INSPECTOR JENKINS' LETTER.

Every one knows of the good work done during the past year and a half by Inspector Robert Jenkins in enforcing the Prohibitory Law, and all will read with interest his straight-forward and manly letter in another column of this issue. Mr Jenkins has conducted his most difficult duties in a manner which has challenged the admiration of the friends of prohibition and at the same time without giving needless offence to those who by honest

THE FIRES OF ECZEMA

So keen is the suffering of many people who endure the stinging, itching sensation of Eczema that they speak of the skin as being on fire. By its soothing, healing, antiseptic influence Dr. Chase's Ointment positively cures Eczema, Salt Rheum, and every form of itching skin disease. It is of inestimable value in every home, and when once introduced becomes a household necessity. Dr. Chase's Ointment is the standard the world over, and has no worthy rival.

Oddfellows! The Three Links of correct attire for to-morrow's parade are white gloves, white shirt, white tie.—Will give you white kid gloves at 75c pair, white shirts 75c, \$1.00, \$1.15, white muslin bows 12c each. If you need cuffs and collars—we've best linen collars 15c and 20c, cuffs at 25 and 30c pair.—Moore & McCleods 23 d li.

Weeks' & Co. sell Men's Hats and Caps

conviction are opposed to the law. It is safe to say that few could have done as well in his place. We know of none who could have done better, if as well as he, and he commands the respect even of those against whose unlawful trade he sets the law in motion. Possibly his generosity to the violators of the law goes too far when in his letter he seems to attribute the repeal movement to others rather than those in the liquor trade. The latter are undoubtedly the prime movers and instigators of the movement, but they realize that they are too much discredited in the public mind to openly lead a cause which seeks for popular endorsement.

THE GRAND TRUNK PACIFIC.

The Grand Trunk Pacific agreement as amended in favor of the Company passed the House of Commons on Thursday morning by a vote of 116 to 61, a majority of 55 for the Government. The debate had been prolonged until it had become wearisome, although it was enlivened somewhat by a vigorous closing speech from Sir Wilfred Laurier. The vote appears to have been strictly a party one. There is very little of independence in the Canadian Parliament and there is little doubt that the measure will pass the Senate as it has passed the Commons, without material change. Very probably it will be found not so injurious an agreement as the Opposition have represented it to be, nor so desirable as has been held to be on the Government side. But had it been a much worse measure than it is the party majority would still, no doubt, have adopted it.

Attorney General Pugsley has had a cable despatch from England informing him that the appeal of New Brunswick to the Privy Council in their representation case will be argued in June or July.

Rev. Mr. Stevenson, one of the ablest and most zealous of our temperance workers, will speak on Sunday evening in the Central Christian Church on a subject of timely interest, The Saloon or No Saloon. All interested in the welfare of the city will find this discourse interesting and profitable.

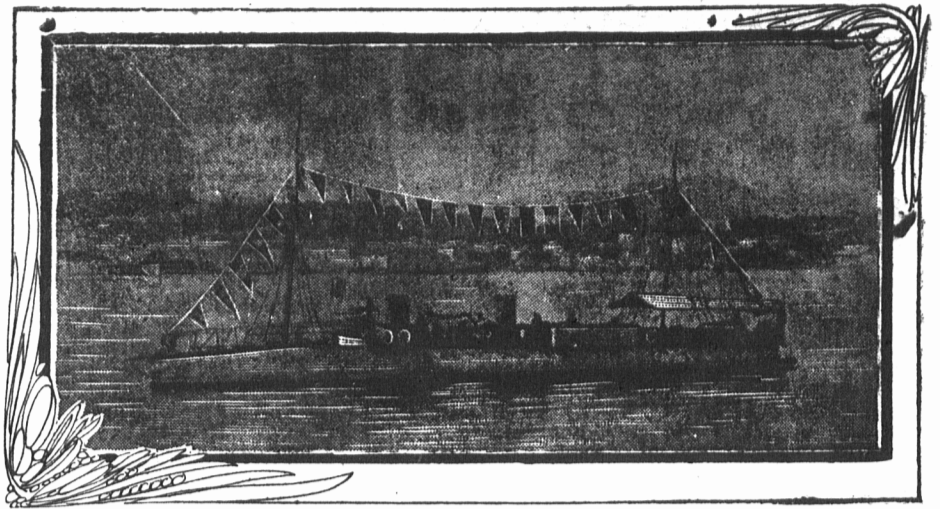

The destructiveness of Toronto's big fire is attributed to insufficient water supply. It had been decided some time ago to spend a million dollars to improve the service but the work had not yet been commenced. Following the fire an increase of from 25 to 40 per cent in the insurance rates has been resolved upon by the underwriters. It is a double disaster where eight or ten millions in fire losses is thus followed by so heavy an advance in the rate of insurance.

