FISHERMEN IGNORED, SAYS LIBERAL M. P.

RE-INFORCED MADRID TROOPS HOLD FIRM

Socialists Fight Doggedly Against Highly Mechanized Insurgent Force.

(AP. By Guardian's Special Wire) WITH INSURGENTS ON GUADALAJARA FRONT. March 10 (CP-Havas) With Government resistance broken by smashing morning assault, 22,000 insurgent troops moved up tonight for a heavy blow at Guadalajara, 30 miles from Madrid.

The insurgents claimed they had broken through all government defences on the Sigüenza-Guadalajara highway after 72 hours of almost ceaseless fighting, and stormed past Brihuega to a point only 15 miles from Guadalajara.

With their motorized battalions supported by bombing air fleets they were confident of rumbling up to the gates of Madrid shortly.

MADRID, March 10—Veteran troops, hurled into the breach to another an insurgent advance through Guadalajara province, stood their ground today, the government reported, against repeated charges by mechanized forces.

After two days of admitted reverses, war office communiques declared the defence line now was holding and vulnerable gaps in it had been closed.

Tanks, armored cars and a few artillery units, rushed to the newly developed battlefield northeast of Madrid last night by General Jose Miaja, commander of all government troops in Central Spain who spent the day touring the front lines, were said to have bolstered the resistance.

Government spokesmen, referring to the attacking army as largely Italian, both in men and equipment, said the day's fighting exemplified the defence forces' strength to resist in the face of heavy odds.

Rebels claim advance (insurgent headquarters at Avila said the attack from the northeast)

Wednesday forenoon until train time, Bedford, York, Winsloe, Wiltshire, Bradalbane, Hunter River; afternoon 12-3, Borden Line at Albany. L-417.

Processing Plants For Products Are Among Proposals

Economic Conference Held Yesterday—Mr. F.E. Lathe, Ottawa, Gives Technical Advice

The possibility of processing agricultural and fisheries products in this province in place of shipping such products in a raw state was discussed at an economic conference in the Confederation Chamber yesterday. The sessions, presided over by Hon. B. W. LePage, president of the executive council were attended by Mr. F. E. Lathe, M.S.C., Director of the Division of Research Information in the National Research Council, Ottawa. Hon. Mr. LePage is conducting an economic survey of the province.

Mr. H. K. S. Hemming, who presented a brief setting forth the possibilities of a large cannery industry in the province was opposed to the idea suggested by several speakers that probably the best method of establishing such an industry here would be by developing a number of smaller plants.

He suggested development of smaller establishments was along the line already under way in the Mt. Stewart district where last season string beans were canned in a lobster factory. "Never put up vegetables in a fish canning plant", Mr. Hemming said. He was not at all interested in the development of little concerns, he continued, where the season's total production was only a few hours' work for a large plant. Such concerns could not hope to compete on the world's markets with large mass production plants whose overhead per manufactured unit was greatly lower.

Presentation of Mr. Hemming's brief was made at a private morning session. Discussion continued at an afternoon session, open to the press.

Attending the conference were: the Premier Hon. Thane A. Campbell, Hon. W. H. Dennis, Minister of Agriculture; Hon. J. P. McIntyre, Minister of Public Works; Dr. J. A. Clark, superintendent of the Charlottetown Experimental Station; Mr. H. K. S. Hemming, Public Accountant; Mr. R. R. Bell, President of the Charlottetown Board of Trade, and Mr. R. L. Cotton, member of the transportation committee of the Board; Mr. H. T. Holman and Mr. McDonald representing the Summerside Board of Trade; Mr. W. D. Ross, Uig, president, and Mr. C. E. MacKenzie, Milton, secretary of the Central Farmers Institute; Mr. W. R. Shaw, deputy minister of agriculture; Dr. J. T. Croteau, professor of sociology and economics at

Peace Plans Underway?

NEW YORK, March 10—(AP)—F. Theo Rogers, publisher of a Manila weekly, the Philippines Free Press, said today he had learned that secret negotiations for peace in Spain, conducted in Paris since Feb. 19, were drawing to a close with "a good prospect of settlement of Spanish difficulties."

