NEWFOUNDLAND AND THE FORDNEY TARIFF

Trade Between Ancient Colony and United States Greatly Handicapped by American Duty.

(Special to The Guardian.)
OTTAWA, Sept. 17.—According to advices here the recent tariff enactment of the United States under which fishermen and manufacturers of fish products receive greater protection, is reaction against the tariff on Newfoundland. In round figures Newfoundland purchases one third of her imports from the United States and looks to that market for the disposition of about fifteen per cent of her exports. This market would appear to be destroyed under the new tariff and Newfoundland's ability to pay for American commodities will be materially handicapped.

Suicide's Body Was Identified

(Special to The Guardian.)
NIAGARA FALLS, N. Y., Sept. 17.—Mrs. Samantha Moore of Montreal today identified the body of the woman taken from the mouth of the Niagara River at Youngs town as that of her sister, Miss Beatrice Orr, of Akron, Ohio. Miss Orr is said to have become despondent because Canadian immigration men refused to allow her to enter Quebec to visit her sister, who was ill in a hospital.

J.B.M. Baxtres Selection Assured

(Special to The Guardian.)
ST. JOHN, N. B., Sept. 17.—It is declared settled that Hon. J.B.M. Baxtres, K. C., of St. John, leader of the opposition in New Brunswick legislature will enter the Meighen cabinet in place of Hon. R. W. Wignmore.

Big British Works Will Start Soon

LONDON, Sept. 16.—The great smelting works and blast furnace of the Dowlais Iron Co., which have been shut down for several months will shortly resume partial operations. This is the announcement of Messrs. Guest, Keen and Nettleton, Ltd., who are owners of this plant.

The business of Guest, Keen and Nettleton and the Dowlais Iron Works were the concerns in which the late Joseph Chamberlain, Birmingham's favorite son and British statesman, is reputed to have made the greater part of his fortune.

APPLICANTS DESIROUS OF entering the North Adams Training School for Nurses, North Adams, Mass., will please write the superintendent at once. Mary Larter, A. N., Supt. North Adams Hospital.

IRISH NEGOTIATIONS LIKELY TO CONTINUE

Emonn DeValera Sends Emergency Telegram to Lloyd George Expressing Surprise at Letter.

LONDON, Sept. 16.—In a telegram sent this evening to Mr. Lloyd George at Gairloch, Scotland, Eamon DeValera is considered in high quarters in London to have indicated a desire for a continuation of the negotiations looking to peace in Ireland which were terminated, momentarily at least, by Mr. DeValera's communication of earlier in the week insisting on the independence of Ireland, and Mr. Lloyd George's cancellation of the conference with the delegates of the Sinn Fein which he had proposed for next Tuesday.

The telegram of Mr. DeValera's was as follows:

"I received your telegram last night and am surprised that you do not see that if we on our side accepted a conference on the basis of your letter of Sept. 7, without making our position quite clear, Ireland's representatives would enter the conference with their position misunderstood and the cause of Ireland's right irreparably prejudiced. Throughout the correspondence that has taken place you have denied your government's position. We have defined ours."

Further Exchange Likely.

Up to a late hour tonight Lloyd George had made no response, but the consensus of opinion was that since neither side to the argument seemingly is desirous of a rupture in the negotiations there doubtless would be a further exchange of messages.

The general view in London is that the hitch has arisen because Lloyd George and Mr. DeValera are compelled to keep an eye on the extremists in their respective cabinets, but that behind both there also is strong public opinion in favor of peace, this feeling being as strong in England as in Ireland.

Discharged Man Kills Employer And Then Himself

LOWELL, Mass., Sept. 16.—Jose Santos, discharged employee of the Lowell Gas Light Company, shot and killed Michael F. Hetherman, chief engineer at the company's plant in School street, and then shot himself through the head, dying shortly afterward at a hospital. Santos had threatened to "get the chief engineer."

He entered the company's yard in Rock street and found Hetherman there. He approached him from behind, according to the operator of the traveling crane who witnessed the shooting, and fired upon him. As Hetherman fell he stepped closer and sent another shot crashing into his body. Then he retreated toward the gate, stopped suddenly and shot himself in the head. Hetherman was a former president of the National Association of Stationary Engineers. He leaves a wife and four children.

