

THE SUMMERSIDE GUARDIAN

and PRINCE COUNTY CHRONICLE

The Western Guardian

This column is reserved for news of local interest but advertising of a new nature may be inserted in a word strictly payable in advance.

—FOX watering and feeding pans in stock at Brace's. L-8524-8-9-21.

—FILMS DEVELOPED promptly Taylor Drug Co., Kensington. 8-6-11.

—CEMENTED tire liners and blow-out patches in stock at Brace's. L-8771-8-9-21.

—FOZEN MEAT is an expensive fox fed. Buy R-M. meat for biscuit and fur food in 64 lb. cans at Brace's. L-8771-8-9-21.

—DESIRABLE RESIDENCE on Harvard Street to let. Seven rooms and bath. All modern conveniences. Apply Gourlies Drug Store. L-8991

—RETURNED FROM OTTAWA—Mr. Ralph Boates has returned from Ottawa, where he has been attending the Canadian Small Arms Training School.—S.

—ATTENDED 'S'IDE HIGH SCHOOL—Miss Sadie Pickering who was one of the successful students in the P. W. C. Matriculation examinations attended the Summerside High School. She is a resident of St. Eleanor.—S.

—RETURNED TO SACKVILLE—Mr. C. B. Jelly who had been spending the weekend at his home in Summerside has returned to Sackville, N. B. where he is attending the Summer School.—S.

—OFFICES TO LET—Nice bright rooms, suitable for professions, business or living apartments. Apply at Gourlies Drug Store. —8992

—RETURNED TO THE WEST—Mr. and Mrs. Gordon Stewart who have been visiting Mr. Stewart's old home in Sherbrooke and also other parts of the Island left on Thursday for their home in Northampton, Alberta. They were accompanied by Mrs. James Bullman of New Glasgow and Mr. Sterling Stewart of Bayview.—S.

—YACHT IN 'S'IDE—Dr. Brinkley and party from Del Rio, Texas, arrived in Summerside on Wednesday evening on his palatial yacht, "Dr. Brinkley," which is a beautiful boat with oil burning engines. Dr. Brinkley has been cruising in the Gulf of St. Lawrence and Northumberland Straits calling at different points of interest. They came into Summerside for shelter as the weather in the Straits was quite rough. The party left early Thursday morning.—S.

—ARRIVED IN SUMMERSIDE—Miss Jacqueline Arsenault of Jersey City, N. J., and Miss Sophie Scholl, R. N. of Woodcliff, N. J., arrived in Summerside Tuesday evening by motor from Jersey City, N. J. They will spend two weeks at the home of Miss Arsenault's parents, Mr. and Mrs. J. F. Arsenault, 79 Central Street, Summerside. Miss Scholl is employed by the American Red Cross in New York City, Chapter, as a public health nurse. Miss Arsenault is secretary in the law offices of William J. Egan, former City Commissioner of Newark, N. J.

PERSONALS

—Mr. and Mrs. Maxwell Robertson have returned to Summerside after an enjoyable vacation with friends in different parts of the Province.—S.

—Miss Blanche Kenny of Summerside left this week for Halifax, N. S., to spend her holidays. She will be the guest of Captain Thomas and Mrs. Ormiston of Robie Street.—S.

—Miss Mildred Llewellyn, R.N., of the staff of the New England Deaconess Hospital, Boston, Mass., arrived in Summerside on Wednesday to spend her vacation with her parents, Mr. and Mrs. W. K. Llewellyn.—S.

—Mrs. James Marshall and her daughters, Mrs. Walker Barr and Mrs. Louise Marshall of Fort William, Ontario, are visiting friends in Freetown and Bedouque. Mr. Marshall is expected to arrive on the Island a little later for a brief holiday before the family returns.—S.

Champion Family Man 111 Today

(A.P. By Guardian's Special Wire) BOKOHITO, Okla., Aug. 8.—J. J. "Uncle John" Allen—who became Oklahoma's "champion family man" by rearing 43 orphans beside eight children of his own—will be 111 years old tomorrow and he's going to have a party.

