Much Apathy In Election Campaign (Special to The Guardian.) BERLIN, June 7.—The strenuous general election campaign throughout Germany has ended with all parties concentrating their efforts on trying to overcome the prevailing apathy and to persuade 25,000,000 men and women on the lists to exercise their franchise privilege of electing the first republican Reichstag. Unofficial returns in the general elections from various parts of Germany indicate that the Independents have polled in great strength, all the industrial areas largely exceeding their last year polls. The German people's party, the former national Liberals are leading up to the present.

British Capital Coming To Canada (Special to The Guardian.) WINNIPEG, June 7.—Eighty million dollars of British capital probably will be brought to Canada as a result of the visit of inspection of Conut De Toper of London, England, and Nice, France, to Canada, the Manitoba Free Press says. There is no doubt that the resources are here and if after this trip through the west I am satisfied that circumstances warrant, I shall go back to England and satisfy my friends that they will be justified in investing between £15,000,000 and £16,000,000 in this country, he declared.

REV. DR. DUNCAN DEPLORES THE CONDITION OF CHURCH

Before General Assembly he Condemns Tendency of Church to Pander to Secularism and Sensationalism and Calls for the God-Fearing Life and Actions of our Fore-Fathers.

(Special to The Guardian.) OTTAWA, June 7.—If the church is not equal to its task, it must go, said Rev. Dr. George Duncan of Montreal in the course of a clarion-like message on the Ambassadorship of the Church of Christ to the world delivered at the Presbyterian General Assembly service this morning. Dr. Duncan deplored the tendency toward entertainment in some churches, and the widespread pandering to secularism and sensationalism. We begin to call a church an auditorium, but Christ calls it the House of Prayer, said Dr. Duncan. At the centre of the church's life stands worship, yet is our worship today what it was to our reverent, robust God-fearing forefather. In how many of our churches do we come to worship God and in how many do we come to be entertained? Is there not a reaction from that sombreness which was mistaken for seriousness, and from the gloom which was mistaken for solemnity to a cheapening of worship.

P. E. ISLAND FOX PELTS FOR NEW YORK BY AIRSHIP

(Special to The Guardian.) MONTREAL, June 7.—Bad weather over the week end delayed the aerial trip to New York from here with a cargo of silver fox skins valued at more than \$100,000. These were the Prince Edward Island skins bought by Mr. Harry Silbert of New York at the recent fur auction sales here. It is expected they will be transported by air in about a fortnights time.

Morgan Watkins Professor of French

(Special to The Guardian.) CARDIFF, June 7.—Morgan Watkins, who, fifteen years ago was working as a mason in his native village of Clydach, Swansea Valley, has been appointed professor of French at the University College of South Wales. He is one of the best known British French scholars.

Americans Look For Canadian Land

(Dom. Press Special.) WINNIPEG, June 7.—Another Yankee invasion has started and preparations for greeting them have been long in the making. The number of American farmers who will come this year to look for land will be approximately 40,000, as estimated by Canadian missionaries who spent the winter touring the States. P. E. Laforee, government agent at Boston, has just returned to Winnipeg after conducting a party of 115 from the New England States to various districts in Manitoba, Saskatchewan and Alberta. He declares that an average party of 50 would leave the New England States every week for the remainder of the season to settle in Canada many of them are French Canadians who migrated to the States years ago and want to return now to Canada.

Sinn Feiners Look For Control

(Dom. Press Special.) DUBLIN, June 7.—A new political crisis is expected in Southern Ireland today when many of the elections to the county council, rural council and to membership in poor law board are expected to be held following the success in January at municipal meeting. Sinn Fein say they will coup an overwhelming success. Sinn Fein victory at today's elections lies in the fact that the county and rural council levy and distribute all taxes if they are controlled by Sinn Fein. The complete amalgamation of nearly all funds raised by taxes will be completely vested in sympathizers or members of society and it is expected the councils will either refuse to levy taxes at all or divert funds into Sinn Fein channels. This they claim would be a mortal blow to British rule in Ireland. In this event the movement expected to come from Dublin Castle would be an order for arrest of Sinn Fein council lords.

Labor Will Maintain Right to Strike

(Dom. Press Special.) MONTREAL, June 7.—Organized labor is determined not to give up right to strike, President Samuel Gompers made clear here today in opening the fortieth annual convention of the American Federation of Labor. Opposition to the rights of labor must be resisted at all costs, thundered Gompers, recalling criticism of the use of the strike weapon by labor in past years.