POLICEMAN SHOT IN FIGHT WITH BANDITS NEAR KINGSTON

KINGSTON, Ont., Sept. 16.—Police Constable James Cotter was shot in the left arm and two other men, Stewart Patterson, a taxi-driver, and William Lyons, a chauffeur, had a close call when they endeavored to round up the traveling bandits late this afternoon in a bush near Latimer. The scene of the shooting is about seven miles from Kingston on the Perth Road.

Constable Cotter was brought to the General Hospital. He suffered a great deal from loss of blood but has every chance of recovery.

When the news of the shooting reached the city a large posse of police and volunteers went out to the scene of the affair in an endeavor to capture the bandits.

UNIVERSITY OF KING'S COLLEGE

At a large meeting of the Board of Governors of King's College Windsor, N.S., held in Halifax last Thursday the following resolution was unanimously carried: "That the campaign for the raising of money for King's College be prosecuted as actively and quickly as possible, with Mr. Spurr as Manager and with the assistance of poets; and that a central committee be appointed to direct the campaign."

The following committee was then appointed:

His Grace Archbishop Worrell, Mr. A. Moulton, Chairman.
Rev. President Boyle, Rev. F. B. Spurr, Very Rev. Dean Lihlwy Ven. Archdeacon Armitage, Chief Justice Harris, Dr. M. A. B. Smith, Mr. M. L. Payzant, Dr. J. W. Alton, Mr. H. V. Harris, Mr. W. Kerr Dimock, Rev. W. H. Judt, Mr. W. H. Roach, Mr. L. H. Martell, Mr. J. F. H. Teed.

The first meeting of this committee has been called for at 3.30 p.m. Friday the 23rd inst.

The corner stone of the old historic Main Building of the College which was destroyed by fire on the 5th February, 1920 was laid by Bishop Inglis on 3rd August, 1791. The membership of the Anglican Church in the Maritime Provinces and the friends of King's throughout the world will now rally to supply her needs and so make possible "The New King's."

Notwithstanding the great handicap the College is now undergoing there are ninety students in attendance.

At the last session of the Synod of Nova Scotia the following Canon was adopted:

"The University of King's College, at Windsor, is hereby declared to be the College approved by this Synod for the education of the training of students in Divinity of this Diocese, and it is recommended as the University for the high education of members of the Church of England in this Diocese."

MISTS HOVER OVER GERMANY

BERLIN, Sept. 16.—Whether the fall of the Bavarian Cabinet of Dr. Von Kahr, which resigned Monday, will result in a better understanding with the Berlin Governments on the points at issue between it and the Bavarian Government cannot be foretold with any certainty until the situation clears and the composition of the new Bavarian ministerial council is known.

Party diversions, especially the questions affecting Bavaria's jealously guarded claim to the right to maintain the so-called "state of emergency" within the former kingdom and only terminate it by her own free will, remain acute.

The Radical newspapers here interpret the fall of the Kahr Cabinet as a success for the Empire Government, and urge the surrender of Bavarian "particularism," while the reactionary section of the press clamors for the return of Dr. von Kahr to office or else a general election.

Interest now centres on the question whether the Bavarian non-socialist factions of the Diet, will split and make way for a new three-party combination, consisting of the Volkspartei, the Democrats and the Peasants' party which it is believed, would have a small majority in the Diet.

No official communication has yet been made by the Munich Government to Berlin.

THE GREEK ARMY LIKELY TO RETIRE

LONDON, Sept. 16.—According to information received in London the Greek Army is likely to retire on Eski-Shehr. The Turks are believed to be trying to outflank the Greeks both from the south and the north.

INTERNATIONAL RACE WILL BE CONTESTED

Objections to American Schooner Have Been Removed by Mutual Agreement.