Allen is in good health. He chews his meat with "real" teeth—which he claims he cut just this year as his fourth set. He and the second Mrs. Allen have not had any children since twins were born some 30 years ago, when "Uncle John" was rounding 80.

All-Stars-Summertime Game Postponed

Word was received here yesterday that the Stars, league leaders in Charlottetown, would be unable to play the game slated for the All-Stars at Summerside on Friday. Many of the boys of the Charlottetown squad would have been unable to get away from work and rather than send a weakened team the management wisely decided to postpone the engagement.

There will be a game, however, of some description and possibly the opener of a new series between the Red Wings and Pioneers. Should efforts now being carried on materialize fans will probably see another Schurman-Daly battle this evening. 'Nuf said.

OTTAWA PONDERES

(Continued from Page 1)

the country cannot stand indefinitely the burden of relief expenditures.

Quite naturally, the Liberal leader handled the unemployment figures most suitable to his political aspirations. He ignored entirely, accordingly, the vital consideration of relative unemployment in Canada in 1935 as compared with 1930, but of relative employment. The Dominion today is affording a far higher volume of total employment than it was four years ago. The difficulty, in part, is to absorb the thousands of young Canadians who arrive at employable age annually and in part, to compensate for the fact that conditions of depression in the United States are such that emigration affords no outlet.

Throughout the years of the King administration the domestic situation was saved regularly in large degree by the fact that the neighboring public was able to absorb thousands of the youth of Canada annually.

Leader's Weakest Effort

Political circles in Ottawa viewed the Liberal leader's speech as perhaps the weakest effort which he has ever made. Even the careful plausibility of language in which it had been cloaked failed to conceal the apparent fact, in the view of commentators here, that the King has no unemployment policy on which the Canadian people are justified in basing any hopes.

In addition, there was little disposition to credit Mr. King with any great power of conviction in that he has no unemployment policy on which the Canadian people are justified in basing any hopes. More than 500,000 men will take part in the war drills, to be held some time this month along the entire Alpine range.

DISORDERS

(Continued from Page 1)

and in their own interests. They were not assured that the economy cuts in pay would not be applied to them, but were promised that friendly and prompt consideration would be given to their claims arising from overtime work for which they are not paid. With the minister's assurance on this point, the delegates decided to recommend calling the strike off.

The funeral of Joseph Barre, arsenal worker killed in Tuesday's rioting at Brest, was conducted in the little town of Saint Marc today, but no disorders resulted.

The wife of Barre walked with three of her children and was followed by a crowd of workers and sympathizers estimated at 10,000.

Military Promotions

(C.P. By Guardian's Special Wire) OTTAWA, Aug. 8.—Promotion of Major G. H. T. Ruffee to the rank of lieutenant colonel, to command the King's Canadian Hussars at Kentville, N. S., was announced today by the Department of National Defence. Col. Ruffee succeeds Lieut. Col. J. P. Knowlton, V. D., who has been transferred to command the 2nd (Reserve) regiment.

Promotion of Major R. J. Colwell to be Lieut. Colonel commanding the Halifax Rifles is also announced. Colonel Colwell succeeds Lieut. Col. S. S. Wright, V. D.

Both the promoted officers saw service in the Great War. Col. Ruffee with the 8th Battalion, Nova Scotia Highlanders, and Col. Colwell with the Canadian Machine Gunners.

Major R. L. B. Simpson of Sydney Mines, N. S., has been appointed to command the 16th Field Brigade, Royal Canadian Artillery.

Major J. Chalouit has been appointed to command Le Regiment de Quebec, with headquarters at Beauport, Que.

(C. P. By Guardian's Special Wire) AMHERST, N. S., Aug. 8.—Wallace LeBlanc, young highway worker, was seriously injured today when he lost his balance and fell under the rear wheels of a truck. He suffered a fractured pelvis and severe internal injuries.

ITALY ORGANIZING MILITARY

(Continued from Page 1)

the Minnedosa and the Melita. Three German vessels also have been purchased.

The Canadian Pacific vessels were sold in London early in the year to a Genoese firm of ship-breakers. Soon afterwards three North German Lloyd craft, the 11,000-ton Sierra Ventana and the Sierra Cordoba, and the 9,000-ton Werra, were also bought ostensibly for breaking up.

