P. E. ISLAND DAY AT THE TORONTO FAIR

Premier Lea Guest of Honor At Directors' Luncheon, Canadian National Exhibition.

(Special to the Guardian)
TORONTO, Sept. 3—High freight rates to Central Canada constitute a barrier against Prince Edward Island's agricultural produce just as effective as a tariff, Hon. W. M. Lea, Premier of the Island Province, emphasized in addressing the directors luncheon at the Canadian National Exhibition. Today was Prince Edward Island Day, and Premier Lea was the guest of honor.

As a remedy for the situation, he forcefully maintained that freight rates over long hauls in Canada should be reduced, even at the cost of higher short distance charges. Premier Lea, coupled with this proposal a plea for increased Federal subsidies to Prince Edward Island, long justified by economic reasons which he outlined. Declaring that he spoke frankly to a sympathetic audience of Ontario business men Mr. Lea, at the outset congratulated Ontario on its agriculture, forests, mines

Coste Spells His Name With A "Wiggle"

PARIS, Sept. 3—Dieudonne Coste does not know how to spell his name. He himself admits that he is not certain whether the name should have a final "s," so he "just makes a wiggle at the end."

He thinks it best, however, to spell it without the final syllable, as this averts mispronunciation in two syllables.

This French name is variously spelled by individuals who bear it. Some write it Costes and others Coste.

and manufactures, its vast natural resources, growth and foreign trade. "Yet we wonder, as the smallest Province of the Dominion, if we are sharing as much in this industrial wealth and development as the Fathers of Confederation intended." At their first conference in 1864 in the Charlottetown Council Chamber, he pointed out, they had declared against barriers to a free interchange of products between the provinces, which had unfortunately come about. Mr. Lea stressed the difficulties facing farmers of his province in the Ontario market, while showing how they bought implements and the necessities of life from Ontario manufacturers. "In every instance we send our money to Ontario. No wonder you're wealthy," scored Mr. Lea; his statement being met with laughter and some cheers.

Premier Lea went on to discuss the resources of Prince Edward Island, its development and its relations with the rest of Canada. Following the advent of the Car Ferry and improved transportation lines traffic in the Province's railways has increased 350 percent in the last six years, he said. Markets had been opened up in the Southern States for its farm produce because its farmers were able to produce efficiently certified seed, their potatoes being of much higher standard than required by the Dominion. They have been able to enter the United States market over a high tariff wall. The Premier then called attention to the cheap land and fertile soil of Prince Edward Island and the scientific methods of the farmers, always striving to improve agriculture. He dealt also with its fox farming and fishing industries. "We are getting on fairly well if we could get the other provinces to agree to a reduction of freight rates and a quid pro quo for our unfavorable balance of trade with Ontario since Confederation," he summed up.

Coming to the topic of Federal subsidies to Prince Edward Island, Hon. Mr. Lea explained that the wealth of the predominant farming population went through the medium of the banks into central Canadian industries and did not yield taxes to the provinces thus. Though larger subsidies from Ottawa were not only fair but essential, the present amounts are totally inadequate, he considered. They had remained static since Confederation, though the purchasing power of the dollar had fallen to forty percent of its pre Confederation value.

Premier Lea expressed his pleasure at the success of R. W. E. Burnaby, Maritime Trade Commissioner to Ontario, and the Maritime Exhibition at the Canadian National Exhibition. He hoped to see it given greater space and prominence next year. Instead of the millions of dollars we annually pay you in central Canada for farming implements and manufactures he concluded, we hope we will soon send you in return more of the products of our Island.

The Conservative Association In Annual Meeting

Great Enthusiasm At Largely Attended Meeting In Strand Theatre Yesterday Afternoon. Mr. W. A. Stewart Conservative Nominee For Provincial Legislature Re-Elected President.

A large and most enthusiastic delegation attended the annual meeting of the Liberal-Conservative Association of Queen's County, held in the Strand Theatre yesterday afternoon.

The report of the year's work was briefly presented by Mr. W. Allan Stewart, Conservative nominee for Charlottetown and Royalty and president of the Association; the executive for the coming year was appointed; a number of important resolutions were passed; and addresses were delivered by Hon. J. D. Stewart, leader of the Opposition, and by Dr. W. J. P. McMillan.

At a meeting of the executive, Mr. W. A. Stewart was re-appointed president, Mr. Geo. M. McKay, New London, Vice-president and Mr. N. W. Lowther, Secretary.

Mr. Stewart in his report expressed his pleasure at seeing so many present at the meeting. The nomination of Messrs McLure and Myers on Oct. 22nd, last was a turning point in the history of the party. The wisdom of the choice made was shown on July 28th. Early nomination was an important factor in the final result.

