LINDBERGH ARRIVE AT HALIFAX

Hop From North Haven, Maine, Made In 2 Hours, 36 Minutes - Will Resume Flight Today.

(By Charles Bruce, Canadian Press Staff Writer)
HALIFAX, July 11—(C. P.)—and north over the air trails, the winged Lindberghs halted in this port tonight. Bright sunlight sparkled on the harbor and a brisk south east wind was blowing as the black-barrelled, red winged monoplane settled on its white pontoons and taxied to a mooring at the Royal Canadian airport base at eastern passage.

Neither would go into any details.

ANNOUNCEMENTS, COMING EVENTS, MEETINGS, ETC

**Announcements are inserted in this column at 2 cents per word strictly payable in advance.

**Talkies at Victoria Thursday 1649-7-10-31

Vigilantes To Guard Railways

(Associated Press)
MOSCOW, July 11—Creation of a vigilante organization to seek out hostile elements in the Soviet railway transport system and to bolster up the work was ordered today by the Communist party. The groups, to be known as "transport political sections," will operate similar to those recently named for agriculture. Each will be composed of three party members which will deal severely with "saboteurs" and other inside enemies, and by their work set an example for the others.

FLIGHT IS POSTPONED

(Associated Press)
REYKJAVIK, Iceland, July 11—After an unsuccessful attempt of General Italo Balbo, the leader, to lift his ship from the bay, the flight of 24 Italian seaplanes enroute to Chicago was postponed today. It was thought probable the postponement was due to trouble with the gasoline supply.

General Balbo, who earlier had ordered his companions to be ready for a takeoff, returned to the landing buoy after he had failed to get his plane up.

ANOTHER ATTEMPT
REYKJAVIK, Iceland, July 11—(A.P.)—Italy's Chicago-bound seaplane squadron will make another attempt tomorrow to take off for Cartwright, Labrador, providing weather is favorable.

Aviation Minister Italo Balbo issued orders tonight that the crews for the 24 seaplanes be awakened at 3 a. m. (11 p. m. E. S. T. Tuesday) and that cars be ready to convey them to the harbor for the start.

OTTAWA, July 11—(C.P.)—Arrangements being completed for the radio coverage of the arrival of General Italo Balbo and his

LECTURE FOLLOWED WITH KEEN INTEREST

Assyrians And Babylonians Discussed By Dr. G. R. Lomer Last Evening

"The Assyrians and Babylonians and their Legends" was the subject of Dr. G. R. Lomer's second public lecture in the series now being given under the Library Institute, in the Prince of Wales College Hall. The lecture last evening was followed with profit and pleasure by a large audience.

The story of the Babylonians and of the Assyrians is one that touches, at many points, the Old Testament narrative, and the illustrations that were shown on the screen brought to mind vividly scenes from the days of Noah and Daniel.

The Babylonians lived, at the eastern end of that fertile crescent that extends north of the Arabian Desert from the mouth of the Tigris and the Euphrates to Palestine and Egypt. Here in days past was the path of Empire and it was by this route that "the Assyrian came down like the wolf on the fold," bringing his army to Jerusalem to conquer and be conquered.

Racket Flourishes In United States

(By Charles Harner)
Copyright, 1933, by Associated Press.
NEW YORK, July 11.—Kidnappers, operating throughout the United States, have sought at least \$650,000 from victims' families and friends in the last five months. They haven't received that sum—probably. No one knows. But the racket has paid them more than \$250,000 in that time.

Every law enforcing power in the country, from private detectives to the President of the United States, has taken an interest in the wholesale proceedings, which steadily have increased in scope.

Here, in brief, are the kidnap demands of only the most notorious cases of the last five months:

Charles Boettcher, U, Denver, Feb. 12—\$60,000.

J. Jerome Factor, Chicago, April 15—\$50,000.

Peggy McMath, Harwichport, Mass., May 2—\$60,000.

Mary McKelroy, Kansas City, May 27—\$30,000.

William Hamm, St. Paul, June 15—\$100,000.

John Factor, Chicago, July 1—\$100,000.

John J. O'Connell, Jr., Albany, July 7—\$250,000.

August Luer, Alton, Ill., July 10—Unannounced.

Wage Cut Will Be Continued

CLEVELAND, July 11—(A.P.)—The railway Labor executives' association of the United States announced today that all the interested railway employees had confirmed an agreement to continue the temporary 10 percent wage reduction placed in effect February 1, 1932.