(Special to The Guardian.)
HALIFAX, N. S., Sept. 16.—Although the Gloucester schooner "Mayflower" has been barred as an entrant on the international fishing schooner race, the race will come off after all according to despatches received by the Trusts here tonight from Gloucester. The principal barrier that would have prevented the Boston schooner "Josephine D Costa" from a fending the cup was removed by the Trustees today. The owners of this vessel said they would enter if they were not forced to re-

Business at Home Needs Looking After

(Special to The Guardian.)
VANCOUVER, B. C., Sept. 17.—Neil MacLean, a member of the Imperial House of Commons, addressing a meeting here last night told his audience to "stop barking about Russia and Bolshevism" and to combine their efforts and "get down to business at home and make Canada a land of industrial freedom and prosperity." He predicted the early capture of the machinery of Government and industry by labor.

Canadian Sample Train for France

OTTAWA, Sept. 16.—Sir George Foster, minister of trade and commerce tonight announced that a committee would be formed to make arrangements for the proposed visit of a Canadian sample train to France next year. The period of six months and commerce will undertake the initial work until the permanent organization has been formed.

The French government offers free transportation, warehousing use of the best theatres in practically every city visited by the Canadian train, and free use for the most suitable building in the city of Paris for a fixed exhibition of the Canadian sample goods.

King Urges Goodwill

LONDON, Sept. 16.—Following is the text of the King's reply to an address from the convocation of York presented to His Majesty at the opening of the new convocation:

"It is a sincere pleasure to me to receive your loyal and dutiful address. I thank you for your prayers that blessings may be bestowed upon myself, the Queen and all the Royal family. It is right that you should recall that though nearly three years have passed since the Armistice, the thoughts of men are still chastened by the depression that followed the period of the war and by the anxieties and burdens that still beset them. A stable peace is the goal towards which we must unceasingly labor, and I feel confident that my Dominions beyond the seas will keep it unwaveringly before them."

"I thank you for your graceful tribute to my beloved son. His visits to the different parts of my Empire have, I hope and believe, done much towards strengthening the bonds of fellowship. I am deeply touched by the signs of generous and whole-hearted loyalty with which he has everywhere been welcomed by the most diverse and distant of my subjects."

Thankful for Irish Hope.

"It is a cause of deep and sacred relief, for which we owe thanks to God, that, in answer to my appeal, a new sign of hope has arisen in Ireland. I pray that the promise of a new era now held out may be realized and that my Irish people may be united one to another in peace and good-will."

"I recognize fully the great duty that you perform amidst a vast industrial population. We are confronted with the supreme and vital task of rebuilding our commerce and prosperity, and in that task we need the good-will and active cooperation of every citizen. I welcome with satisfaction your assurance, which I am confident you will fulfil that you will labor to exhort each man to work in fellowship and love with his neighbors for the advancement of the state. We can remember also that good-will amongst citizens is the first, and, in the end, the surest foundation of peace among nations, and in laboring for the one, you will be laboring for the other."

"I pray that the blessings of Almighty God will rest upon your efforts."

SIR ERNEST SHACKLETON LEAVES FOR THE SOUTH

In Smallest Vessel Ever Used on Antarctic Expedition. Cruise Will Last Several Years.

LONDON, Sept. 18.—When Sir Ernest Shackleton and nineteen other "cold weather" scientists successful donors I could ascertain were the photograph people London probably this week for a two year study of the geography of bird and plant life of the Antarctic, one up in almost every conceivably they will have the satisfaction of knowing that never has a polar expedition begun with such a per down at the ship's side, wine delectable instruments that will enable the Norwegian auxiliary bark, refitted and renamed the Quest, will carry two expeditions to study air currents at greater altitude than man has ever flown, ocean currents at 6,000 feet and make surface records that the long experience of Shackleton and his crew consider necessary.

In the first place Shackleton has a boat that he believes cannot be crushed in the ice and this partially substantiated by the fact that he lived one winter in the ice when Canada's best known lumbermen and politicians died at his home, Sussex St., this morning in his 76th year. For several years he had been suffering from heart trouble, and Senator Edwards in the business world will perhaps be best remembered by the part he played in the sixty million dollar merger with the Mordun Pulp and Paper Company, which took place last year when the interests of W. C. Edgerton, Gilmour, and Hughson, the Ticonderoga Pulp and Paper Company and the Kippawa Company were sold.

