. In the Maritime Provinces much needed rains have improved generally favourable crop prospects. In British Columbia warm weather following heavy rains has been beneficial and crops generally are in a healthy condition: Details follow:—

PRAIRIE PROVINCES

ALBERTA WESTERN AREA

There have been no general rains for several weeks and crops in the northern part of this area have suffered from lack of moisture although those on good summer fallow are doing fairly well. Frost has done some damage. Conditions south of line from Drumheller through Acme and Olds are favorable, although rain would be welcome. The sugar beet crop is making good progress. ALBERTA NORTHEASTERN AREA. While there have been intermittent showers crops have suffered greatly from lack of moisture, high winds and frost. ALBERTA SOUTHEASTERN AREA. Conditions continue favourable but crops are about a week later than usual. Alfalfa and hay crops are good. SASKATCHEWAN NORTHERN AREA. There is sufficient moisture for present needs over practically the whole area. SOUTHERN AREA. Except in the southwest of the district where rain has fallen, cool and dry weather is adversely affecting crops and growth of crops is slow, although the crops still have a healthy stand. MANTOBA. Early sown grain is well stood and making satisfactory progress. Wheat in many districts is in short blade. Good steady rain and warm weather would be beneficial.

PROVINCE OF QUEBEC

The warm weather and recent rain during the past week have been ideal for growing and conditions are very satisfactory. Grass pastures are in good condition. Apple trees set well and small fruits are promising. Tobacco planting has been done under favourable conditions.

PROVINCE OF ONTARIO

Fall heat is now falling out with a fair length of straw and a good average crop is expected. Haying has commenced in western Ontario and the crop will be a good average. Spring wheat, oats and barley were planted late and the growth has been retarded owing to dry weather. Root crops are looking well. Tobacco planting is just completed under fairly favorable conditions. Strawberry berries, which gave good early promise, are drying up and the yield will be only about 50% of an extent. Apples give promise of a heavy crop, while peaches, plums, pears and cherries are fair only. Pastures are urgently in need of rain.

MARITIME PROVINCES

Recent rains have much improved prospects. Grains are making good growth and promises well. Grass pastures are excellent. The planting of potatoes is about completed. Some early varieties are showing and looking well. Apples are setting heavily. Small fruits are promising.

CHESTER MACDONALD

Mr. and Mrs. James MacDonald of Canoe Cove here the sympathy of many friends in their bereavement. The Angel of Death has entered their home and taken their three year old son, Chester. "They sorrow not as those who have a hope," knowing that Jesus, the children's Friend, carries their precious little one in His arms. "Safe in the arms of Jesus Safe from corroding care Safe from the world's temptations Sin cannot harm him there." Rev. W. R. MacFarlane conducted the funeral services, and the body was laid away in Long Creek Baptist Cemetery.

Maritime Electric Employees Enjoy Campaign Banquet

Lengthy Toast List Calling for Many Reminiscences From The Older Employees Was Admirably Responded To.

