and here's the ANSWER!

Imperial Life advertisement text: increasingly difficult for the average man today is the problem of saving money. Many a man with a family to provide for on a salary that seems scarcely adequate to meet present needs alone, knows well that his old age must be provided for too, and wonders how. Even regular savings over a long term of years will not, he figures, produce sufficient income to bring him a moderate livelihood in later life. \$30,000, for example, at 3% produces only \$900 a year. \$40,000 produces only \$25 a week. Yet how can he hope to save anything like these large sums? A happy answer to this worrisome dilemma is a policy in The Imperial Life. Let an Imperial Life representative explain to you how moderate-sized deposits placed with this company will produce for you in later life an income far in excess of the interest such sums could earn for you if saved and invested in the ordinary way. In addition, with the Imperial Life Plan, you have the advantage that your family is protected from the day you make your first deposit. And you have the comforting assurance that in this investment your capital is absolutely safe, always. Stop worrying about finances. When you have Imperial Life protection you can spend the balance of your income with a carefree mind. "FINANCIAL SECURITY THROUGH LIFE INSURANCE", by Paul Speicher, an international authority, is an interesting book which should be read by everyone who plans to provide financial security for himself and family. Your local Imperial Life representative will make a copy available to you without cost.
