In Memoriam

ALBERT W. MACNEILL CAVENDISH

The death occurred at his home in Cavendish, Prince Edward Island on December 18, 1928, of Albert W. MacNeill at the age of sixty eight. The deceased had been in falling health for several months and though he himself knew he could never have his health restored yet he was never heard to complain or utter an impatient word.

ANGUS B. McDONALD

There passed away in his home at Rock Barra, Lot 46, Angus (Ban) McDonald at the ripe old age of 87 years, fortified by the rites of his church.

The late Mr. McDonald was a man of more than ordinary intelligence, and possessed a very happy disposition which will be long remembered by all whom had the pleasure of his acquaintance.

Prince Edward Monday

Bedeque and Vicinity

Mr. and Mrs. James Henderson, Bedeque, were recent visitors to Searletown.

Mr. and Mrs. Herman MacFarlane and Mrs. Walter Laird, Fernwood, motored to Summerside on Monday.

Mrs. Cora MacLeod, teacher at Central Bedeque spent the week end in Chelton, with friends there.

Owing to the unfavorable condition of the roads, it makes it rather difficult for the young men of this vicinity to make their weekly calls.

Such was the case of one young gentleman two weeks ago, on going to North Carleton, after arriving there he decided to take a little drive farther, encountering a bad piece of road he thought his best plans would be to return, this he did, and was cordially invited to the home of Mr. Heber Myers where he remained for the best part of the night, he being none of the worse of the experience.

Mrs. Walter Wright, Searletown, was the guest of Mr. and Mrs. Charles Wright on Friday.

Mr. Arnold Henderson, teacher at Carleton spent the week end at his home in Bedeque.

Miss Minnie Leard, Bedeque is visiting in Fernwood the guest of Mr. and Mrs. Walter Leard.

Mr. and Mrs. William F. MacFarlane, Fernwood were visitors to Chelton on Sunday.

Misses Mae Proffitt and Dorothy Muttart, Freestown, attended the hockey match in Bedeque on Friday evening between Bedeque and Cape Traverse.

Mr. and Mrs. Janus Beer, Chelton, are steadily improving after a very severe attack of flu.

Rev. R. J. and Mrs. Reynolds, Bedeque, were the guests of Mr. and Mrs. John Stewart, Central Bedeque on Friday evening.

Mr. and Mrs. William Nicholson, Miss Jennie Dingwell and Mr. Irving Tombs, motored to Summerside on Saturday evening.

Miss Alice Jewell and Mr. Lloyd Jewell, Bedeque, were recent visitors to North Carleton.

Mr. and Mrs. Oswald Lowther, Carleton, spent Friday in Augustine.

Mr. and Mrs. Daniel McCardie, Chelton, were visitors to Middleton on Tuesday.

Mr. and Mrs. Ephraim Leard, Lower Bedeque, attended the Burns concert in Charlottetown last week.

Mr. William F. MacFarlane, Lower Bedeque, has returned to O'Leary for a few weeks on business.

Mr. Artemas Collett, Bedeque, has received sad news of brother Mr. William Collett, who passed away last week in U. S. A.

Two young ladies started out for Searletown church last Sunday evening. While on their way they met with a very bad mishap, when the snow suddenly gave away from under their feet, there being water enough to soak them very badly. Altogether there were several pounds difference in their weight, the lighter one plunged through first. With some struggling they managed to crawl out and decided to return instead of going farther. They had not gone many yards when a bad storm arose which they were hardly able to find their way out. A couple also on their way to church encountered the ladies standing on the side of the road, as if they had just come from the sea-shore having a nice salt water bath in the middle of summer. They turned back and took the ladies to the home, where they were provided with warm clothing, as we are pleased to report, none the worse for their exploit.

Miss Sue Muncy, Carleton Sidings, was a visitor to Bedeque on Tuesday.

Miss Sadie Bradshaw was a visitor to Central Bedeque on Saturday evening.

Mr. and Mrs. Hudson Lowther, North Carleton, motored to Crapaud on Saturday.

