IMPORTANT Investment Facts

In these days of high interest rates, it is absolutely unnecessary to take any chances with your money in order to secure a liberal income. Excellent dividend yielding stocks can be bought at prices to yield from about 12 per cent to 15 per cent under existing conditions, your money being tied to this rate of interest with every degree of conservatism.

Keep in mind also that the responsibility of Investment Bankers to clients cannot be overestimated. The quality of the securities purchased should never be measured by the amount of money to be invested. A \$100 investment should receive the same careful attention as a \$10,000 investment. This is our business policy and based on many years' experience. We have prepared a list of securities which have been carefully selected to meet the requirements of investors in the Maritime Provinces. This we will be pleased to mail to all inquirers. All the information we can command is at your disposal.
