LETTER OF SYMPATHY

The following letter of sympathy has been received by Mrs. Nell Macdonald, Prince St., 467, from Memorial L.O.L. No. 268:—
Dear Sister:—We the members of Memorial Lodge, No. 268, desire to convey to you our heartfelt sympathy in the great sorrow you have been called upon to bear, in the passing away of your darling baby boy.
We know that although human sympathy is helpful. It is not sufficient to bring true consolation to stricken hearts. We therefore commend you, your husband and family to the all wise Father, Who death all things well, and may He enable you to say, "Thy Will Be Done, and Who has said, "Suffer little children to come unto Me, for of such is the Kingdom of Heaven."
Signed on behalf of Memorial Lodge.

WHY BABY SAYS "MA"

It is commonly believed that a baby, when growing up and learning to talk, speaks the word "ma" and "da" through constantly hearing these uttered by others. This idea, however, is upset by certain students of languages, who advance a totally different theory. In most languages, "ma" is generally the first syllable spoken by a child, according to linguists. If a baby opens his mouth and then exhales breath it is quite possible that it makes this exclamation unconsciously.

The toast included "The King," The district Rotary Governor" (responded to by the local president Rotarian J. A. Clark); "The Maritime Clubs" (responded to by Rotarian Jack Webster who called upon Rotarian McMillan, Rogers, Black, Grady, Hyndman and McKee, representing the clubs of Prince Edward, St. Stephen, Sydney, Charlottetown and St. John respectively; "The International officers" (responded to by Rotarian Geo. Inman); and "the progress of Rotary in our district" (responded to by Rotarian Harold Jenkins). The programme was an interesting one throughout and finished strongly.

SCHOOL FAIR.—Thursday the 15th inst. a school fair was held at Hunter River hall. The schools taking part were New Glasgow, Miss Ling, teacher; Hunter River, Miss Ramsay, teacher; Wheatley River, Miss Barrett, teacher; Reservoirs, Road, Miss McDonald, teacher. The fair school, however, although represented in the gathering did not send any entries there being no teacher the present term. The entries in the different classes were numerous and highly creditable to the youthful exhibitors. The show of fruit was exceptionally good, the apples, pears, etc. of a fine quality. Sewing and cooking were two strong features of the exhibit, by last named creating an appetite that reached the vanishing point. In roots the competition was strong. The display of garden truck was admirable, pumpkins, beets, carrots, tomatoes, parsnips, onions, etc. The display of live stock was limited. Some excellent spring pigs, a number of chickens, and calves comprising the lot. The sports which followed proved very exciting: each school trying to gain supremacy. The girls did royally, proving that in fleetness and staying power the rival teams were not far behind. The judges of sport were Inspector Court, Mr. W. A. McCoubrey and A. B. Dickie. Son. Starters, Mr. Ritchie Dickie-son and George Axworthy.

WHY BABY SAYS "MA"—It is commonly believed that a baby, when growing up and learning to talk, speaks the word "ma" and "da" through constantly hearing these uttered by others. This idea, however, is upset by certain students of languages, who advance a totally different theory. In most languages, "ma" is generally the first syllable spoken by a child, according to linguists. If a baby opens his mouth and then exhales breath it is quite possible that it makes this exclamation unconsciously.

Some persons believe that there is no such thing as a "natural" tongue to the world; for, they say, if babies over 1 year old were caused to become deaf and dumb, they would be obliged to go through the identical slow process of inventing and evolving a language as man was compelled to do in days gone by.

Some ancient tribes of Egypt, Semites, placed two children among a herd of goats one on each side. They were never allowed to hear a human voice, yet, after two years, the children were able to say the word "bekos," which meant bread. The king's conclusion naturally was that his people were the first in the world and their tongue the only true one.
