DO YOU WANT TO IMPROVE your situation? Sell complete line household necessities including Tea, Coffee, Free Products in exclusive district. Try Thirty Days without Risk. Apply now. Jito, 1435 Montclair, Montreal, N-633.

Reports Submitted At Teachers Meetings

REPORT OF SALARY COMMITTEE

By H. N. MURPHY Mr. President and Fellow Teachers: It is my duty and privilege to present to you an outline of the work done, comments and recommendations by the salary committee since we assembled here one year ago in convention.

At the beginning of the year 1940 a salary survey was carefully prepared and presented to the Government during the 1940 sitting of the Legislature. This survey was expressed with a sliding scale of salaries for the teachers as was recommended by the 1939 Royal Commission. A copy of each brief was printed in the public press, but in case you may have forgotten what the scale actually was, I shall state it here. The first class male teachers: 1—For 1st year, Statutory \$ 550, with \$100 supp. Total \$650. 2—At end of 3 yrs. Statutory \$ 600, with \$100 supp. Total \$700. 3—At end of 6 yrs. Statutory \$ 650, with \$100 supp. Total \$750. 4—At end of 10 yrs. Statutory \$ 700, with \$100 supp. Total \$800. 5—At end of 15 yrs. Statutory \$ 750, with \$100 supp. Total \$850.

The scale for first class female and for second class, both male and female are comparatively similar. No provision is made for third class teachers. (2) It was pointed out in the brief that it is recognized by all that the very best fact of the charter is the act of our province in placing in the hands of the teachers and consequently it is expedient that the very best fact of the charter remain in the teaching profession. But with our present set-up this is not possible. There is nothing to induce teachers to remain in teaching in the rural schools, to remain in the profession.

At our first meeting with the Government about one year ago, all the members who were present were in agreement with the justice of our demands. The Government refused themselves by saying that they realized that the teachers were underpaid and were labouring under difficulties. A year later we were met with an increase in salary to the inefficient teachers and tried to make "capita" of the first class category and cited isolated instances to substantiate their weak alibi. We do not doubt that the Government in every profession and other walks of life who are less efficient than the average are being paid more than the average. The Government is not doing this in the teaching profession. These teachers remain only one year, sometimes two, and are then three years in the profession and consequently will receive no increase, according to the sliding scale.

The next part of the first brief dealt with the comparison of salaries paid in 1930 and in 1938. There was a very marked decrease. The Government is not doing this in the teaching profession. These teachers remain only one year, sometimes two, and are then three years in the profession and consequently will receive no increase, according to the sliding scale.

The remainder of the first brief dealt with the reasons why we believe a sliding scale of increased salaries should be set up by our Government. Those are worth stating and may I say not one of them was objected to by the Government.

Since our meeting with the Government, a supplementary brief was prepared and presented to the Executive on March 13. Among other facts of importance, we pointed out the seriousness of the conditions facing the education of our youth today, not merely on account of the large number of untrained teachers having enlisted in the army and the navy and the air force, but also on account of the fact that the Government is not doing this in the teaching profession.

At this second meeting it seemed that several of the executive members were merely searching for alibis to oppose giving an increase. One member said that teaching was merely a stepping stone and could not be a profession. He was not alone in this. He had been hopeful that this province would benefit financially from the Rowell-Sirois recommendations had they been executed, but he was disappointed, as we were when we learned that the recommendations had been executed, but he was disappointed, as we were when we learned that the recommendations had been executed.

It was emphasized in the brief that at a meeting of the Executive of the Teachers on April 1, 1939 (note the date) Hon. B. W. LePage, Minister of Education, committed the Government of the day to the pledge that if successful in obtaining an increase in subsidy from Ottawa, the Government would give this money to the Premier said that this money actually had been sent before it was received. How much of it was being used? Not a cent! At this meeting we were plainly told that the Government had no money, and could promise nothing to meet our demands. Perhaps they haven't! But they seem to have money for everything else, but not for education. The Premier requested that the general secretary prepare a list of all teachers now in service who taught from 1915 to 1920, and who were employed five years. This list has been prepared and sent to the Premier, who acknowledged receipt of same.

Now, we must ask ourselves what should we do about it. Give up the fight as hopeless, and let the rising generation be educated by the noble struggle for our just rights? We believe we should be still more persistent in our demands. By those in authority who are being entirely ignored. Why? The Minister of Education in his recent speech in the Legislature did not even mention Education!

It may be argued that the time is very inopportune to seek increased salaries. The Government members even asked us where they may get revenue to pay our demands! Increase! Why, that's their responsibility, we are being entirely ignored. Great Britain has voted a large sum for teachers' salary increase. In the other British dominions the teachers are paid a just and living wage, and even in the most of the other provinces of Canada today the teachers are faring very well, but

One Strike Settled, Others Threaten

By The Associated Press A threat of a walkout at General Motors Corporation's vast industrial plant in Flint, Mich., on Friday as the strike at the Ford Motor Company was settled.

At the same time there was a break-down in negotiations with C.I.O. United Automobile Workers' original proposal was an agreement which would have given the workers a 15 per cent increase in wages and a 15 per cent increase in the cost of living. The union asked for a 20 per cent increase in wages and a 20 per cent increase in the cost of living. The company offered a 15 per cent increase in wages and a 15 per cent increase in the cost of living.

SUMMON PHYSICIAN FOR SCARLET FEVER

When Pandora lifted the lid of that mysterious box in the long ago she tried to shoo all the wicked ailments and diseases back into it again. She could not undo what she had done but there was one thing that little Pandora never thought about doing—that was to tell the people how to avoid catching the diseases and what to do if they really became ill with any one.

So it is left for the modern Pandoras to broadcast the do's and don'ts as to how to avoid catching the diseases and what to do if they really became ill with any one. So it is left for the modern Pandoras to broadcast the do's and don'ts as to how to avoid catching the diseases and what to do if they really became ill with any one.

Program For 1941

Including his report Mr. Callaghan stated that it had been suggested that the general theme for the 1941 Educational Week should be "Education for Democracy in War and in Peace, and it was in accordance with this theme that our provincial programme was so arranged.

GENERAL THEME: IN DEFENCE OF DEMOCRACY

Monday, Nov. 10— Learning the Way of Democracy. Tuesday, Nov. 11— The Fight for a Democratic World Order. Wednesday, Nov. 12— Strengthening the Defences of Democracy. Thursday, Nov. 13— The Place of the School in a Democracy. Friday, Nov. 14— Building Physical Fitness. Saturday, Nov. 15— Enriching Family Life. Sunday, Nov. 16— Education for a Post-War World.