A few days ago however all these vessels were transferred to the Italian government while policies were underwritten at Lloyds for Mediterranean and Red Sea risks only to the extent of \$500,000 for each ship except the Werra, which was \$400,000.

ADDIS ABABA, Aug. 8.—Developments in the Italo-Ethiopian dispute lent strength today to the growing belief Emperor Haile Selassie is turning to the Orient for munitions the rest of the world thus far has denied him.

Daba Birrou, a former foreign office official, will leave soon for Japan on an unannounced secret mission, which was believed connected with getting credit for munitions and foodstuffs for Ethiopia's forces.

Coupled with this development, was a report (officially confirmed in Tokyo) that Japan would shortly establish a legation here.

Comb World For Credit

All the war ministry's available supplies were doled out to troops passing through Addis Ababa a fortnight ago. Other troops are being concentrated outside the capital while Haile Selassie and his councillors desperately comb the world for credit and equipment.

Mussolini's action in calling up new divisions for dispatch to East Africa was interpreted in informed quarters as finally wrecking the much-dimmed hope for peace.

Most of Ethiopians, however, regard war as inevitable. Open discussion of the duration, manner of the campaign and its outcome has been steeled gossip for days.

The German legation denied rumors Gen. Hans Kundt, former commander of the Bolivian army, was in Ethiopia to join the army.

Secret Manoeuvres

ROME, Aug. 8.—Premier Mussolini gave strict orders today that gigantic military manoeuvres to be held near the Brenner Pass be kept secret, following unconfirmed reports Italy has made great strides in developing offensive weapons hitherto unknown.

More than 500,000 men will take part in the war drills, to be held some time this month along the entire Alpine range.

"No form of newspaperman will be allowed," said his spokesman, who laughed when asked if photographers would be allowed.

For each one of the seven regular army divisions ordered to East Africa Mussolini has created replacement divisions. Meanwhile, he has created six extra divisions of Blackshirt militia and expects to have a million men in the field by October.

To Open Legation

TOKYO, Aug. 8.—Japan moved further into the Ethiopian picture today when it was officially established that she will open a legation at Addis Ababa in January.

An announcement said plans to create the legation were not connected with the Italo-Ethiopian crisis but were the result of Japan's growing commercial connections with the African kingdom in the past few years.

Preparing Plans

PARIS, Aug. 8.—Plans of Premier Mussolini for huge manoeuvres in northern Italy today stirred but failed to alarm negotiators who are seeking to avert war.

Premier Laval was busy with domestic troubles, but a staff is evolving tentative plans for conversations here next week between Britain, France and Italy.

The problem, officials said, is to find a formula for Italian economic domination of Ethiopia and enough political control to satisfy Mussolini but not too much for Ethiopia to accept.

ALL-STARS TROUNCED

(C. P. By Guardian's Special Wire) HALIFAX, Aug. 8.—Crossing the harbor today fresh from a cleanup in Dartmouth, Boston Royal Giants overwhelmed Halifax All-Stars in a twilight game 14-2.

The line-up:—
Boston 302 520 020-14
Halifax 020 000 000-2
Robinson and White, Falk, Flynn, Lewis, Mont and O'Neill.

(C. P. By Guardian's Special Wire) TORONTO, August 8.—Choice of Dr. W. R. Mason of Party Sound as Reconstruction Party candidate for that riding was endorsed officially at party headquarters here today. Dr. Mason was named at the Party Sound convention last night.

MILITARY

(Continued from Page 1)

Order and bar to that decoration, and was mentioned in dispatches four times.

Brigadier Gibson's first commission, dated Dec. 1899, was as a lieutenant in the 8th Regiment (Royal Rifles). He was subsequently appointed to the permanent force (The Royal Canadian Regiment) in June, 1905. He has held various staff appointments in the Canadian Militia including deputy assistant adjutant-general, Halifax Fortress, director of organization and personal services, National Defence Headquarters, Ottawa, Ont., district officer commanding at Calgary, Halifax, and Montreal.

For services rendered during the War he was appointed a Companion of the Most Distinguished Order of St. Michael and St. George, and was awarded the Distinguished Service Order; the Order of the British Empire, and the French Croix de Guerre.