The agreement was tentatively signed in Washington last month by the Labor Association and railway management representatives after the administration had dissuaded the management from a demand for another 12 1-2 percent reduction beginning this November.

The confirmation by the various brotherhoods and employ classes merely means that the 10 percent reduction will be continued until June 30, 1934.

A whole host of projects are under way outside the conference proper and the outlook for some of

them is most promising. Canada especially has been working actively with the other Empire delegations on furtherance of Empire trade and straightening out the Empire currency tangle but what progress, if any, has been made on these topics of vital interest to the Empire is being closely guarded.

Still there is also wheat, timber and silver. Negotiations are said to be progressing very favorably on wheat. The big four—Canada, Australia, the Argentine and the U. S.—are already agreed in principle on limiting production, regularizing exports. They are understood to have gained a considerable measure of co-operation from the European exporters. Now they are working on the importers.

Much of the groundwork for restoring the world's timber market has been done, since Canada's earnest declaration that if Russian dumping continued to wreck the English market for her, she would ask the United Kingdom to make good her promise to maintain the Imperial preferences intact. All countries instead will be busy during the summer organizing statistics of their production and exports, studying collective agreements.

Agreements on silver is said to be nearer than on anything else. Within the next few days agreement is expected between the silver-holding and producing countries, including Canada, restoring the market for the white metal. Senator Key Pittman, of Nevada, leading silver advocate, is confident he has virtually completed an agreement with India to prevent excessive dumping of silver on the markets.

Mattern Safe In Siberia

A dispatch from Moscow states that James Mattern, American flier, who was lost on an attempted round-the-world flight, is safe at Anadir, Chukotka, Siberia.

MOSCOW, July 11—(A.P.)—The Northern Sea Route, civilian organization in charge of aviation in the northern region, today instructed Pilot Levanovsky to pick up Jimmie Mattern, American aviator, at Anadir, Siberia, and take him to Nome, Alaska. From Nome it was understood he will continue his solo flight around the world to New York in another plane, stopping at Edmonton.

MONETARY QUESTIONS ARE OMITTED FROM CONFERENCE AGENDA

(By George Hambleton, Canadian Press Staff Writer)
LONDON, July 11.—(C. P. Cable)—Monetary questions, tariffs and import quotas were finally cut out of the agenda of the world conference today in an amicable truce with the European gold bloc.

Great Britain, the Dominions and the United States acquiesced in the gold standard nations' view that nothing can be accomplished satisfactorily on the more important monetary questions so long as there is no stabilization of currencies, and there can be no stabilization until the U. S. changes its attitude.

To this extent the conference was right back where it was in the crisis of last week, but there was an important difference. Then the incensed gold-standard delegates were ready to quit the party. Now they are well satisfied monetary questions are dropped and they will keep on working at the other questions.

The conference will go on, but it is expected to continue only two or three weeks in order to reach agreement on the non-contentious questions left on the agenda. Then the plan is to adjourn the conference proper until the autumn, leaving some committees at work, and hoping that before the conference meets again the U. S. will be willing to stabilize currencies. In that event the conference might tackle properly the broad programme originally laid before it. Many delegates tonight were very hopeful about this end.

Prime Minister R. B. Bennett, who characterized today's decisions as permitting the work to go smoothly on, is prepared to return with the Canadian delegation at the end of July.

The Steering Committee this afternoon accepted the recommendations of a special drafting committee of the full monetary commission, a committee of which Premier Bennett was a member. It was decided it was no use going on with problems on which unanimous agreement is not likely.

The questions left are indebtedness, meaning long and short term commercial loans, not war debts; along with central banking co-operation, creation of central banks in countries which haven't got them now, rehabilitation of silver and other questions on which the respective sub-committees think there is a chance of agreement.

A whole host of projects are under way outside the conference proper and the outlook for some of

them is most promising. Canada especially has been working actively with the other Empire delegations on furtherance of Empire trade and straightening out the Empire currency tangle but what progress, if any, has been made on these topics of vital interest to the Empire is being closely guarded.

Still there is also wheat, timber and silver. Negotiations are said to be progressing very favorably on wheat. The big four—Canada, Australia, the Argentine and the U. S.—are already agreed in principle on limiting production, regularizing exports. They are understood to have gained a considerable measure of co-operation from the European exporters. Now they are working on the importers.

