Women Avoid Operations

THROUGH neglect of early symptoms some female weakness may reach a stage where an operation is necessary, but most of the common ailments of women, when taken in time, are not surgical ones, and should yield to Lydia E. Pinkham's Vegetable Compound.

When such warning symptoms appear as pains in side or back, headaches, backache, fainting spells, nervous depression and irregularities, they indicate that something is wrong, and unless the cause is remedied, serious organic trouble may develop. Lydia E. Pinkham's Vegetable Compound should be taken as soon as such symptoms appear. It not only relieves the present suffering, but lessens the chance of future trouble. Accurately prepared from medicinal roots and herbs, Lydia E. Pinkham's Vegetable Compound works gently but persistently to restore and preserve a normal condition of health. Read the following letters from two grateful women.

It Saved Me Covington, Ga.—"I cannot express in words how thankful I feel for the results that I have obtained from taking Lydia E. Pinkham's Vegetable Compound. I feel that it has saved me from an operation. I had pain in my right side and bearing-down pains at monthly periods. My side hurt me all the time, and I was very nervous and felt tired and weak. I read about the Vegetable Compound in a paper, and the woman's condition was the same as mine. I have taken five bottles and it has been worth twice its price to me. My side hardly ever hurts me now and I feel a different person altogether." Mrs. W. T. THOMPSON, Route No. 5, Covington, Georgia.