A Dark Horse In U. S. Convention

(Dom. Press Special.) CHICAGO, June 7.—A dark horse appeared today on the eve of the opening of the Republican National Convention. The boom in dark horses was topped by Charles Evans Hughes, G. O. P. standard bearer in 1916. Incoming delegates reported much Hughes talk throughout the country. Hughes' headquarters was opened here and Senator Borah Field Marshall, for Hiram Johnson, told a newspaper man that if Hughes would accept an anti-league of nation platform plank, he would favor him as second choice candidate, provided of course Johnson's nomination was impossible. This is in no sense an abandonment of Johnson it was emphasized.

Splendid Award To Dalhousie

NEW YORK, June 7.—Trustees of the General Education Board of the Rockefeller Foundation announced, tonight appropriations totalling \$20,261,900 for various purposes of general education and the development of medical schools. Included in the list is an item of \$400,000 for buildings and equipment for Dalhousie University Medical School, Halifax, N. S., and another of \$100,000 for endowment of the same. These sums are voted by the Rockefeller Foundation.

Big Polish Movement On

(Dom. Press Special.) LONDON, June 7.—Warsaw communique of Saturday received here yesterday tells of an extensive Polish movement on the northern sector directed towards turning of enemy's swing. General Pilsudski is directing operations and Poles have reached a line through Pere Brodie Lachki and Kosiana capturing considerable booty. Statement claims that a battle is said to be developing rapidly the Poles having occupied Jychtchev, during vigorous cavalry attack between Dnieper and Dniester. One enemy division was completely defeated and one brigade surrendered.

Returns From Berlin Elections

(Dom. Press Special.) BERLIN, June 7.—Cold and rainy weather in Berlin and other districts retarded voting during Saturday morning in the first general election. Reichstag delegates held under the new German government. On this election depends the future of the country. Conservatives would be satisfied with a renewal of coalition but of course would prefer to swing to right. In any case they want to see no radical trend lead Berlin. Complete returns for Berlin in National elections showed that the Independents led with a total of 459,960 votes. Majority Socialists were second with 185,700, total vote cast for Volkspartei candidates was 149,900 remaining 255,100 votes recorded were divided among candidates of all other parties.

Expresses Regret At Flag Incident

(Dom. Press Special.) WASHINGTON, June 7.—Secretary of State Colby has expressed his regret to Sir Auckland Geddes, British Ambassador here, for the recent burning of a British flag in front of the treasury by Irish women pickets, it was learned today. Colby is now awaiting an official report of the incident from the district Commissioner on which to base formal action.

Montreal Welcomes Labor Federation

(Dom. Press Special.) MONTREAL, June 7.—Wearing his gold chain of office, Mayor Frederick Martin, today attended the opening session of the fourteenth annual convention of the American Federation of Labor here. Mayor Martin entered the meeting hall with President Samuel Gompers. The delegates stood while the band played the American and Canadian National Anthems, then, Mayor Martin read an address of welcome. Senator Robertson, Canadian Minister of Labor, welcomed the delegates on behalf of the Dominion Government. Both Senator Robertson and Mayor Martin are members in good standing of the Trades Unions, Senator Robertson lauded the Federation as a great international agency of peace, especially between the United States and Canada.

The couple are residing temporarily at Rushmore Alvestoke, Hants, Eng.

Fraser River Fished Out

VANCOUVER, B. C. June 7.—"The run of sockeye salmon in the Fraser River, one of the greatest salmon rivers in the world, no longer can be called great," declared J. T. Babcock, Assistant Commissioner of Fisheries for British Columbia, in addressing the Canadian Fisheries Association Convention here Saturday. "The Fraser is fished out," he said "and this condition is a monumental record of man's folly and greed. The only redeeming feature is that it is not too late to take steps to restore the Fraser to its former greatness."

Annual Meeting of Alumnae Association of Acadia College

An enthusiastic and largely attended business meeting and social reunion of the Alumnae Association of Acadia Seminary was held in Alumnae Hall on May 24th. The classes of 1914 and 1915 holding reunions this year had twenty-five members present and the addresses of their officers gave much encouragement as promised earnest co-operation in the work of the future. Most interesting letters were received from Mrs. J. I. Moffat (Agnes Ellis '64) of Glace Bay, N. S., the oldest living graduate, and from Mrs. Irene Elder Horton who came to the Seminary in its opening year 1861 and still they retain their interest in the institution. The ever increasing body of students has out-grown the residential accommodations and equipment and it is now but a matter of a few years when we must have a new Seminary. It is expected that large donations and permanent funds will provide for the erection of the new Building, but as a definite objective to place before our members a fund for the furnishings will prove equal to and worthy of our great efforts. This is the aim of the Association at the present time, and fifty-three new members have enrolled to aid in the work. We ask every former member to consider her indebtedness to the institution and assume a responsibility for the welfare of her Alma Mater by joining the Alumnae Association. The Treasurer reported present funds in the treasury \$3604.27. Mrs. Mary B. Smith of Amherst and the President paid touching tributes to the life and work of Miss Emily M. Christie of Amherst, President of the 1900, who passed away during the year. Mrs. F. H. Beals of Lawrence town, N. S., was appointed to keep an accurate record of deceased members and prepare a sketch of their lives for our annual meetings. An enjoyable musical and literary programme included an inspiring address by the President when she