Distinguished Career

Brigadier Alexander received his first commission with the Victoria Rifles of Canada, Montreal, in August, 1908, and in June, 1910, was appointed as a lieutenant in the Royal Canadian Regiment. He received promotion up through the various ranks to that of lieutenant-colonel.

During the Great War he served in the field with the 24th Battalion, C.E.F., and was promoted lieutenant-colonel in that unit in Nov. 1916. He was employed as General Staff Officer (2) 2nd Canadian Division, from Oct. 1917, to Feb. 1918; and later advanced to the appointment of general staff officer (1st grade) of the same division.

Since his return to Canada in April, 1919, he has been continuously employed as a staff officer in various capacities.

For services during the War he was awarded the Distinguished Service Order, and was three times mentioned in dispatches.

Lieutenant-Colonel Stewart was graduated from the Royal Military College in June, 1911, when he was appointed as a lieutenant in the 4th Hussars.

He served with the Canadian Artillery, C.E.F., throughout the War.

He was appointed Officer Commanding, Royal Canadian Artillery, Halifax in May, 1928, being promoted to Kingston in 1929.

He was awarded the Distinguished Service Order and was mentioned in dispatches three times for services during the Great War.

Lieutenant-Colonel Page was appointed to a commission in the 35th Central Alberta Horse, non-permanent active militia, in Oct. 1911. He proceeded to England with the 5th Battalion, C.E.F., as lieutenant, and served in France and Belgium from Feb. 1915, to April, 1919. He was promoted captain, May, 1915; Major, Oct. 1915; and Lieutenant-Colonel, to command the 50th Battalion, C.E.F., March, 1917.

Following his return to Canada he was appointed to a commission in Lord Strathcona's Horse (Royal Canadians) in 1920, and commanded that regiment from Oct. 1929, to Feb., 1935, when he was detailed to his present appointment at Halifax.

During the Great War, Lieutenant-Colonel Page was awarded the Distinguished Service Order and two bars, and was mentioned in dispatches five times.

Business Better On Stock Market

TORONTO, Aug. 7.—Volume of trading on the industrial section of the Toronto Exchange bettered the year turnover by nearly 40 per cent and the exchange index registered a net gain of a couple of points. The totals were 536,879 shares in July and 596,902 in June. Three liquor stocks, Distillers Corporation-Seagrams, Wm. J. & Co. Common and Brewsters and Distillers led the board for volume followed by International Nickel, Ford A and Imperial Oil in that order.

In the mining section the volume of trade showed a drop of about 1,000,000 shares in July from that of June. The July turnover was 7,141,150 shares. The month closed with the gold share index around the bottom for the month and the year while the miscellaneous mines index closed higher by about 2.34.

In the period 181 issues came on the board as compared with 167 in June. Of the 161 issues, 68 recorded advances while 73 were lower and the 20 were unchanged.

Queen Unveils Statue of King

When the Queen unveiled a bronze statue of the King in London recently she honored one of the foremost women sculptors in the United Kingdom, Lady Hilton Young, wife of Sir E. Hilton Young, former Minister of Health. Her Majesty presented Lady Young with a sketch portrait of the sculptor by Sir William Rothenstein.

The statue by Lady Young was placed by the Hearts of Oak Benefit Society in its public garden in Easton Road, London, in commemoration of the King's Silver Jubilee.

Lady Hilton Young is best known by her statue of the Antarctic explorer, Captain Scott, in Waterloo Place, London. Captain Scott was her first husband. She has also statues of the Duke of York and of three British premiers—Stanley Baldwin, Lloyd George and the late Lord Oxford.

RUST REDUCES WHEAT YIELD

(C. P. By Guardian's Special Wire)

MONTREAL, Aug. 8.—Crop prospects in the Prairie Provinces show considerable variation according to the weekly telegraphic crop report issued today by the Bank of Montreal.

