# THE JAPANESE IN HAWAII

New York, Feb. 23—There are more than sixty thousand Japanese in the Hawaiian Islands. Nearly all of them are laborers on the sugar plantations. Many of them are married, and on every plantation you will find a quaint reproduction of a Japanese village, the houses very much like those of the Orient. Japanese women in kimonos going about their daily tasks and chubby-cheeked, brown-eyed little boys and girls very gravely beginning the solemn business of life.

All the Japanese boys and girls go to a Japanese school from seven o'clock until 9 in the morning. They then attend an American public school from 9 o'clock until 12 in the afternoon. The moment they are free they hurry back to the Japanese school and work there until 5 or 6 o'clock in the evening. Imagine a school day that lasts from 7 in the morning until dark! Yet those brown children thrive on that system.

Down in old Mulberry Bend, New York, there is a public school of which they are proud, because in it the teachers receive young Italians, Greeks, Syrians, Arabs, Japanese, Chinese, Scandinavians, Turks, etc., as raw material and turn them out as a finished product of excellent American citizens. In Honolulu that school would pass unnoticed, for in every school you will find little folk of a dozen races working unobtrusively side by side.

## McAuliffe Stock Company Remainder of This Week

Much anticipation is already shown over the engagement of the McAuliffe Stock Company at the Opera House all of this week and Saturday matinee, commencing this evening. The fact that such famous plays as "Why Women Sin," "The Voice of Nature," "Faries Well," "Pitfalls of New York," "Heart's Ache," "Shamus O'Brien," and "Outcasts of a Great City" are to be presented at popular prices is an announcement that carries more than the ordinary weight to an engagement of this kind. No similar attraction has ever attempted a repertoire so pretentious as this, or one that involves so great care in

the general mounting of the plays. The complete scenic effects are carried for each and every day and no local settings are used from the opening to the closing bill. The company numbers twenty-two people and is headed by the popular and versatile comedian Jere McAuliffe, the most popular comedian playing at popular prices. "Why Women Sin" will be the opening bill this evening and will be presented with all special scenery electrical and mechanical effects. The following high class specialties will be introduced between the acts making it a continuous performance. Jere in a hundred new productions. Franklin and Hatt, character comedians and singers and dancers. Pinard and White, musical experts. Madam Flower, the Bronze Melba. Seats on sale at Jamieson's and Rankin's drug stores.

The immense assortment of new fashionable dress goods shown at Stanley Bros. will appeal to every lady in the land. Every shade and grade is included in this lot and the prices marked very low to make quick sales. 3-12d11.

# SOME POINTERS FOR SNOWSHOERS

## How to Guard Against Three Great Ills—The Care of the Shoes

New York, Feb. 23.—An experienced woodsman takes mighty good care of his snowshoes. He knows their importance. If there are dogs around the snowshoes must be hung out of their reach at night. Following the long trail day after day and sometimes week after week would shorten the life of the shoes if they were always worn on the same foot, so a careful man changes both his moccasins and snowshoes from right to left every morning. This means even wearing.

Men often carry with them a gimlet, a crooked knife and a few fathoms of babiche, the things of which the shoes are knit. If a break occurs or there is an accidental cut with an axe, repairs can easily be made on the spot.

When snowshoes become wet they should never be dried near the fire, but by the night frost or the wind. The heat will so affect the babiche that the shoe will give out all over. If this happens on a long journey it is a calamity that affects the whole party, for a man cannot be left behind.

Blistered feet and mal de raquette are afflictions on the long trail. So is snow blindness. But by proper precautions they may be avoided.

The principal cause of blistered feet is having irritating socks and keeping the feet too warm. Properly tying the snowshoe strings and bridle is a help in escaping the affliction.

Some make the mistake of adjusting the foot wrongly to the snowshoe. The great secret is play of the foot in the sock, a loose moccasin over the sock, play of foot in the snowshoe strings and freedom under the bridle (that is only the leather shoe upper about it) will enable one to walk day after day without discomfort.

Mal de raquette generally overtakes one when the snow is deep and heavy, which causes an unusual strain on the muscles of the lower leg. The veins become clogged by overheating and the blood being kept in the lower extremities. In a very bad case of neglect, from the knee down (sometimes in one leg but more frequently in both) the limbs swell to two or three times their normal size and turn black, when the foot is moved an audible rasping sound is plainly heard as a distance of ten or twenty feet and the sufferer endures great agony. The prelude to this disease is a numbness or tired feeling. When this is noticed the person should bare his legs to the thigh after the campfire has been started and jump into the snow.

## THE DAWN OF PEACE.

Put off put off your trial, O Kings,  
And beat your hands to dust!  
Your hands must learn a surer grasp,  
Your hearts a better trust.  
Oh, head a back the lance's point,  
And break the helmet bar;  
A noise is in the morning wind  
But not the note of war.  
Upon the grassy mountain paths  
The glittering hosts increase—  
They come? They come! How fair their  
feet!  
They come who publish peace.  
And victory, fair victory,  
Our enemies are ours!  
For all the clouds are clasped in light,  
And all the earth with flowers.  
Aye, still depressed and dim with dew,  
But wait a little while,  
And with the radiant deathless rose  
The wilderness shall smile.  
And every tender, living thing  
Shall feed by streams of rest;  
Nor lamb shall from the flock be lost,  
Nor nursing from the nest.  
—JOHN RUSKIN.

## ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement the better the advertising. No occupation that directs attention among given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagant.—American Medical Journal

D'ron Broth's, Hollo Bar, have a number of men employed chopping and teamsters hauling lumber to their steam saw mill.

John McCaskill who has been engaged fishing smelt on Fortune River for the past two months has returned to his home at Mt. Stewart.

# PIMPLES

## Facial Blemishes. Blackhead Eruptions.

They Have One Common Cause. An Impure Condition of the Blood.

Make the blood normal and you cure the pimples.

But unless elimination is perfect the blood can't be normal, can't be anything but foul.

In elimination nothing plays a more important part than the skin, and if it gets too much work it becomes diseased and pimples, blotches and eruptions are the result.

Not a bit of use to try external applications. The fountain of life, the blood, must be purified.

More than that, the blood must be supplied with the elements necessary to furnish the organs with increased power to do their work.

Ferrozone supplies exactly these constituents, and it does more.

It stimulates through the nervous system all the eliminative functions of the body.

By stimulating the kidneys and liver the skin is relieved of an excessive work, and it soon resumes its normal mode of action.

Ferrozone destroys the poisons in the blood, gives it new and rich material through the thorough digestion of food.

The skin resumes its normal, rich color. Every vestige of blotch, pimple or eruption then disappears.

You see then that Ferrozone is not only a blood purifier, but a blood fortifier and when your blood is pure and strong not only will the skin be freed from blemishes and pimples, but the whole body will be rejuvenated and fortified, and given the power of endurance, vim, the natural outcome of health. Ferrozone is sold by all dealers in 50c. boxes.

The town clock is over three minutes slower than railway time.

A clean-up of goods soiled and mussed during "The White Carnival". For Friday we place on sale at discounts ranging from 25 per cent to 50 per cent goods soiled, rumpled and mussed in the record breaking selling of the past two or three weeks. See our ad.—Moore & McLeod. 3-1d11.
