This durable ARMSTRONG floor costs less than in 1939!

"And the colours will never wear off!"

Armstrong's Asphalt Tile is a truly modern resilient flooring—suitable for almost any room in the home. It is one building material that costs less today than it did ten years ago . . . a cost that was surprisingly low even then.

A floor of Armstrong's Asphalt Tile keeps its original beauty and lustre for years on end.

Colours can't wear off or grow dim because they extend right through each tile. The floor stays clean and new-looking with only routine sweeping and occasional washing and waxing.

Put down one tile at a time, Armstrong's Asphalt Tile offers endless possibilities for a floor of your own individual colour scheme and design.

Flooring contractors everywhere in Canada are installing attractive modern floors of Armstrong's Asphalt Tile. Ask any Armstrong contractor or dealer in your locality to show you colours and sample floor designs, or to give you an accurate, free estimate.

"I trust them more than I'd trust myself"

THE BANK'S the place for *my* money. I always put part of my pay into my bank account—otherwise it burns a hole in my pocket. I guess I trust the bank more than I trust myself! I figure that's one reason why my savings have been building up the way they have.

Another reason I'm sold on a bank account is that I always know just where I stand. All I have to do is take a look at my pass-book. *They're* a lot better bookkeepers than I am.

What's more, what's in my pass-book is *my* business, and I can count on the bank people to keep *their* mouths shut about it. And that suits *me* just fine!