Fredericton N. B. Exhibition Opened

FREDERICTON, Sept. 17.—Declarating that it had his way the Fredericton Exhibition would belong to the Province, Hon. D. W. Mur, Minister of Agriculture, will see the same pictures many times until the photographer makes some new ones and then they will see in pictures scenes they have followed through. Already the directors of agricultural society are planning a "sing-song" for Saturday, the 24th, for the high standard which the Fredericton exhibition maintained and congratulated the Board upon having acquired the trotting park adjoining the fair grounds, which he said he was glad to connect with the exhibition after this year. The opening ceremonies took place in the main building, Mayor Reid acting as Chairman and Ald. F. L. Cooper, the president and members of the Board of directors of the agricultural society No. 34, being in attendance. Later, concerts were played by the York regiment band and the Worcester, Mass., variety orchestra and the hundreds of visitors found the fair in a more advanced stage than ever before for an opening night. Special trains arriving here during the week-end consisting of 100 cars, all have brought live stock, race horses, concessions exhibits and amusement attractions so that tonight there were on the grounds more than 500 head of cattle, 250 sheep, 18,000 birds in the poultry show and a construction crew have been busily engaged in erecting additional stock sheds to provide ample accommodations. There are 773 individual exhibitors, making upwards of 6,000 entries. The fair buildings have between 70,000 and 75,000 square feet of floor space not including the cattle sheds, horse barns, etc., and all available space is taken up with exhibits, while the entire midway has been sold out and some space never sold before for the purpose has been taken. The show will be in complete operation tomorrow and in the afternoon the free attractions will give their initial performance. On Tuesday the Fredericton Kennel Club's dog show, said to be the best ever staged east of Montreal, will be opened for three days and judging will start in all departments of the exhibition. The horse races will also start on Tuesday with the matched race between John R. Braide 2,024, champion pacer of Maine and Roy Volo, 2,034, champion pacer of the Maritime Provinces as the feature on the opening day. There will be four days racing, one of the other features being the first meeting on Thursday of Alfred King 2,134, and the Expover, 2,066. Champion trotters of Maine and N.B. in the free-for-all trot for the down east trotting championship.

Two Killed in A Train Wreck

CLINTON, IOWA, Sept. 17.—Engineer Thos. Lea and Fireman John Johnson, both of Clinton were killed when the engine of the Chicago and Northwestern Railway's fast westbound train No. 7 was derailed in a washout, a mile and a half west of Belle Plaine early today.

Big Bathurst Pulp Plant to Resume Operations Soon

BATHURST, Sept. 16.—On or about Oct. 1 the Bathurst pulp mill will resume operation, it is announced. A gang of men is already doing repair work and the date of starting is dependent on the extent upon the time required to put the plant in proper working condition. That is the reason Angus McLean, manager of the Bathurst Company, gives for not giving a definite date for the resumption of the mill activities.

The reopening of the mill will affect in the neighborhood of 400 men.

SOVIET RUSSIA PAYS IN TOBACCO FOR GOODS SUPPLIED BY GERMANY

BERLIN, Sept. 16.—Twelve carloads of Russian tobacco have arrived at Leipzig in part payment in kind, for the orders of chemicals, railroad equipment, locomotives and agricultural machinery that Gregory Krassin, Soviet Commissioner of Trade and Commerce made when he was last here. The Bolsheviks have also delivered in the last few days three steamship cargoes of lumber, a thousand tons of asbestos and considerable flax. Germany's deliveries to the Bolsheviks so far have been greater than those of all other countries combined.

Out of the order for 700 locomotives, which Krassin gave, 600 have arrived at Petrograd, and it is expected, the rest will be delivered in two months. Trade relations between German firms and Bolshevik representatives in Berlin are brisk and Krassin is due this week to take charge up to sign new orders of much greater importance.

Noozie, the Sunshine Kid NATURE'S A FUNNY THING, THE WEATHER MAN SAID CLEAR FOR TODAY
