LABEL AND HARDY FUNNIER THAN EVER IN "BLOCK-HEADS"

In "Block-Heads", new Hal Roach F. C. comedy starring Laurel and Hardy, and coming to the Empire Theatre today, the comedians find themselves in a swank, modern apartment house. The dignity of the surroundings, however, offers no bar to their continuous merriment. In fact, the austerity of the backgrounds makes their famous gags all the more ludicrous, and the current comedy contains an abundance of side-splitting incidents.

In addition to the active imaginations of Stan Laurel and Oliver Hardy, who can endow the most trivial of incidents with laugh-compelling qualities either in real life or before the camera, they have been assisted in the new venture by a group of Hollywood's best known comedy creators.

All of the studio's resources for the making of entertaining and stimulating comedies were placed at the disposal of the Laurel and Hardy unit. The result is a greater proportion of laugh-provoking sequences in "Block-Heads" than has been found in any recent comedy.

INDIAN EDUCATION The University of Poona, India, has 23 colleges, including one medical, two engineering and one agriculture college and four research institutions.

Plans are being made to market Canada's only known deposit of perlite, a building material found near the farm centre, 160 miles east of Prince Rupert, B.C. It was originally discovered in 1876 by G.M. Dawson of the Dominion Geological Survey.

ROY HEMPHILL, who has been enjoying his leave with his parents, Mr. Ernest Hemphill, left Monday for Halifax where he will report to H. M. C. S. Stadacona. Roy joined the Canadian Navy some time ago and prior to his visit home was stationed on Canada's West Coast.

MR. S. C. KNIGHT, druggist, left Tuesday morning on a visit to his son-in-law and daughter, Dr. and Mrs. Clayton George of Lucan, Ontario. Mr. Knight flew from Charlottetown to Toronto where he planned on spending a major portion of his daughter, Miss Enid Knight. On return journey he will accompany Mrs. George and two children on a motor trip from Ontario to Charlottetown where they will vacation.

THE WOMEN of St. David's United Church held two meetings recently. The Women's Missionary Society convened at the Manse on the 7th and the Women's Association at the home of Mrs. Spurgeon Walker on the 9th. Both functions were pleasant and successful. Necessary business was dealt with and much enjoyed refreshments were served. Mrs. Walker was assisted as hostess by Mrs. Nelson Hanson.

BRILLIANT CAST AND STORY MAKE "FORT APACHE" OUTSTANDING FILM

With John Wayne, Henry Fonda, Shirley Temple and Pedro Armendariz co-starring at the head of an imposing cast, "Fort Apache" the John Ford-Merian C. Cooper production now at the Prince Edward Theatre, presents a striking drama of U. S. Cavalry versus the Apaches in 1870 Arizona.

Wayne plays an experienced frontier officer at a lonely Army post. Fonda, an arrogant lieutenant-colonel from the East, sent to take command of the post, refuses to take Wayne's sound advice on dealing with the wily Chief Cochise. Fonda also objects to his daughter's romance with a young officer at the fort, which makes him even more unpopular.

When Cochise and his tribe rebel at the crookedness of an Indian agent, Fonda seizes the chance to trap the Apaches and make a name for himself in Washington. Wayne warns him that his scheme will fail, but Fonda, contemptuous of the Indian's fighting ability, goes ahead, with dramatic results.

John Agar, husband of Shirley Temple, makes his film debut as a young West Pointer, and the featured cast includes Ward Bond, George O'Brien, Victor McLaglen, Anna Lee, Irene Rich, Dick Foran, Guy Kibbee, Grant Withers and Mae Marsh. Frank S. Nugent wrote the screenplay from a story by James Warner Bellah.

ALLUVIAL DEPOSIT

The triangular tract of land that often forms at the mouth of a river is called a delta because its outline resembles the Greek letter Delta.

MONTREAL (CP) - Montreal is the oil-refining capital of Canada. T.A. Bell of Imperial Oil Limited told a service club here recently. More than 100,000 barrels of crude oil daily, more than one-third of Canada's consumption, are refined on Montreal Island.