The visit of Hon. R. B. Bennett and Miss Bennett to the province was an important incident. The great gathering at the meeting then held

must have been inspired by the confidence of the party leader. Much work has been done by Hon. J. D. Stewart, provincial Conservative leader. The executive was very busy during the year, and dealt promptly with all matters brought before it.

Resolutions

The following resolutions were unanimously adopted:

Resolved: That this annual meeting of the electors of Queen's County held in Charlottetown this 3rd day of September, 1930, extend its congratulations to the Hon. R. B. Bennett, Premier of Canada, for his overwhelming victory at the polls on July 28th last.

Further, that this meeting express its pronounced fidelity to him in his work as Prime Minister, and its confidence in his selection of the Cabinet and his readiness to implement his pledges as soon as possible.

And, further, that a copy of this resolution be forwarded at once by Secretary to the Hon. Mr. Bennett.

Moved by George D. DeBlois; Seconded by J. J. MacDonald.

In moving the resolution, Mr. George DeBlois stated that on July 28th,

Are Satisfied With Souvenirs, \$25,000 Loss

(Special to the Guardian)
NEW YORK, N. Y., Sept. 3—The zeal of U. S. souvenir hunters who ripped a piece from the fuselage of the trans Atlantic plane Question Mark, on its arrival with Coste and Bellonte from Paris last night, may cost the French aviators the \$25,000 Easterwood Prize hung up for a Paris-Dallas flight. The plane was so damaged that repairs will be necessary and the Dallas flight must be made at once.

a great battle was fought and a great victory was won. Not only was it a great victory for the Conservative party, but it was also a great national victory. With that victory has dawned for Canada a new era of prosperity. The country will enter into a heritage of prosperity denied it by bad government and poor administration. Hon. R. B. Bennett is a great statesman, a man of exceptional ability. On the occasion of his appointment to the party leadership in 1927 at Winnipeg, he there dedicated his life and consecrated himself to the service of humanity and to the service of his great country.

Mr. J. J. McDonald in seconding the resolution, related that he was privileged to observe Hon. R. B. Bennett some nineteen years ago at Calgary at the time when he won his first federal victory with a majority of 3,000. He was a big man in law and in business, always a promoter of industry, and has been complimented by law lords when presenting cases to the Privy Council.

We, the electors of Queen's County, meeting in Charlottetown this 3rd day of September, 1930, take this opportunity to convey to Messrs. McLure and Myers our congratulations for the splendid victory achieved by them, notwithstanding the great odds they had to contend with in this County.

And, further, we wish to assure them that we have every confidence in their ability to give us intelligent representation at Office.

Moved by Duncan J. Riley, Belle River; Seconded by Wm. J. Gibson, Marshfield.

Resolved: That this annual meeting of the electors of Queen's County, held in Charlottetown this 3rd day of September, 1930, go on record in giving to our leader, Hon. J. D. Stewart, our undivided support, firmly believing that due to his sincerity, integrity, able statesmanship and constructive policies he will be THE PREMIER of Prince Edward Island after the next General Election, thus placing our Province in line with the Federal Government.

Moved by W. J. Monaghan; seconded by Malcolm McKinnon; Supported by J. Augustus McDonald.

In moving the resolution, Mr. Monaghan reminded the delegates that they will again within a year be called upon to go through a campaign. The party has every confidence in Hon. J. D. Stewart, Conservative leader.

Resolved, That this annual meeting of the electors of Queen's County express its unanimous approval of the nomination, on Friday night last, of our President, Mr. W. Allan Stewart, as the candidate to carry the Banner of the Liberal-Conservative Party to victory in the metropolitan constituency of Charlottetown and Royalty in the expected by-election.

Moved by J. C. Moran; Seconded by J. J. Storey. Mr. Moran, in moving the resolution expressed the opinion that Mr. Stewart will be an able representative for Charlottetown and Royalty, and a brilliant col-

Hurricane Plays Havoc In South

DIED WHILE ON THE WAY TO WHITE ISLAND

Newly Discovered Diary of Andree Reveals That Third Party Never Reached Destination.

(Canadian Press)
STOCKHOLM Sept. 3—The newspaper Dagens Nyheter this evening said that the newly discovered diary of Salomon August Andree reveals that Knut Frankel, third member of the expedition died while the party was on its way to White Island. According to the paper, the Andree diary says the three explorers started across the ice after the wreck of their balloon and were still going on September 5. Nils Strindberg, Andree's scientific worker, it adds died after arrival on White Island and was buried by Andree.

Lightning Kills During Funeral

(Special to the Guardian)
LADYSMITH, Que., Sept. 3—Lightning struck death and injury into the midst of a funeral service in the Ladysmith Lutheran Church during a severe electrical storm yesterday. Henry Zimmerling, attending the funeral of his uncle was the victim of the bolt. Three other Ladysmith residents were injured; but their condition was reported as not critical.

