Germany Admits It

(Special to the Guardian.)

LONDON, Sept. 27.—On the British front in France the total number of prisoners for what is regarded as the best two days the British forces have had in France, are estimated at 5,000. Throughout the night there was heavy firing while the British were pressing forward their guns in the parts preceding today's gains.

(Special to the Guardian.)

PERLIN, Sept. 27.—After an unusually hard series of fighting on the Somme front in which the Entente Allies suffered heavy losses they captured Thiepval and gained ground on the other side of Courcelette, the War Office announced today. Attacks further east were repulsed by the Germans.

ENEMY DEFENCE WEAKENS

(Special to the Guardian)

2—3

LONDON, Sept. 27.—A despatch from Reuters correspondent at British headquarters in northern France says recent fighting illustrates how completely our army has the upper hand. We are advancing with the deliberate calculation which is possible only to a side of irresistible strength. The German army in the west is now fighting a rear guard action slowly. Enemy gun fire is also considerably less in volume than we had reason to expect from past experiences. Cavalry has been forced into positions where down to a few days ago no horseman could possibly have ventured.

PARIS, Sept. 27.—In brilliant fighting attacks at Vermandovillers French troops have succeeded in capturing a strong fortified wood according to an official statement by the war office today. The statement follows:

"North of the Somme our troops organized positions already won. The enemy attempted to counter attack during the night. South of the Somme there was rather spirited fighting in the region of Barleuas. A brilliant attack by our troops resulted in the capture, east of Vemandovillers of a fortified wood held by the enemy which formed a small salient in our lines.

Austrians Are Tiring of the War

(Canadian Press Despatch.)

MILIAN, Sept. 27— (By Andre Beaumont)— Austrian officers and soldiers who have arrived in Triest from the Carso plateau, are reported from Tricst to have stated that they are tired of the war; they say they can stand it no longer.

News of the fall of Goriza was received with general gloom by the officers and men. They ask: "What is the use of continuing the war?"

Constantly the soldiers want to know what object is to be gained by continuing the conflict.

Communication with Austria has been practically severed. Pola has been evacuated by the civilian population, and the people of the entire peninsula are practically without war news. Dysentery and other maladies are rampant in Triest and other towns.

Preparing For Winter Campaign

(Special to the Guardian)

PARIS, Sept. 27.—La Liberte says it does not seem possible that another winter campaign is avoidable. Joseph Thierry, Under Secretary for Subsistence in the War Department, has made all necessary arrangements for supplying the troops with garments, blankets and other essential for winner warfare. These have been going to the front at the rate of eighty carloads per day since Sept. 15.
