THESE MEN MADE GOOD.—The Maple Leaf, of Oakland, Cal., says: P. G. McIntyre, the well known contractor and builder of this city, has been appointed inspector of county buildings by the Board of Supervisors of Alameda County. No better man could have been selected for the position. Mr. McIntyre is a native of P. E. Island. Peter C. McCormack, a business man of Wrangell, Alaska, and also a member of the Alaska legislature, arrived in San Francisco on January 19th on his way home to Wrangell from San Diego, Cal., where he and his family were spending the winter. His family will remain in San Diego till the early summer. Mr. McCormack is a native of Monticello King's County, Prince Edward Island.

N. S. GREAT WAR VETERANS.—The Nova Scotia branch of the Great War Veterans' Association, after months of careful planning, is about to bring to a head its plans for a provincial headquarters, to be built in Halifax, which will serve as a permanent and practical memorial to the Nova Scotia heroes of the great war. This week a delegation of G.W.V.A. officials will interview provincial and Dominion government leaders with the object of the government support for their project. Interviews with city officials are also planned, and once the scheme receives the support of all branches of the government it is expected that it will move forward smoothly to its completion. The plan, as outlined by Secretary Hamilton, is to erect on a site to be chosen later, a building which will serve as provincial headquarters of the Great War Veterans Association, and which will also be a monument and an enduring memorial to the Nova Scotian soldiers who have fought and are still fighting, in the cause of world liberty overseas. Such a building, the officials of the association argue, and with sound logic, will be an infinitely more enduring and practical monument than any granite, shaft or sculptured marble edifice, which could be built at an equal cost. It will house the executive offices of the association, which is destined to play a large part in after the war affairs, with recreation rooms, concert and lecture halls, baths, billiard rooms and similar attractions for members.

Minaid's Liniment Co., Limited. Gentlemen,—My daughter, 13 yrs. old, was thrown from a sleigh and injured her elbow so badly it remained stiff and very painful for three years. Four bottles of MINAID'S LINIMENT completely cured her and she has not been troubled for two years. Yours truly, J. B. LIVESQUE. St. Joseph, P. O., 18th Aug., 1906.

MR. HARKIN'S NARROW ESCAPE.—Mr. W. S. Harkins, in the course of an interview at Sydney, after the stormy trip of himself and company on the steamer Sagona, said: "We came within an ace of being on the Florizel. I received word some weeks ago from the United States Consul General at Halifax that he was unable to issue passports for myself and company to go to the West Indies owing to the United States Government regulations, and that we would have to go to New York and get them. I was almost on the point of booking passage for New York by the Florizel, but at the last minute decided to return to Sydney. That I am glad I did so goes without saying. Our business at St. John's was a succession of crowded houses, and the people could not do too much for myself and the members of the company. We were invited to all kinds of social affairs, and in fact received more invitations than we could accept, unless we gave up playing altogether. Sir Alexander Harris, the Governor, attended our performance, and I had the honor of being his guest at luncheon. He is a most charming gentleman, and has become a great favorite in St. John's owing to the interest he takes in everything affecting the colony. Many of my old friends there have lost sons or relatives in the war, and many of my younger friends have died for their King and country, with the Newfoundland Regiment. A large crowd was down to see us off, among them being several who were to sail on the Florizel a few hours later. We exchanged good byes and little did I think then that they were really good byes. The storm was the worst I ever experienced, and I've travelled quite a little by land and water.

SIX FORD TRACTORS ORDERED.—The Government has authorized the Commissioner of Agriculture to order six Ford Tractors to be sold to farmers at cost price plus transportation charges.

NEW J. P.'S.—The Government has made the following appointments: Commissioners of Deeds and J.P.'s—Mr. Samuel Wood, Southport and Mr. Charles Peppy, Hillsboro; Commissioner of Deeds Mr. Theo. Enman, Victoria West.

NEW MEMBER OF GOVERNMENT.—At the meeting of the Government on Wednesday, Hon. J. S. Martin, Speaker, was appointed a member of the executive to fill the vacancy caused by the promotion of Hon. J. A. Mathieson to the Chief Justiceship.

FOR BENEFIT OF SOLDIERS.—As complaint had been made that the charges for administering oaths to Island soldiers in England and France were very considerable, the Government has resolved to extend legislation authorizing all officers overseas expeditionary forces of Canada above the rank of Captain to administer oaths to members of the forces where deemed necessary.

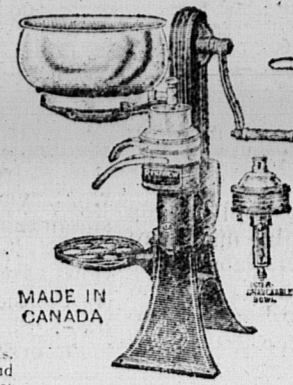

A PLEASING EVENT.—At the Christian Parsonage, New Glasgow, on Feb. 22, 1918, by the Rev. J. W. Haxter, P. E. Island, Mr. J. A. Mathieson, a married to Elizabeth Vance Murray, of Bradalbane, third daughter of Major C. Murray, J.P. The bride was attended by her sister, Miss Margaret, while Mr. Dawson J. Stevenson of Fredericton, acted as groomsmen. The Guardian extends to them congratulations.

