

THANKSGIVING SERMON

[Continued From the Third Page.]

standing the existence of vice and immorality which have cast a gloom over many homes, we have many common blessings which demand our gratitude. As a congregation we can surely say that the promise was verified. "So I am with you always." Many families have known only success, sunshine and love, and these have caused overflowing praise. And yet amidst all our blessings some of our people today are sitting in the shadows of sorrow. Every Thanksgiving brings to some heart the presence of the first "vacant chair," and in our own congregation not a few have these sad experiences. Every age has been called upon to move its dear departed dead. And what is our Thanksgiving message to them? Ah, the sweetest of all. By the atonement made on Calvary the sting of sin has been taken from death—the grave has lost its terror and the Kingdom of God has been opened and our loved ones have gone home to perfect life and love. How can we thank God for this last great victory! The gospel has a message to tell by none other, that the sorrows and tribulations of life are stepping stones to a higher vision of God's purpose in our life, and thus as the shadows have fallen they are mingling with beams of light, and soon the shadows will all flee away and we can then join fully that which we now know only in part.

"And He who is Himself the gift and giver, The future glory and the present smile; With the bright promise of the glad 'forever,' Will light the shadows of the 'little while'."

REVEREND AND DEAR SIR.—We, the officers of the 4th Prince Edward Island Regiment, Canadian Artillery, having learned with combined pleasure and regret of your appointment to the coveted position of Chaplain in the Canadian Regiment for South Africa, desire to express our sincere regret at the loss we are about to sustain in your departure. Proof after proof we have been furnishing how B.B.B. makes bad blood pure blood and cures cases that even the doctors failed to benefit.

Here's the case of Mrs. John Douglas, Fuller, Ont., an account of which she gives.

"I have used B.B.B. for impure blood, pimples on the face and sick headache. I tried a great many remedies and spent dollars for doctors' medicine but derived little benefit. I then started using B.B.B. and only took four bottles when my skin became clean and free from all eruptions. My other troubles disappeared also and I am now in perfect health."

A DESPATCH FROM SIR ALFRED MILLNER.

He Calls Attention to the Recklessness of the Basuto Tribesmen.

LONDON, Oct. 25.—The Colonial Office last evening published a cable despatch from the British high commissioner in South Africa, Sir Alfred Milner, communicating a significant despatch from Sir Godfrey Lagden, the British resident commissioner in Basutoland, calling attention to the reck-

waggon, surrounded by turf, piled three feet high. He noticed only a few Maseru. The Boer commandant questioned him regarding the feeling of the different Basuto chiefs, principally the paramount chief. Le rthodi, and in order to draw the commandant, the native replied that the chiefs sided with the

lessness of the Basuto, who, he says, he has been trying to calm. The resident commissioner adds: "Our policy, however, has been made difficult by the blustering of the Boers, who have freely threatened to attack Maseru and other stations. These threats combined with intriguing, have contributed to roase excitement among the natives. I wish to place it on record that the Boers have unwisely attempted to shake the allegiance of the Basutos and frustrate our efforts towards tranquillity. The Boers, therefore, are responsible for any commotion and for the alarm regarding native invasions which now prevail."

CAPE TOWN, Oct. 25.—The following advices have been received here from Maseru, Basutoland. A native lately visited a laager of Orange Free State troops just opposite Maseru. He found it to consist of

Boers. Thereupon the commandant said the two republics wished to kill the British and take over and govern the Basutos, restoring to the latter that part of the country which the Free State formerly took from them. As to the Britshers, those whom they failed to kill they would drive into the sea. The commandant wished a decision on the part of the Leorthodi and the other chiefs as soon as possible, whether they would fight the Boers or the British—because his Contingent was anxious to help the Boers elsewhere. He acknowledged that his men were afraid of the Basutos, because their wives and families as well as their cattle were within reach of a Basuto incursion. The Boers on the Basutoland frontier, according to the best information obtainable at Muz, number about 2500.