CANNING OF WHALE IS DISCONTINUED

The commercial effect of the war and its cessation is strikingly exemplified in the whale fisheries of the Pacific coast. Due to the food shortage and the demand for oils and fats, whale fishing was actively carried on. During the 1918 season, over 500 whales were taken by three fishing stations; the catch of one station alone was 246. During the same year 30,000 cases of whale meat was canned and met a ready market. The close of the war, however, meant the complete cessation of the whale-canning industry; no whale meat was put up in 1919. Only one whaling station was in operation, and but 166 whales were taken. Whale-meat is a nutritious food product, in taste being similar to beefsteak. It was placed on the market at a price of 20 cents per pound tin, and filled a requirement for a food supply at low cost. As a war measure the taking of 500 whales in one season could be justified, but a continuance of killing on this extensive scale would result in the annihilation of this great mammal.

League of Nations To Have Real Test

LONDON, June 7.—The first real test of the League of Nations, as a practical working body, will be made when the council meets in London June 14th to deal with the case of Persia versus the Bolsheviks. The greatest importance is attached to this case by the supporters of the League, partly because the case has unusual complications. One of these is that a section of a British-Persian agreement amounts to a British protectorate, and Persia thus has a right to look to Great Britain to defend her from attack. Another is that the Bolsheviks may reject any communications from the League. Otherwise the issue is a perfectly straightforward one. The League could not refuse to take it up if it wished, Prince Firouz Khan, the Persian Foreign Minister made a formal appeal to the League invoking Article II. He recited the circumstances of the bombardment and the landing at Enzeli, and placed the interests of the Persians in the hands of the League, asking it to take necessary measures to deal with the situation. The result, probably will be correspondence between the League and the Bolsheviks. If the Bolshevik leaders decline to have dealings on the subject, the position of the League, as the protector of small nations, will be placed on trial.

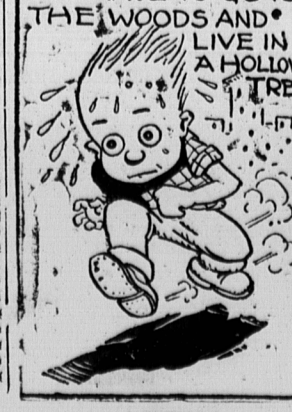

New Conception of West Politically

MONTREAL, June 6.—R. B. Cowan, M. P., and Mayor of Regina addressed the Progressive Club at its weekly luncheon, Saturday, and gave a new conception of the West, politically and economically. He said he was not afraid at the next elections to appeal to the people of the West on the policy of the present government, and added that the West realized it could no longer depend on wheat only but that an industrial policy was needed which meant a policy of protection. Speaking on the policy of the United States retaliation, he said enormous coal resources of the West, should be exploited much more fully and that if this were forced upon Canada by the shutting off of coal exports from the States, millions of dollars annually would be saved. Mr. Cowan also introduced a reassuring note in his speech in regard to the foreign elements in Western population.

SALVATION ARMY SELF DENIAL CAMPAIGN

—Sure, you are all the time giving, so is the Army. That's what we're here for. No man ever starved to death or died a pauper as a result. The Man of Galilee declared 'twas more blessed to give than to receive, so give, give, give; give till it hurts and then give. J. C.

Regular Atlantic Aerial Service is Easily Attainable

NEW YORK, June 7.—Three officials of the Luftschiffbau Zeppelin Company of Friedrichshafen, Germany, arrived in New York on the steamer Pesaro from Genoa. They are Alfred Colsman, general manager and head of the company; William E. Dorr and Otto Millat, directors. With them was commander Maerbacher, of the United States navy, who has been abroad getting technical information with regard to the big rigid airships in which the navy is interested. The Germans declared to discuss the nature of their business, but did not deny that Colonel Hensley, of the United States Army Air Service, recently returned from Germany, with an option on the projected LZ-125, 77 feet long, with a gas capacity of 3,500,000 feet. It is likely that the Zeppelin officials are here to negotiate the sale of the LZ-125, either to army, navy or private interests and even for the purpose of interesting American capital in a New York-London-Berlin air-ship line? There are rumors that eventually the Zeppelin Company would like to transfer its factories to the United States. The introduction and maintenance of a regular service across the