—TEX RICKARD'S ESTATE DIVIDED TO TENTH

NEW YORK, N. Y., Feb. 1.—The New York Sun says to-day that it learns on reliable authority that the estate of the late Tex Rickard, noted sports promoter, which was estimated to a figure between \$200,000 and \$300,000. The big question is, continued the Sun, what became of the riches he had only a year or so before Rickard's holdings were widely scattered. He owned some parcels of real estate in Miami Beach, Fla., and in Boston. He owned a large block of stock in the South American Land & Cattle Company of Paraguay, and had, therefore, an equity in many thousands of acres of land held by this company. But it is not property which can be sold to advantage, and it lies, a large part of it, in the disputed territory between Bolivia and Paraguay.

—NEW TYPE OF PLANE TESTED BERLIN, Feb. 1.—A new departure in airplane construction which is bound to create the greatest sensation was demonstrated by the academic flying group at Darmstadt flying field today. It is the first bi-plane ever constructed without braces or supports between the two wings, and each wing is constructed like those in monoplane.

The new airplane is after the aerodynamic principle which was discovered in motorless glider flights. The machine is able to develop a speed of 200 kilometres an hour and to climb 3,000 feet within 3 minutes. Its steering capacity is described as marvellous. Its total length is only eighteen feet, the full span of the wing is twenty-one feet, and a total weight of 580 pounds, with a carrying capacity of two persons, and baggage. The machine needs only a hundred feet for starting space.

N.S. Farmers Ask For A Higher Duty on Butter

TRURO, N. S., Feb. 1.—A resolution "that farmers, Conservative and Liberal, be nominated to contest all countries in which farmers are by their numbers entitled to representation," at the next provincial election, was passed by the Nova Scotia Farmers' Association at the closing session of their annual meeting today. The resolution recited that as the result of "want of unity and representation in parliament" conditions among farmers in Nova Scotia were not satisfactory and made the nomination of farmers conditional "on the same conditions obtaining at the next provincial election."

The association also endorsed the resolution passed by the Dairyman's Association two weeks ago, asking a higher tariff on butter.

Wallace W. Cook, of Salem, Yarmouth County, was elected President, and H. A. Moffatt, of Grove Point, first vice president, and V. B. Leonard of Clarence, second vice president.

—Dear Sir:— As we have been studying about coral and didn't have any to examine we would be pleased if you would kindly bring us a small piece of rough coral on your return trip from Bermuda.

"Miss Stewart who was reading the Canadian National Magazine saw the picture of the wonderful ship the "Lady Nelson." I really think that it is a lovely name as Nelson was such a great sea warrior.

"I guess you know where Sioux Lookout is. It is in Northern Ontario 100 miles from Red Lake. It will be too bad that you won't be home for Christmas but I guess Santa Claus will remember you just the same. He might send you up some @h. At least I hope so. We all love you have a lovely trip.

"Wishing you a Merry Christmas and a Happy New Year. Yours truly, (Sgd.) MAISE SOUTHALL"

HANDLING THE SPARK

Research of the last few years has convinced the automotive engineer that it takes a wide variation in spark advance to get the best results from an engine under varying conditions of service. This fact is not so widely known among car owners as it should be, judging by the number who never make any change in the spark control setting save, possibly, when cranking the car by hand.

—MT. CARMEL After the business portion of the meeting was completed a programme consisting of several musical and vocal selections was enjoyed. A whist party and sale of pies was held at which the sum of \$18.05 was realized. Another whist party is planned for January 22nd at the home of Mrs. Jos. T. Richard. Mrs. Jeremiah Gallant will entertain next meeting.

not the national treasury that is providing the money. The Canadian National Railway will no doubt seek to have some system worked out by which it will be in the same position to preempt spheres in which it intends to build at some considerable time in the future but not within three years or even five since of course it is the company, not the national treasury that is providing the money.

Mr. Sinclair, firing his first shot of the political open season at long range from Ottawa, said there would be an election this year, before October. Moreover, he said it without fear of contradiction, knowing that Premier Ferguson will not deny. "The opposition leader amplified this with the remark that the government prefer not to take any chance of showing a deficit for 1929 before going to the people.