There is some discussion in American papers over the subject of "left-earedness" which is said to result from frequent use of the telephone. As every one knows, nine persons out of ten in using the telephone hold the receiver to the left ear. This may be from choice, or because the instruments are so made as to make it more convenient to use the left ear and leave the right hand free to make notes of the conversation, if necessary. But the controversy is apart from this. One contention is that the use of the phone tends to dull the hearing in the left ear. The American Telephone Journal claims that it improves the hearing and that people are becoming "left-eared" in the way of hearing better with the left than with the right ear. A fair test is to hold the receiver to the right ear once in a while and note the difference.

Wear Weeks' Nobby Hats.

Housecleaning Helps

Everything here to lighten your labor.
H. & H. Soap cleans everything.
Rex Insect Destroyer, destroys moths and all insect life.
Household Ammonia, disinfecting soaps, sponges, etc.
Royal Silver Polish is used with delight by many housewives—perfectly harmless, positively no after dust.
British Furniture Shine, certainly shines, easy to use, good for the wood.
Moth Balls, camphor, chamois from 5c up.
Ring us up, Phone 163.

RUSSIAN TORPEDO BOAT 119.

The Russian torpedo boat No. 119 is of the French type, to which one of the Russian torpedoes is conform. She carries one heavy gun and several lighter weapons in addition to her armament of torpedoes.

THE WAR IN THE EAST.

Several American and British journals have expressed the opinion that the Japanese fleet under Admiral Togo is equal in fighting quality and endurance to any other navy of equal size now afloat. Had Admiral Dewey encountered a Japanese instead of a Spanish fleet in Manila Bay the contest would at least have been more equal than it was. The Spaniards like the Russians have sufficient courage, but are not adapted to naval warfare. Russian landmen such as the Czar's fleets are not likely ever to make a great success of naval warfare, but the fighting qualities of the Russian soldiery have been demonstrated on many a well contested battlefield. Japan's hardest trial is yet to come on the fields of Manchuria. At present the exceedingly heavy rains have made the roads impassable and caused a practical suspension of military operations, but that is a passing condition and heavy fighting may be expected within a month to come.

Admiral Togo, being an educated man, probably does not believe in the semi-divine character of the Japanese Emperor which is shared by so many of his people, but he desires to cater to the popular ideas of his countrymen. Hence in his official report of the recent operations at Port Arthur he says:—"The fact that not a single man was seriously injured in these successive attacks must be attributed to His Majesty's glorious virtue." "The ships, freely moving over the enemy's ground without suffering any damage, must be attributed to heavenly assistance." These are nice distinctions, the Mikado's virtue protecting the men and Heaven—that is the Shinto Heaven—protecting the ships. Togo modestly takes no credit to himself, but all the civilized world accredits him with being one of the most alert, capable, and energetic of naval commanders. After all there is not so much difference between the Japanese and Russian way of looking at these things. Suwaroff in a notable despatch to the Empress Catherine announcing the capture of Ismail gave credit to "God and the Empress." Japanese etiquette calls for a compliment to the Emperor whenever a victory is won. It is really their equivalent of our congratulations.

HEAD AND SHOULDERS ABOVE ALL

is the rapturous feeling of any man, no matter how diminutive physically, who wears clothing of our make. Even a little fellow draperly clad makes a good impression, while a giant improperly dressed is a laughing stock. Fortunately we know how to build clothes for big men and little men and in-betweens.

JOHN McLEOD & Co.

The venerable Senator Wark is now at his desk again, and says he feels first rate. When he entered the chamber for the first time this session all the Senators stood up and applauded him till he took his seat. When passing through Montreal on his way to the capital Mr. Wark was interviewed by The Witness, and said he did not feel the burden of old age physically and still has a young heart. He attributes his good condition to the fact that he has all his life lived temperately.

PIMPLES, BLOTCHES AND SKIN ERUPTIONS.

How unsightly, sometimes even disgusting, and certainly very mortifying to the sufferer. They are merely an evidence of impure, poisonous blood, and lowered vitality of the elementary organs, which can be quickly changed by taking Ferrozone after meals. Ferrozone cleanses the blood of all poisons and eruptions, makes it rich in red corpuscles that manifest themselves in a healthy ruddy complexion. To have a pure, soft skin and good complexion simply use Ferrozone regularly. Price 50c per box, or six boxes for \$5.50, at Drugists, or N. C. Johnson & Co., Kingston, Ont.