POPULAR ISLANDER BEREAVED.—"The Maple Leaf" extends sincere sympathy to Past Chief D. R. McNeill of the Caledonian Club, Oak Island, Can., on the death of his beloved wife, Mary A., which occurred at the family home in Berkeley, Cal., on January 25. Besides her sorrowing husband, there are left to mourn the following sons and daughters: D. R. Jr., Hector, Mrs. Hugh McIsaac and Helen R. McNeill. The deceased lady was a native of New York City, and a sister of Rev. Brother Agmon of St. Mary's College, Oakland, Mr. McNeill, who is a native of Prince Edward Island, has spent the last few years of his life in the civic and business life of San Francisco, and counted his personal friends and acquaintances by the thousands.

UNEXPECTED BEREAVEMENT.—It was with much sadness that the friends of Mr. G. Taylor heard of the sudden death of her dear husband which took place while he was at his work in Miramichi, N. B. The work was teaching Knutsford while Mrs. Taylor was at Summerside in order to see her son welcomed into the Methodist Church. The remains of the deceased arrived at O'Leary on Saturday evening and then taken to Knutsford, the funeral being held on Sunday under the most disagreeable weather conditions. The service was conducted by the Rev. M. Brodie, who spoke on the words of Peter "to whom shall we go." The following hymns were sung "Nearer my God to thee," "Jesus lover of my Soul," and "Rock of Ages." Miss T. McEachern presided at the Organ. After the service the casket was taken to Mount Cemetery where it was committed until the dead shall arise. The following acted as pall-bearers—Wm. Campbell, John Harris, Wm. Jas. Harris, John Wedlock, Wm. Dymont and Watson Silliker. The deepest sympathy of the residents is felt for Mrs. Taylor, who herself is far from being well. Others left to mourn are Mrs. Geo. Brooks a daughter, also a little daughter at home, with three sons at home and one in the 105th Battalion now in England.—W.

Meeting Larger Markets

For years after the war, Europe will continue to require all the butter Canada can produce for export. With markets assured, farmers and dairymen demand a cream separator (1) that meets increasing demands without expense and delays of a hanging machine in order to get larger capacity; (2) that will get the greatest possible amount of first quality cream. A machine that meets both requirements is the

Renfrew

MADE IN CANADA

"To increase the capacity I do not have to change the whole machine—just this bowl!"

Interchangeable Capacity—When your herd increases you can enlarge the capacity of your Renfrew by simply changing the bowl and attachments. The Renfrew has but one size of frame and driving mechanism—suitable for the highest capacity. If you have a 350 pound capacity machine and later want to enlarge it to 450, 650, 800 or 1000 pound capacity, all you have to do is to order a bowl of the larger size with attachments—not the whole machine.

A large production of rich cream—Maximum production of richer, sweeter butter-fat from the milk is accomplished by the Renfrew's exclusive curved wing center-piece. The Renfrew skims down to the last three ounces in every ton of milk skimmed. If you have eight cows or more, this means a saving of butter-fat over the results from ordinary machines that will soon pay for the Renfrew.

The Renfrew's close skimming records are fully explained in our latest illustrated booklet, also results of tests by Government Dairy School.

Write for illustrated booklet to-day. It explains also the Renfrew's self-oiling system, its easy-to-run, easy-to-clean features, its low supply tank and high crank; its milk-tight and dust proof neck bearing and other important features.

Other Lines: Renfrew Kerosene Engine, Happy Farmer Tractors, Farmers' 2000 lb. Truck Scale.

NOTICE: The Renfrew Separator illustrated here was formerly sold under the name "Standard" which identified it as a high efficiency cream separator. The name "Renfrew" has been used on the same machine for several years for our United States and foreign trade and under that name has become as popular in those markets as under the name "Standard" in Canada. Now the name "Renfrew" has been adopted for Canada so as to link the name more closely with that of our company and so that we can sell the machine under a uniform name throughout the world.

AN ISLANDER IN WORCHESTER.—An esteemed correspondent in Worcester, Mass., writes: The accounts of the Halifax Relief Fund in Worcester have been finally wound up, totalling a cash contribution of \$29,000 and a large quantity of clothing. Among the most prompt responses in New England to the imperative needs of the Halifax sufferers, in the record disaster, were those made by the city of Worcester, Mass., in conjunction with the Worcester Maritime Provinces Association. The first relief train to reach Halifax from Massachusetts carried a large contribution of clothing from Worcester, and the Calvin Austin, the first relief ship sailing from Boston, carried another shipment which was collected with almost amazing rapidity, and dispatched from Worcester at night by auto trucks and trolley freights, to make the connections. Notwithstanding this, over six large cases of clothing were in readiness for shipment when James B. Coulson, in charge of the Halifax Relief headquarters received instructions from H. B. Endicott, chairman of the State Relief Committee, Boston, that no more clothing for the Halifax sufferers would be received. After being fully convinced that further shipments could not be made, Mr. Coulson consulted Mayor P. G. Holmes and succeeded in financing the clothing to the amount of \$500.00 which was added to the Halifax Cash Relief Fund. The clothing valued at \$2,000, was turned over to the Asso-

ciated Charities of Worcester. (Mr. Coulson referred to is a native of this province. He was named to represent Worcester at Halifax directly after the disaster, but he preferred doing his part in Worcester.)
