NEW YORK, Jan. 9 (AP) - Clutching two cheap stutcases, Howard C. Hopson, the man who once ruled a billion-dollar utilities empire, handed his sagging body into the back seat of an automobile today and sped away - sentenced to five years in a federal penitentiary.

Only a few minutes before, he had stood - docile and expressionless - before a federal judge and heard himself described as the "perpetrator of one of the largest financial frauds in the history of the United States."

Convicted of sapping the intricate structure he erected of \$200,000,000, Hopson was a broken and feeble figure, 48 years old.

Once the powerful head of the Associated Gas and Electric system, he stood with his hands clasped behind his back, still clad in the same old dark gray suit he had worn during his eight-week trial.

His hands fell limply to his sides as Judge Alfred C. Cox sentenced him to five years' imprisonment on each of the 17 mail fraud counts on which he was convicted. The terms were made concurrent.

## Strike threat Is averted

FARMINGDALE, N. Y., Jan. 9 (AP) - Under pressure from Washington, a threatened strike at the Ranger plant of the Fairchild Engine and Airplane Corporation was temporarily averted tonight as union leaders extended for 48 hours the deadline for settlement of a wage dispute.

As the original 8:45 p. m. A.S.T. deadline approached and negotiations continued in Farmingdale, N. Y., Vice-President and General Manager of the company, said John Owens, a representative of the national defence commission, telephoned from Washington and talked with Walter Smethurst, national director of aviation for the Congress of industrial organizations.

"As a result of the conversation," Cox said, "it has been agreed between the company and the union that negotiations will continue and that operations in the plant will continue uninterrupted for the 48-hour period."

This was confirmed by Smethurst. Among those at the meeting, called after a high naval official had called a strike of the plant's 240 employees working on 2,000 airplane engines for the army and navy under \$7,750,000 contracts, would seriously interfere with the defence program, was Thomas Burns, representative of Sidney Hillman, Labor member and co-head of the defence commission.

## CONDENSED

HE'S HAD AN EYE FULL - Visitor: "What are the twins called?" Mother: "Henrietta." Visitor: "Not both the same name?" Mother: "Certainly not. One Henry and the other Etta."

ODD FELLOW - "Chester is one of the oddest men I ever saw." "How so?" "Why, when a fellow borrows a quarter, and doesn't pay it back Chester finally admits that it is the quarter he owes about, and not the principle of the thing."

## BEWARE NOW OF EPIDEMIC COLDS

Here's Some Good Time-Tested Advice

With folks all around suffering with contagious colds, be just as careful as you can—and you may avoid a lot of sickness, trouble and worry.

Follow these simple rules of health: Live normally. Avoid excesses. Eat simple food. Drink plenty of water. Keep elimination regular. Beware of wet feet and drafts. Take some exercise daily—preferably outdoors. Get plenty of rest and sleep.

Then use these two time-tested treatments when needed.

AT THE FIRST SIGN OF A SNIFGLE, SNEEZE OR NASAL IRRITATION, put a few drops of Vicks VapoRub up each nostril right away. This helps to prevent many colds from developing, because VapoRub is expressly designed to help Nature's own defenses against colds. (If a head cold causes stiffness, you'll find that a few drops of VapoRub helps clear the clogging mucus and makes breathing freer and easier.)

Both VapoRub and VapoRub have been tested through years of use in millions of homes. When you use these two medicines you are not experimenting, you are not taking needless chances. Remember: If the condition of the cold fails to respond quickly to treatment—or if more serious trouble is indicated—call your family physician right away. In the meantime be prepared to get a bottle of Vicks VapoRub and a jar of Vicks VapoRub ointment.

## Fowler explains Statement re Default outlook

TORONTO, Jan. 9 (CP) - Robert M. Fowler, commenting on a speech he made Monday night supporting the recommendations of the Royal Commission, said today in another address that he had suggested that the Dominion Government should assume responsibility for the provincial defaults of bond payments, but "I do not suggest that any province of Canada is contemplating default or that it would willingly see default occur."

Mr. Fowler, Toronto lawyer, who was assistant secretary for the Women's Canadian Club of Toronto, claimed that "seven or eight of the provinces are approaching the end of their borrowing powers," and added: "I suggested further that these provinces had bonds maturing each year there was a prospect of provincial default because of this exhaustion of borrowing powers."

"In his speech Monday night, Mr. Fowler was quoted as saying: 'At the present time seven or eight of the nine provinces are at the end of their borrowing powers and the maturing of these bonds in the next two years seems inescapable if nothing is done.'"

"He told the Women's Club that 'we should not close our eyes' to the possibility of provinces having to default, and when Mr. Roebuck suggested that the transfer of the provincial debt to the Dominion may tend to cripple the war finance, I think we should place against that suggestion the possibility that if we do not make such a transfer there may be danger to war finance."

(Arthur Roebuck, Liberal M. P. here Friday night, spoke against the recommendations of the Commission that the Dominion should assume responsibility for provincial debts.)

Mr. Fowler said that Canada must be most careful to prevent injury to her credit in the public report, as would be caused by a default and "the proposal that the Dominion should assume provincial debt would remove the possibility of default by these provinces."

Denies Charges - TORONTO, Jan. 9 (CP) - R. M. Fowler, Toronto lawyer, who was assistant secretary for the Royal Commission today denied charges by Premier Hepburn that he had been pronounced by Ottawa officials to speak on the public report.

"There is absolutely no truth in Mr. Hepburn's claim," Mr. Fowler said. He flatters me.

"I want to make it quite plain that I was speaking for no one and at no one's instigation or suggestion. I am speaking in the Royal Commission report because I believe in it, and that the public knowledge of the report is vitally important."