Much of the groundwork for restoring the world's timber market has been done, since Canada's earnest declaration that if Russian dumping continued to wreck the English market for her, she would ask the United Kingdom to make good her promise to maintain the Imperial preferences intact. All countries instead will be busy during the summer organizing statistics of their production and exports, studying collective agreements.

Agreements on silver is said to be nearer than on anything else. Within the next few days agreement is expected between the silver-holding and producing countries, including Canada, restoring the market for the white metal. Senator Key Pittman, of Nevada, leading silver advocate, is confident he has virtually completed an agreement with India to prevent excessive dumping of silver on the markets.

Placing indebtedness first on the new agenda was regarded as a concession to France, which insisted on this point. France herself wanted to please her allies among the smaller European countries. All parties seemed agreeable to further discussion of the plans which permit calling for tenders within 60 days for the new plant, the initial cost of which will be \$1,000,000.

NEGOTIATIONS STARTED BY ABDUCTORS

Reiterate Demand For \$250,000 Ransom And New List Of Go-Betweens.

(By Walter T. Brown, Associated Press Staff Writer)
ALBANY, N. Y., July 11—Revenge was advanced today as a motive for the kidnapping of the 24-year-old nephew of Ed and Dan O'Connell, Democratic leaders, as the family resumed negotiations with the kidnapers after a silence of 48 hours.

Hope for the safety of the athlete John O'Connell, Jr., and his early release was revived at the anxious homes of his parents and his uncles when a note was received from the abductors. It reiterated a demand for \$250,000 and demanded a new list of go-betweens. The new list, in code, like the first group of suggested intermediaries, was printed in a local newspaper. The caption of the classified ad, as was the first one last Sunday morning, was the word "Sedgewick."

WASHINGTON, July 11—(A. P.)—The pound sterling is above par in the issuance of international postal money orders in the United States. Footmaster General James Farley has just ordered that money orders for payment in Great Britain, Northern Ireland and the Irish Free State shall be at the rate of \$4.87 to the pound.

"The continued upward trend in the price of foreign exchange," said the notice, "has necessitated another change in money order conversion rates."

Pound Sterling Above Par

NEW GLASGOW, N. S., July 11—The special train bearing Lord and Lady Bessborough through Nova Scotia was travelling tonight towards Sydney, the next stop on their tour of the province. The vice-regal party left New Glasgow late today, following a round of official ceremonies in this district.

After receiving a civic welcome at New Glasgow, the party journeyed to Trenton, Stellarton and Westville, where their Excellencies were greeted warmly. At New Glasgow, they visited Mollison air field and enjoyed a demonstration of stunting by Pilot Humphrey Madden.

New Glasgow Visited By Vice-Regal Party

NEW GLASGOW, N. S., July 11—The special train bearing Lord and Lady Bessborough through Nova Scotia was travelling tonight towards Sydney, the next stop on their tour of the province. The vice-regal party left New Glasgow late today, following a round of official ceremonies in this district.

After receiving a civic welcome at New Glasgow, the party journeyed to Trenton, Stellarton and Westville, where their Excellencies were greeted warmly. At New Glasgow, they visited Mollison air field and enjoyed a demonstration of stunting by Pilot Humphrey Madden.

Plan To Build Large Distillery

(Canadian Press)
WALKERVILLE, Ont., July 11.—Plans for construction of probably the world's largest distillery at Peoria, Ill., by Hiram Walker-Gooderham and Worts, Limited, are underway, it was announced here today by W. J. Hume, President and General Manager. Plans for the distillery, to be operated as a subsidiary of the parent firm, are being drawn by a Detroit firm of architects and it is hoped to have it operating within a year. Completion of the plans will permit calling for tenders within 60 days for the new plant, the initial cost of which will be \$1,000,000.

The French were also successful in blocking further immediate consideration of tariffs and quotas, which they insist cannot be adjusted without monetary stability. The economic sub-commission dealing with these subjects selected a drafting committee to draw up a report including the different ideas which have been put forward.

The question of dealing with the more important problems later on was clearly foremost in the mind

of the delegates. Significance was seen in the closing words of the monetary commission recommending consideration of any subject which may by general agreement be considered suitable for discussion.

