SEVENTIETH ANNUAL MEETING OF CH'TOWN Y. M. C. A.

Splendid Reports of the Good Work Being Carried on by the Institution - Address by Mr. Murray Brooks.

The Seventieth Annual Meeting of the Charlotteville Young Men's Christian Association was held last evening in the Y. Parlor, with about seventy-five of the senior members present, and Mr. P. W. Turner, acting President, in the chair.

Following prayer by Rev. H. D. Raymond, the meeting was opened by remarks by the chairman, who in mentioning the year's financial campaign, which is being held this week, said that, as the present building was the oldest "Y" building in America, the time was coming when there would have to be a new one built.

During the last summer and fall, the building was given a thorough overhauling from top to bottom. Three new hand-balls were added to the gymnasium, heating system enlarged, bleachers improved, the room, locker room and bowling alley all received a thorough painting and the many necessary repairs to them were attended to.

The minutes of the last annual meeting were read by Mr. F. B. Conrad, the recording secretary and the Directors' report was then read as follows:

DIRECTORS' REPORT Following is the report of the Board of Directors to the Annual Meeting of the Charlotteville Young Men's Christian Association for the year ending April 30, 1926.

To the Members of the Charlotteville Young Men's Christian Association: Gentlemen, - It gives me great pleasure to present this Report on the work of the Association during the past year.

Our building, which is entirely inadequate for our present needs, was the most difficult problem that we faced. It was necessary to make many repairs and quite a large number of improvements in order to accommodate our increasing number of members.

Our program in many cases had to be curtailed to suit the size of our building, and its limited space. Through the year, it has been a most difficult one, yet your Directors feel a great forward step has been taken.

Our special work this year consisted mostly of lectures for the general membership and lectures to the Y's Men's Club and Student gatherings.

Our reading room has been kept well stocked with good magazines and many daily newspapers. It is being used by a large number of members and visitors as well.

Our visiting National and Foreign Work Secretaries spoke in the schools on numerous occasions. Whenever possible, supplies of magazines have been sent out to Falconwood Hospital, and on several occasions supplies of Religious and other papers to various country districts.

Our Association through interested members subscribed \$260.00 to the worldwide work of the Y. M. C. A. We feel that there is no money spent that brings in such big returns. Mr. Murray Brooks, one of our own Canadian boys, has just returned from India after sixteen years spent in Association work there.

EN ROUTE TO NORTH POLE AND ALASKA

Norge left King's Bay at 10.10 Yesterday Morning - Amundsen and Ellsworth Hope to Discover Land at the Top of the World.

OSLO, May 11.—The Amundsen-Ellsworth dirigible Norge started on its flight to the North Pole and Alaska at 10.10 o'clock this morning, says a message from King's Bay.

Ronald Amundsen, the noted explorer, and Lincoln Ellsworth, his companion on their unsuccessful attempt to reach the North Pole by aeroplane last year, hope primarily to discover land during the flight of their Italian built dirigible Norge, which began today.

Amundsen has pointed out that it is only two thousand miles from Spitzbergen to Alaska and that the discovery of even a small piece of land near the top of the world would afford an invaluable connecting link between America and Europe and Asia.

Under the plans outlined by Amundsen this spring, the Norge will fly in almost a straight line across the pole and through the centre of the unexplored region of the Arctic area in the polar sea.

The leaders of the expedition have estimated that it will take three days to fly from King's Bay, Spitzbergen, to Point Barrow, Alaska.

One of the gravest dangers which Amundsen has recognized is the difficulty of landing in the polar area and it was for this reason chiefly that the dirigible can be kept in the air with more certainty than an aeroplane.

The Norge is equipped completely as a passenger carrier and is fitted with one large combined control and passenger car mounted well forward. There is accommodation for twenty passengers in this car. On the trip from Leningrad to Spitzbergen, the Norge carried a crew of fourteen.

She is 43 feet long with a maximum height of 85 feet 4 inches and a maximum width of 64 feet. Her maximum speed is 62 miles an hour. Her useful cargo capacity is eight tons. She is inflated with hydrogen.

"PEACE IS POSSIBLE AT ANY MOMENT" DECLARES A. J. COOK, MINERS' CHIEF

Indications of a Settlement of the Strike Crisis More Pronounced Yesterday - There is a Tendency All Over the Country for the Strikers to Drift Back to Work - "Flying Scotsman" Wrecked Near Newcastle. Sabotage Feared.

LONDON, May 11.—Indications of an easing in the general strike deadlock became more pronounced this afternoon. A. J. Cook, the miners' chief, declared "peace is possible at any moment on terms that will give economic security to the miners."

At almost the same time a Government spokesman was saying to the newspapermen, "Without being unduly optimistic I think we may say that the tide has turned. There is a tendency all over the country for the strikers to drift back to work."

The Trades Union Congress, which has charge of the general strike, scouted this statement, reiterating that the solidarity of the men was being maintained.

Reports of peace negotiations with Sir Herbert Samuel, Chairman of the Royal Commission as one of the central figures continued to fill the air but neither the Labor Chiefs nor the Government would discuss these reports.

The North Wales Presbytery added its voice to the pleas for peace by telegraphing the King, asking him to call a round-table conference of all the leaders concerned in the crisis.

The Trades Union Congress denied the issuance of further strike orders but said the "Second Line of Defence" men including the electrical and gas workers were continuing to walk out on their own initiative.

The Trades Union Congress' denial was prompted by a Belfast message saying the Labor Council there had received intimations that the engineering and ship-building trades would cease work tomorrow.

London, May 11.—The British Broadcasting Company today radioed to the British public that although no official confirmation can be obtained there is reason to believe moves toward a settlement of the general strike are taking place.

LAST NIGHT'S SIX NURSES GRADUATE FROM P. E. ISLAND HOSPITAL

Large Crowd Attend Exercises Last Evening in St. Paul's Hall - Dr. Wendall Tidmarsh Addresses Graduate Nurses.

The annual graduation exercises in connection with the Prince Edward Island Hospital Training School for Nurses were held last evening in St. Paul's Hall and were very well attended.

The service of song preceding the formal service was led by Mr. Woodruff and two of the old hymns "There is a Fountain Filled with Blood" and "Where he Leads I will Follow," were most impressive as the great congregation united in their rendition and spirit.

The pastor, Rev. Neil Herman, in a very impressive service blessed two candidates, who recently confessed their faith in the Lord Jesus Christ, in the sacred waters of Christian baptism.

The service of song, which has been outstanding in these meetings was again led by Mr. Woodruff and the great congregation united in the beautiful song service, the spirit of which was most helpful.

Evangelist Hamilton in beginning his message spoke in highest terms of the talent assisting in the service making them most helpful and inspiring.

Dr. Tidmarsh addressed the graduates as follows: The trained nurse, as a factor in life, may be regarded from many points of view—philanthropic, social, personal and professional.

There are two mountains in the experience of Jesus, the first was Calvary which meant crucifixion, the second is that of victory and power. There must be two exposures in the life of every Christian, self-surrender before and a burial of the past.

There are two mountains in the experience of Jesus, the first was Calvary which meant crucifixion, the second is that of victory and power. There must be two exposures in the life of every Christian, self-surrender before and a burial of the past.