One of the most enjoyable banquets of the season took place at the Queen Hotel on Tuesday evening when the Maritime Electric Company entertained their employees on the eve of the campaign which opened Wednesday for the sale of bonds of the Associated Gas and Electric Company. This sale is being conducted by the employees divided into two teams under the management of Mr. N. F. LeGendre of Allantown, Penn. The teams are known as the Pontiac team captained by line foreman Reg Cox and the Essex team captained by George Binns of the office staff. At 7 o'clock all the employees who were not on night duty sat down to a most appetizing banquet, the kind for which Mr. and Mrs. H. C. Brown are famed. The happy gathering was presided over by the genial and popular Superintendent, Mr. James T. McKee with Mr. J. H. Williams, the company's obliging and courteous accountant on the opposite end. While the tables were being cleared a sing song led by Mr. Williams who may incidentally be mentioned possesses a musical baritone voice, was entered into with zest by the boys after which the first toast—the King was proposed by Mr. McKee the assembly singing the National Anthem. Mr. McKee announced the opening of the campaign on the following day and felt sure the men would co-operate to make it a success. Speaking of co-operate he said since he became associated with company there had been considerable uphill work and had it not been for the faithful co-operation of the employees during the past twelve years they could never have accomplished so much. The toast to Our Guest, proposed by Mr. McKee was responded to by Mr. LeGendre; as he arose the "Star Spangled Banner" was rendered by the pianist. Mr. LeGendre in responding said he was looking forward to the next six weeks of good hard work. Co-operation seemed to be his second name. If this campaign did not "go over" in the other provinces he was sure it would here judging by the "pep" he had seen displayed by the boys here. For the past eight years he had been on campaign work in the United States, this being his first time in the Maritime Provinces. In those eight years campaign there had never been a failure. It would not be a success if they depended upon him, he said, as he was a stranger—it must be the employees who must get in contact with the prospect. The manager in Boston is awaiting anxiously the first day's report. Reports from all points were most encouraging. He wished to come back to the Maritimes and to put only way he could do this was to make a success of the undertaking. Concluding, he said he never met such a crowd of employees who were so willing to help him in every way. Mr. W. H. Murray, manager of the Commercial Department in responding to the toast of "The Associated Systems, Our Executives, etc." in a short address, said he had received a letter that morning from Mr. J. T. Coleman, in which the former local superintendent stated he knew the campaign would go over equally as well as the "Lamp Campaign." The property was second to none in the Associated System. The toast "The Pontiac Team" was responded to by Mr. Reg Cox, captain of the team, who briefly outlined the work and felt confident his team would co-operate to make this campaign a huge success. Mr. George Binns, captain of the Essex team, whose slogan is "We Get There," also said his team was prepared to work overtime to make the campaign a success and concluded with the following original verse: Here's to good old Essex, For punctures are only a scream, But with rims bare, But with rims bare, Here's sure to get there. The toast to "Our Veterans" was responded to by Messrs. Reg Cox and Patrick McMahon. Mr. Cox in his opening remarks stated he was thirty-three years with the company. He referred to the many changes during that time in plant and equipment and referred to the street lighting. An amusing incident was referred to when he stated at one time in the long ago, there was many "open circuits" which gave considerable trouble—about one a week. The Superintendent offered a prize of \$50 to the employee who discovered this open circuit and arranged to say after the offer was made those troublesome "opens" jumped to two and three a week. Mr. McMahon stated he was thirty-one years with the company. When he first became associated with the old company they had only one engine and little machinery. Mr. McMahon traced the growth of the company, the difficult work in those early days and referred to the different superintendents. Mr. Ed. Hartinger responded to the toast "Our New Canadian," Eddie, who only recently became naturalized, thanked the company for honoring him on the toast list and said he was proud to be now a native of this country. "The Maritime Electric, Charlotte-town Branch" was responded to by Mr. J. H. Williams. He said we were now in the midst of life's golden jubilee—it was about half a century since the incandescent lamp was invented by Thomas Edison. The electric industry celebrates "Life's Golden Jubilee" from June 17th to Oct. 21st. Here Mr. Williams proposed a toast to Edison which was heartily drunk. Continuing Mr. Williams traced electrical progress since 1880 when the first commercial station was opened. The industry expanded quickly and five years later Charlottetown had electric current. He referred to Mr. A. E. Morrison of this city who helped to link the Island with the mainland by cable. The speaker said he became associated with the company some twenty-five years ago and many changes of considerable magnitude have taken place until now they have a plant fully adequate for the city. He referred to the old gas producing engine—the first on the Island and how much trouble and anxiety it had caused. How the system at that time had been dubbed by one newspaper, "the intermittent irregular system." The speaker went on to relate some of the trouble with "lights out" and complete "shut downs" on account of accidents at the plant. But they were not all failures—the could always rely on the linemen and also on the men in the station. Those men deserve the thanks not only of the company but the citizens as well. There was never a celebration in the city when the boys were needed but they were always ready to put up illumination to the satisfaction of all. He referred particularly to the Confederation illumination, when the contract was almost completed, some thousands of lights were all ready to turn on, a few days before the celebration word was received of the outbreak of war. Almost five years later those lights were turned on after being out in all kinds of weather, and threw out their brilliancy—not a lamp out. Mr. Williams said they had a task before them—to sell securities in the Associated System. They need not apologize when they went out to meet an investor—they were doing the investor a favor. Concluding he explained the need of a campaign and the soundness of the bonds. Mr. C. Mansen proposed the toast to the Superintendent, Mr. J. T. McKee, who in responding said he often wondered if any one ever thought of the long, lonely night hours spent by firemen and engineers in the plant. He paid a worthy tribute to Mr. Patrick McMahon and also the men of the company who were always willing to "fall to" when required. The toast to the Ladies was responded to by Mr. Frank Cox and to the Press by Mr. Chas. Mitchell of the Patriot. Mr. LeGendre then gave a short talk on selling after which the proceedings closed with the National Anthem. Miss Lillian Earle presided at the piano.

WARD—BUCHANAN

A very quiet but pretty wedding took place at the home of Mr. and Mrs. L. R. Silliphant, Hunter River at 3 p. m. on Wednesday, June 26th when Miss Margaret Isabel Buchanan daughter of Mr. and Mrs. Anthony Buchanan, Elmwood was united in marriage with Mr. Louis Davis Ward, Hampshire. The ceremony was performed by Rev. R. Hensley Stavert, M.A., B.D., in the presence of a number of the friends of the contracting parties. The groom was ably supported by Mr. Wilbur R. Younker while the bride was attended by her sister Miss Hazel May Buchanan. The bride was beautifully gowned in sapphire blue crepe-back satin. Her going away coat was of blue charmeuse with fur trimmings and she wore a hat to match. After the ceremony was over the wedding party sat down to a daintily prepared lunch. Later they left by car amidst showers of rice for Charlottetown after which they were to attend a marriage supper at the home of the bride's parents Elmwood. Mr. and Mrs. Ward will reside at Hampshire. The Guardian joins in wishing the young couple many years of happy wedded life.

candy." Mr. Henderson spoke briefly about the success of the examination and the fine work accomplished by Miss Miller during her short stay in Port Hill. He also moved and extended a vote of thanks to Miss Miller for the splendid way in which the examination was conducted. The following address and presentation will speak for itself as to the high esteem of the parents and pupils for Miss Miller. Dear Teacher:— We your beloved pupils of Port Hill School realizing that the end of our school year is at hand cannot let the occasion pass without expressing our deepest feeling of satisfaction for the kindly manner in which you have treated us during the time you were with us. We realize that your lot among us was not always a pleasant one and that on many occasions we have given you plenty care and worry. Notwithstanding the fact that you have always met us with a kindly smile. In conclusion, Dear Teacher, we ask you to accept this small gift not for its value, which is small, but as a token of the good fellowship that exists between us. Signed on behalf of the Pupils of Port Hill School.

THE MAYFLOWER

First messenger among the flowers Of sunny, bright May days. Your palish colors blossom forth While birds do sing their lays.

All through the lonely winter you Have lived beneath the snow, While days were short and frosts were keen And angry winds did blow.

If flowers have such faith as this Their maker to obey, Why do we not confide in Him Throughout our gloomy day.

Our guide he is through all our life The dark days and the light, Where Charly and Hope do dwell Make Faith shine clear and bright. H. L. Henderson, Freeland P. E. I.