Although disappointment was naturally manifest in some quarters about the blocking of the conference by failure to achieve even

(Continued on Page 2)

Paraguay Troops Are Victorious

ASUNCION, Paraguay, July 11—(A.P.)—The Ministry of War announced late today that Paraguayan troops had been victorious in the Gran Chaco conflict against a Bolivian attack along a front extending from Fort Arce to Fort Nanawa.

The communique said the Bolivians suffered 600 casualties and the Paraguayans captured machine guns and rifles in counter attacks after repulsing three enemy drives.

CANADIAN BANK MANAGER SHOT DEAD

(Canadian Press)
MEXICO CITY, July 11—David Burton Ememo, 50, general manager of the Bank of Montreal in Mexico and native of Lunenburg, N. S., was shot and instantly killed tonight at a bank meeting. C. H. Whalley, a former English employe of the bank, was arrested. Bank officials said Whalley forced his way into the meeting room and shot Ememo five times. The bank head slipped to the floor and was dead when associates reached him.

Whalley, about 35 and prominent in social and sport circles here, walked from the room, eye-witnesses said, threw the gun into the patio and gave himself up to other bank employes.

According to information police secured from the eye-witnesses Whalley, a native of London, England, opened the board room door during a banking discussion. Pretending to have opened the door by mistake he partially withdrew from the room, meanwhile drawing his gun. Then he swung the door open again and emptied his gun into Ememo's body.

It was learned Whalley, who left three months ago on a vacation to Canada and England, returned here last night. He lodged at a cheap hotel near the bank and stayed there today. His fellow employes were surprised when he appeared at the bank long after closing hours. They said as far as they knew he was still in the employ of the bank as a lesser official when he left on his holiday but it was learned he had been dismissed since departing.

Chief of Police Juan Jose Mendez immediately took charge of the case. Whalley made no immediate statement. Ememo who had been here three years, having come from Montreal, where he resided for some time, is survived by a widow and three children. His body was taken to the English hospital for an autopsy.

Officials of the bank told police later that Whalley was in London when he was discharged. They said he threatened at that time to return to Mexico and that Mr. Ememo had sought to prevent him from entering the country.

Interviewed at police headquarters Whalley appeared completely composed. "Now we are square," he said. "I was left in the street without a job and without money. I am completely satisfied with what I have done."

Mrs. Ememo was on the verge of collapse but it was learned arrangements are being made to return her husband's body to Lunenburg for burial.

Lord Amulree At Liverpool

LIVERPOOL, England, July 11—(C.P. Cable)—Lord Amulree, chairman of the Royal Commission which has been examining the state of Newfoundland's finances, arrived at Liverpool today from St. John's. The Commission's final report has not yet been made public. It was formed after Britain and Canada jointly aided Newfoundland to meet interest payments at the end of December. At the end of June Britain alone contributed towards the deficit.

SCHOONER IS DAMAGED BY HUGE WHALE

Fishing Vessel Evelyn Young Enters Port In A Sinking Condition.

(Canadian Press)
POPE'S HARBOR, N. S., July 11—Captain Howard Daye and the crew of the fishing schooner Evelyn M. Young were safe in port tonight after a thrilling encounter with an enraged whale off the Nova Scotia coast.

The little vessel was hoove to 11 miles off Pope's Harbor when a 50-foot whale broke surface close by and stopped a few hundred feet from the ship. The crew continued fishing while the whale lay motionless on the surface.

Late at night they heard the huge mammal moving. The sound was followed closely by a violent jerking of the anchor cable, as the whale's body fouled it. The schooner's bow dipped alarmingly and then rose again with a rush as the cable parted.

As it snapped, the whale's tail slapped against the bow with a crash and the vessel shivered under the blow. Dishes slid from the tables and stove as it careened to one side.

The blow had sprung the schooner's seams and water began to enter the hold. Captain Daye turned the Young for Pope's Harbor and made port before morning. The vessel was in a sinking condition and had to be grounded.

Coal Combine Is Charged

(Canadian Press)
QUEBEC, July 11—Formal complaints will be laid Thursday against seven Montreal coal firms charging them with operating a combine detrimental to public interest. Louis St. Laurent, K.C., will act on behalf of the Province in conducting the prosecutions resulting from the investigation carried on last winter by F. A. McGregor, appointed by the Dominion Government to probe the coal import situation in the Dominion.
