

Scrofula

It is commonly inherited. Few are entirely free from it. Pale, weak, puny children are afflicted with it in nine cases out of ten, and many adults suffer from it. Common indications are bunches in the neck, abscesses, cutaneous eruptions, inflamed eyelids, sore ears, rickets, catarrh, wasting, and general debility.

Hood's Sarsaparilla and Pills

"The face of my little girl from the time she was three months old, broke out and was covered with scabs. We gave her Hood's Sarsaparilla and it cured her." T. M. CARLSON, Clinton, Ontario.

Hood's Sarsaparilla promises to cure and keeps the promise.