Rust is spreading to a certain extent in the wheat crop of Manitoba and Saskatchewan. Lack of moisture over large areas of Alberta and Saskatchewan, while partially relieved by irregular rains, in Quebec crops with the exception of apples and, to some extent, tobacco, are generally satisfactory. Warm, dry weather is needed. Harvesting of grain in Ontario is progressing rapidly under favorable conditions and threshing will be general this week. Fall wheat is now expected to yield an average of from 25 to 30 bushels per acre of average quality grain. In the Maritime Provinces crops generally are in good condition with apples promising well. In British Columbia crops generally are progressing satisfactorily with indicated good yields of grain. Prospects are tree fruits will be somewhat below average.

Details follow for the Maritime Provinces:

In New Brunswick and Nova Scotia harvesting of an average crop of good quality hay is well advanced. Grains promise a fair yield on a light stand. Root crops are average, with fair yields of potatoes expected. Pastures are fair to good, with moisture required in some areas. Fall wheat is promising. In Prince Edward Island grains are in satisfactory condition. A good hay crop is being harvested. Potatoes promise a below average yield. Pastures are good.

Experimental Farms Note

As a general rule spraying to prevent late blight should be started when the plants are six to eight inches high and repeated at intervals of two weeks. Four applications are considered sufficient in Canada, except in the Maritime Provinces where it may be necessary to spray at ten-day intervals, repeating five or six times for Irish Cobbler, and six to eight times for Green Mountains. Before the spraying season begins, go carefully over the sprayer, checking up on such items as pump packing, hose connections, rust accumulations in the nozzles, cracked fittings, etc., and replace useless discs with new ones. Remember also to clean out the sprayer thoroughly before putting it away for the winter.

Power sprayers apply approximately 80 gallons per acre. If hand sprayers are used it is advisable to give the high and low directions on each occasion, the second being made as soon as the first is dry. In this way about eighty gallons of spray will be used per acre. Lighter applications than this will probably prove disappointing. The spray machine should be driven slowly at all times, particularly hand powered outfits.

The spray most commonly used is known as Bordeaux mixture and is made up as follows: Copper sulphate (bluestone), 4 pounds; lime (hydrated or properly slaked stone) 4 pounds; water 40 gallons. To obtain the best possible protection the lime and bluestone are first dissolved separately in water and the two solutions mixed together in the most dilute form possible, otherwise a heavy precipitate will form and clog the nozzles. The Division of Entomology of the Dominion Experimental Farms recommends the preparation of Bordeaux mixture from "stock solutions." Farmers and gardeners, therefore, who are not familiar with this method should enquire about it at the nearest Dominion Laboratory of Plant Pathology.

For best results spray applications should be made with three nozzles to each row, one to direct the spray downward upon the tops of the plants, the other two being arranged so as to have the spray directed upwards to cover the lower surfaces of the leaves. It must be understood that success in spraying cannot be realized unless the leaves are completely coated with the spray, and in order to make this possible it is necessary to maintain high air pressure and pay careful attention to the boom and nozzle adjustments. Some spray outfits have a tendency to lose pressure at the end of the rows, but this objection may be effectively overcome by skipping every four rows going one way and spraying them on the return trip. For by doing this the sprayer covers sufficient distance on the turn to maintain the required pressure.

COMMITTEE ON GIFT TO HER EXCELLENCY TO MEET

OTTAWA, Ont., Aug. 6.—Lady Perley, chairman, is calling a meeting early next week of the national committee for the Lady Bessborough gift fund to consider plans which artists have announced that they are submitting for the farewell memento from the women of Canada to Her Excellency, a piece of gold plate made in Canada of Canadian gold by Canadian workmen.

A generous subscription to the fund has been received from Canadian Hadassah through the president, Mrs. A. J. Freeman, O. B. E. Letters received by the chairman from Quebec and the other provinces where the wives of the Lieutenant-Governors are heading provincial committees indicate a lively interest. Contributions may be forwarded to Mrs. Hugh Guthrie, Roxborough Apartments, Ottawa.

Season Exhibition Tickets

Season tickets for Exhibition are now on sale at all Drug Stores. Price \$2.50 each. This is a saving and they are a convenience. Good for every performance and admitting to all parts of the grounds, mornings, afternoons and evenings on Monday night till Friday night. Can be used by any member of the family or any one else.
