**POTATO WAREHOUSE**—Although work is being continued on the vestibules and floor of the Government potato shed at the Railway wharf, large quantities of potatoes are being unloaded and stored there by local shippers. The floor has practically been completed, with the exception of a small section at the south end. Potatoes are being stacked high in the major section of the shed where the floor has already been completed. The storing of the produce will not interfere with the work still to be done in connection with the vestibules. The project is being carried out under the direction of the Dominion Department of Public Works.

**TARDY TABLES**

Youngsters who have stayed up too late at night and, consequently, are tardy at table in the morning, may be tempted to bolt their breakfasts. Nutrition authorities say that children are likely to have more appetite if they do not eat too soon after rising, and, anyway, it isn't good to gulp down breakfast—or any other meal. Breakfast should be sufficiently early, however, to permit every member of the family to eat slowly and thoroughly.

**TOBACCO EXPORTS**

In the first three months of 1947 Canada exported 4,577,048 pounds of leaf tobacco. The British West Indies took 324,509 pounds, foreign countries 100 pounds, and the remainder was shipped to the United Kingdom. Practically all was of the flue cured type.

**THOUGHTS AT EVENTIDE**

Oh! for the days that used to be Oh! for the times long past,  
Memories cling so close to me  
Thoughts that will ever last.

Friends that were near and dear  
To me  
Fals that were kind and true,  
Come stealing through the gloom  
again  
Like sunshine in the blue.  
While on my bed I lie and dream  
Of joys that once I loved,  
My soul within me seems to long  
For blessings from above.

To be back once more to a cosy home  
Where friendship's circle chose to meet,  
A sire's footsteps nearing there  
And the patter of little feet.

Laughing voices wild and gay  
Songs of youth and child's delight,  
Tender arms about me entwined  
Baby lips that kiss good-night.

Those thoughts are oft at eventide  
When twilight draws its curtain  
down,  
I pen a dream within each fold  
Till slumber dons its soothing crown.

**In Memoriam**

**MRS. MARY ISABEL MOASE**

The death occurred on October 25th, 1947 at the Prince County Hospital, following an illness of several weeks, of Mrs. Mary Isabel Moase, widow of the late Harry S. Moase, Kensington.

Born at Wilmet Valley July 27, 1882, the eldest daughter of the late Mr. and Mrs. John A. Burrows, Mary Bell, as she was affectionately called by her many friends, was of a mild and unassuming nature, and was never known to murmur or complain but always accepted her lot with cheerfulness which won for her the admiration of a host of friends.

The funeral, which was very largely attended, was held from the United Church, Kensington, Monday, Oct. 27, and was conducted by her pastor, Rev. L. M. Murray, assisted by Rev. K. G. Sullivan, Summerside. Hymns sung, favorites of the deceased, were: "The Lord's My Shepherd" and "Abide With Me". Mr. Roscoe Walker sang very feelingly "There's A Beautiful Land On High".

Left to cherish her memory are one son, Wallace, Summerside; two daughters, Ruth, Mrs. Leigh Payne, Long River, and Jean, Mrs. Lloyd Shupe, Norfolk, and four grandchildren; also her step-mother, Mrs. J. A. Burrows, Wilmet Valley; two sisters, Mrs. George M. Brown, Kensington, and Mrs. Lorne Bowness, Charlottetown, and a brother, John Burrows, Wilmet Valley.

The lovely floral remembrances bore silent tribute to the esteem in which the deceased was held, and much comfort to those bereaved by her passing.

Pall bearers were her cousins, Erskine and Percy MacMurdo, William and Wilbur Stavert, Harold and Walter Moase.

Interment was in Kensington cemetery.

**SAYS CHILDREN HATED PUBLIC**

A New York educator claims most of the public hates children! He protests that "this hatred of children is as widespread and deep-rooted as these letters indicate."

The educator quoted above also said, "I have never encountered a delinquent child who had what I would call a decent adult friend."

"Think that over, you good women who get enraged at the sight of a small child on your prized lawn."

**DEPLORE RAZING OF RUSKIN HOME**

LONDON, Nov. 3—(CP)—Demolition of Ruskin Manor, Denmark Hill, for many years the home of John Ruskin, the writer, drew heated protests from historically-minded Londoners.

"This is plain vandalism," wrote Hugh Harting to the London Times. "In June it was still a guest-house; now it has gone, vanished. Of the estate, with the wonderful view to Shooter's Hill, nothing remains but broken ground, littered with tree-boughs and rubbish."

Mr. Harting said the house was demolished "without due warning" though he had learned that an application for compulsory purchase by Camberwell borough council had been confirmed by the Ministry of Health.

In The Daily Telegraph, "Londoner" said Ruskin lived in the house from 1843 till 1871. "In view of Ruskin's long and honorable association with Denmark Hill," he wrote, "it is disgusting that we should show such little respect for his memory.... the house should have been maintained as a national institution."

**Jubilee of Good Eating**

50 YEARS OF BREAKFASTS made more tempting by Grape-Nuts—the longest-established of all leading cereals! So many millions have enjoyed Grape-Nuts flavor and extra nourishment!

Grape-Nuts are different—made from two grains—not just one. Sun-ripened golden wheat, and malted barley; double-baked by an exclusive process to give them that sweet-as-a-nut flavor. And because two tablespoons makes an average serving, you get 14 to 16 servings from each package. Get Grape-Nuts in the bright, new package from your grocer.

**TABS ON TEETH**

Nature's plans for growth and development are often foiled by disease and accidents. But, sometimes, early professional attention can come to Nature's aid and get things to rights again, before too much harm is done.

Dental authorities think particularly of tooth decay, which is a disease. Once disease begins in a tooth, it will usually destroy it—unless the dentist is called in to assist nature in carrying out her original plans for that tooth. It is important, Canadians are reminded, to keep in touch with the dentist so that he can keep tabs on their teeth.

**VITAL VITAMIN**

If the respiratory tract is kept healthy, susceptibility to infections which could enter the body through that channel will be reduced, and food authorities announce that Vitamin A helps maintain body tissues, particularly of the mucous membrane, in good condition.

Canadians are advised to eat more green and yellow vegetables to obtain their Vitamin A. Vegetables contain Carotene, a substance which the body readily converts into this vital vitamin.
