OGILVIE'S FLOUR

Is the highest grade on this Continent. No other Flour will make as much bread to the barrel. Bakers make 152 pound loaves from one barrel of OGILVIE'S. The price is so near that of Ontario Flours, that you would lose money by buying any other. It absorbs more water than any other known Flour; therefore the bread will keep moist longer. OGILVIE'S is made from No. 1 Hard Manitoba Wheat, (acknowledged to be the best made in the world), and scientifically milled by the latest improved methods. Manitoba Wheat contains more gluten than any other Wheat, and gluten is the property in wheat, which gives strength. It is more healthful than starch, which is the principal element in Winter Wheat.
