The sad news has been received here by letter from Mrs. Frank Bearisto, Wetaskiwan, Alberta of the drowning of Austin Bearisto, son of the late Dr. Bearisto of this town. The letter states that the young man had been dead some days before the fact became known. It seems that on the last day he was seen alive he had been at a neighbor's and had to cross a river to get to his home. It was while crossing the river that the accident happened, his boat having capsized. Mr. Bearisto left here nearly three years ago and took up a section about forty miles from Wetaskiwan. He had been making good progress and would next spring get a title to his property. Deceased was about 23 years of age. His sorrowing relatives will have the deepest sympathy of the community in their bereavement.

DO HALIFAX JUDGES KNOW HOW TO JUDGE A RACE?

From the lack of ability to judge a race shown at the horse races last week and also at the frowns' tournament last year most Islanders think that good judges of sports are as scarce in Halifax as the proverbial hen's teeth. For instance in the 2.35 class, the final heat was deliberately given to Estelle Boy while Princess Regent trotted the whole mile without a break or a skip of any kind and landed under the wire a good three feet ahead of the nearest horse, who had broken twice in this heat and should have been put back to third or fourth place even if he had come in first, which he certainly did not. Well, these Halifax judges gave Estelle Boy the heat and with it the race. Did this not show a total lack of ability to judge a close race, or was it something worse?

Again in a later race a heat was given to Starlight who did not come in ahead any more than Estelle Boy did. This heat really should have gone to Rock Farm Grace. Now as the same man who owns Estelle Boy, also owns Rock Farm Grace, it's not hard to guess that when the judges had given this owner a heat and race which he did not win, (they may have had their reasons—was it the pools?) they immediately turn around and give a heat to a Halifax horse (Starlight) which really belonged to this owner. It looks as though they wanted to even things up. Having given him one heat and race they may have felt in duty bound to take one from him, and they did it. In both cases many of the thousands who were watching the races shouted 'shame', 'shame', but without effect other than make those present think that the judges were too dull to feel the same, or had possibly some interest at stake and did not care for the shame.

And then in the frowns' last tournament in the best race of the day the judges who were judging claimed that the Charlottetown boys were beaten by a tenth of a second. Now we never saw a stop watch which would time in tenths. The hands in all stop watches we ever saw moved a fifth of a second each move and did not stop between at all. But of course these timers knew that it was going to move soon and therefore gave the race to the Halifax men.

Now we maintain that these beautiful judgments by Halifax men will soon drive all good sportsmen away from Halifax. Certainly none of the Islanders who saw those races would ever think of taking a horse or man to Halifax to race again. Just now they feel positive that the Halifax judges have not the ability to be able to pick the true winner unless he is at least thirty yards ahead.

A LIVE CONCERN.

The show windows and salesrooms of Dunlop, Cooke & Co., the King street furriers, are now attracting unusual attention, the place being brilliantly illuminated with about a hundred electric lights. The floors, which are completely covered with handsome rugs, give the place an air of up-to-dateness characteristic of this concern which has shown a great amount of enterprise, having established six houses in the maritime provinces. These include the cities of St. John, Halifax, Charlottetown, Moncton and Fredericton, and in other important maritime points where the firm have not their own branches the ground is well covered by their travellers. —St. John Sun.

Bicyclists and all athletics depend on BENTLEY'S Liniment to keep their joints limber and muscles in trim.

WELCOME TO EVERY VISITOR

To the Exhibitor. We are glad you are here—the 'town is yours' so is our store. You cannot wear out your welcome and make Paton's store your home. We solicit your patronage but we ask for your favors only to the extent that we deserve them. Not alone that our store was never more crowded with beautiful new goods than at the present, that manufacturers have vied with each other in the production of exquisite fabrics, and the artists and designers have evolved rich and tasteful results, that the artistic showing of Novelties, Millinery, Furnishings, White Wear, Furniture, Carpets, Clothing, Curtains, Dress Goods, Furs, and Mantles is a well spring of pleasure to all visitors. But our small profit system or trade winning methods are appreciated by all who deal here and will be recognized by you. Success urges us on to please. We have added three floors covering 6,000 feet of new floor space making our store the largest retail store in P. E. Island handling Dry Goods and House Furnishings exclusively, which you will admit upon comparison. Come and see us.—James Paton & Co., Charlottetown's Greatest Furnishing Store. 23 d 21

THE FRUIT SHOW.

(Continued from Page 1.)

size and few in number. Baldwin, R. L. Greenings and Bishop Pippin occupy a fair space and look comparatively well. Among the new varieties the Dodd impressed us most favorably. In the apple collection there is much excellent fruit shown, all things considered, but there are only three or four such entries as compared with a score last year. The exhibit for the summer—best and arranged county show of fruit—which Prince County makes through Rev. Father Burke, is one of the most beautiful and attractive pieces of exhibition work we have ever seen. A pyramidal structure with shelves for fruit springs out of a square foundation. These shelves are all loaded with choice fruit of all kinds beautifully arranged—apples, pears, plums, grapes and berries of all kinds. From the top of the pyramid a tall staff bearing the silken banner taken to Prince County last year springs and at its base on a small projection is a collection of bottle berries in acid. Father Burke's collection is decorated with crab-apple branches, high bush cranberries and barberry, the latter being a particularly effective decoration. It looks as if the banner would remain in Prince County and the President of F. G. A. fulfill his word at the late meeting when he said "What we have we'll hold," and such a feat and taste deserves success.

The plum show is a great failure generally. Only Moore's Arctic and Bradshaw are mature, eight plates of the one and four of the other are shown. There are green samples of Victoria, Washington, megun bonum and a few damsons. Two specimens of grapes grown under glass are shown and two outside, the latter are barely formed. In pears, Clapp's Favorite, shown by Mr. Bayfield and a specimen raised by Mr. Bowness of Montrose look well. There are a few good specimens of Flemish Beauty on the tables also. Only one barrel of fruit is shown—autumn apples—and no boxes. On the whole the fruit department may be said to be far below what under ordinary circumstances we ought to make it, although fairly good in such a year as this. Those exhibiting do so under peculiarly adverse circumstances and should be commended for their pluck and enterprise.

ALIVE, YET HALF DEAD.

Feeling miserable, this is the condition of thousands of growing girls and women. Can't eat enough to be truly alive. Digest so little of what they eat, as to scarcely know what life really means. Miserable! Of course, eat more digest more, then feel streaming through life's renewed current, the buoyancy, the strength, the happiness of youth. Simply done if you'll just Ferrone's, the wonderful blood maker, nerve strength and brain vigor. Your druggist, knows all about it. Call and ask him about it.
