EASTERN NOTES.—Showery weather for the last week has postponed hay-making here, though from geograpical and geological conditions, our hay making and harvest are generally two weeks later than southern and middle Queen's County.—The codfish season on the South side is closed and will average scarcely half a catch. Probably from the intense cold of last winter filling the Gulf with a greater quantity of ice than usual and its drifting for weeks in spring between Cape North and Newfoundland, the great gateway for fish to enter our waters, caused a deflection of the great cod school to other grounds. The same cause may have interfered with the supply of herring as their scarcity made the catch of cod smaller, no other bait being available. Hake is scarce at present, and the present outlook for mackerel most discouraging. In fact it looks at present as if there is no body of them here these seasons, the remnant of them that was making their way to our waters being caught in the Nova Scotia shore by the destructive purse seines of Gloucester. The dreaded and hated dogfish made a sweep along our shores for a few days but now they are gone to some other pastures.—The heartfelt sympathy of the whole community goes out to Theophilus McDonald and his family when the sad news was flashed over the wires from Montreal that his youngest son George was killed on the railway where he was employed. He was one of our most promising and enterprising young men, was employed for the last few years in the dairy business in New Brunswick, and spent a few days with his parents last March ere he left for Montreal to be cut down in early manhood at the beginning of a promising career.—Rev. Henry A. McDonald of Lexington, Kentucky, is spending a few weeks at his early home; he is the guest of his brother Judson.—Alex Hobbs of Milton, Mass, and Miss Bessie Hobbs of your city are visiting at John Bruce's.