(Canadian Press)
OTTAWA, Ont., Sept. 3—Senator Pierre Blondin, Montreal, has been appointed Speaker of the Senate. Official announcement of the appointment of Senator Blondin will be made shortly.

ague for Dr. W. J. P. McMillan. He has earned any honour that the party could confer upon him and his election is assured. There but remains for the party to get behind him and elect him with a handsome majority.

Hon. J. D. Stewart thanked the meeting for the resolution of confidence accorded him, a resolution which he interpreted as a vote of confidence to the former Conservative Govt. composed of the ablest group that ever sat in the legislature. The time has come for selecting another such group. The federal victory was won in Queen's County through organization, early established, working in conjunction with the industry and energy of the candidates. It is the business of the association to see that the organization be kept in perfect condition for the next local election. The premier however, is singularly silent on the subject of election, although he is not usually silent. The government must hold three by-elections if the law is to be observed, but the present government is composed of men who do not always observe the law. One vacancy occurred about May 1,

(Canadian Press)
SAN JUAN, Porto Rico Sept. 3—With a tropical hurricane centering near Santo Domingo City and reported moving northward into the Atlantic ocean, the last communication received from Santo Domingo at 3.30 p. m. today stated that a wind of 150 or more miles an hour was lifting the roofs off houses with all communication and power lines rapidly going down.

HAVANA Sept. 3—Elpais, a Spanish language newspaper at 5 p. m. today reported receiving authentic information that Santo Domingo City was devastated by a hurricane which struck there late this afternoon. The report to Elpais was partly substantiated in a radiogram received from Trinidad by the Pan-American airways stating observers there had reported a 130 mile hurricane in the direct vicinity of Santo Domingo. Another report not of an official nature, but generally considered reliable, said that terrific destruction had been visited upon the city of Santo Domingo. According to the report the wind had reached velocity of 135 miles an hour and was heading northwestward toward Fisherman Point, a small island in the Caribbean Sea. Neither the Cuban National Observatory nor the Observatory at Belen University had definite news concerning the reported arrival of the hurricane at Santo Domingo. Bulletins issued early in the afternoon by these observatories said the disturbance was more than 100 miles south of Cuba, heading west by northwest, with little likelihood it would touch Cuba.

CUBA CONCERNED
Cuba became deeply concerned tonight with the possibility that the westward course of the disturbance might change to a more northerly direction and cut a swath of destruction across the island.

Santiago, lying on a line almost directly between Santo Domingo and Fisherman's Point, was reported preparing for the blow in the belief that the storm might reach that point tomorrow morning.

Downpour In Toronto Ties Up All Traffic

(Special to the Guardian)
TORONTO, Ont., Sept. 3—Water in the streets ran like rivers, traffic was tied up, buildings were struck by lightning and one man was injured, when the skies over Toronto opened yesterday afternoon and tumbled one and three quarter inches of water into the city within thirty minutes. Despite its brevity it was the worst storm that has struck Toronto this summer. All the city's subways were clogged with water, low lying streets were flooded over the sidewalks and the Don and Humber Rivers rose to high levels following a heat wave that had gripped the city for the past three days. Black thunder clouds gathered suddenly over head about 2 p. m. and after a few warning volleys of thunder, dropped their load of water. A few minutes later from 2.14 to 2.45 p. m. 1.73 inches of rain fell, almost twice as much as the entire rainfall for August.

WILL FLY THE QUESTION MARK BACK AGAIN

Coste Will Take Comrade Back To Paris With Him On Return Hop.

(Associated Press)
PARIS, Sept. 3—Capt. Dieudonne Coste, while all Paris rejoiced over his great flight to New York today, promised by wireless telephone that he would fly the Question Mark back across the ocean again before bad weather sets in. He told Paul Codoc, his comrade on other flights he could be certain of having the opportunity of accompanying him.

Well Known Summerside Man Passes

SUMMERSIDE, Sept. 3—After an illness of about three months, Mr. Percy N. Enman, well known druggist of Summerside, passed away in the Prince County Hospital tonight at 8.30 at 54 years of age.

Mr. Enman was born in Summerside, the son of the late Mr. and Mrs. J. D. Enman, and had been in business for over thirty years. He was well known for his integrity in his dealings with his associates in business and for his kindly disposition which won him many friends throughout Prince County. There are left to mourn two sisters, Mrs. Chisholm of Ottawa, and Mrs. Annie Reburn of Ruddle, Sask., and two brothers, Charles D. Wetsaskwin, Alta., and Lawrence at present in Summerside, to whom the Guardian extends sincere sympathy.

The funeral will be held from the Presbyterian Church at Summerside on Friday afternoon. The remains will be at Miss Burrow's residence, Summerside, until noon on Friday. S.

The Weather, etc