Rogers, who recently left Spain after seven months in Government and insurgent lines, said six representatives of the insurgent leader, General Francisco Franco, and three Government representatives, none of whom held official positions in either organization, "expect to effect an end of the war within a very short time."

Commodity Prices Stage Sharp Advance In New York

NEW YORK, March 10—(AP)—World-wide buying on an intensive scale lifted a broad range of commodity prices to new post-depression peaks today in one of the widest advances in recent years. In unison, benefit from price advances shot up from \$1 to \$4, or more a share in a buying rush that carried forward other divisions of the stock market as well.

Premier King Visits Washington

Mackenzie King Prime Minister of Canada, was greeted by Secretary of State Cordell Hull, left, when he arrived in Washington, D.C., March 5th, to confer with President Roosevelt.

Alleged Leakage Of Summerside Liquor Seizures

Disquieting Rumor Reported In Summerside Liberal Press Of Seized Alcohol Allegedly Finding Its Way To Bootleggers.

The following statement appears in the March 10 issue of the Island Farmer (Liberal).

Although members of the local detachment of the Royal Canadian Mounted Police insisted that they had no information in the matter, it is rumored an inquiry will be held by police into the appearance at local bootleggers' joints of a quantity of seized alcohol which was presumed to have been destroyed.

Although official confirmation is totally lacking, it is said that certain members of the bootlegging fraternity have had in their possession a quantity of alcohol which was seized some time ago by R. C. M. P. officers, and stored for a time in the Summerside Customs House. The alcohol was removed from the Customs House some time ago, it is understood.

Inspector Fripps, Charlottetown, is believed to be investigating the method by which this alcohol reached the hands of the bootleggers. No pronouncement by either police or Customs officials could be obtained.

Several of the tins in which the alcohol had been, have appeared at local stores, it is said, having been bought in good faith by storekeepers as oil containers.

QUEBEC, March 10—(CP)—The Government icebreaker Montcalm, at present on a trip from Sydney, N.S., to the Magdalen Islands, will be joined by the icebreaker N.B. McLean at the end of March to assist shipping in Cabot Strait, the Marine Department agency announced here today.

Lobster Fishery Inquiry Opens In Charlottetown

LIBERAL TRADE EFFORTS FAIL IN AUSTRALIA

Resignation Of Australian Trade Minister Follows Parley With Euler.

(C. P. by Guardian's Special Wire) CANBERRA, March 10—Sir Henry Gullett, expressing the view that trade negotiations with Canada should be dropped as unsatisfactory, resigned today from the Australian Cabinet.

The Minister of Trade declared there should be a diversion of Australia's import trade from Canada to foreign countries willing to negotiate treaties with Australia. His resignation followed within a week the departure from Australia of W. D. Euler, Canadian Trade Minister, who conducted negotiations for a new agreement with Sir Henry. It was understood the main objectives of the negotiations had not been achieved and that only minor concessions had been granted.

The cabinet declined to accept Sir Henry's proposal to abandon negotiations on the ground that it would damage Empire trade. The resignation, which caused a sensation in the Commonwealth, then followed.

It is understood that Canadian-Australian efforts to accomplish a new trade agreement fell short on the ground that trade between the two countries is disproportionate. An agreement to bring it nearer to balance would have to incorporate concessions to Australia out of all proportion to the new concessions Canada might receive, it was argued.

Canada, it was understood, found it impossible to agree to such major concessions. Canada had developed its industry to a point where it was able to provide cheaply and efficiently a large range of

Island Born Lady Dies In Boston

(C. P. by Guardian's Special Wire) BOSTON, March 10—Mrs. Mary MacAree, widow of the late James MacAree, died in hospital here and will be buried Saturday at Charlottetown, P. E. I. She was born in Charlottetown 67 years ago.

Accompanying her body which went forward to Charlottetown from here last night were her sister, Mrs. Josephine Gillis who came from Alberta when Mrs. MacAree became seriously ill, and her niece, Miss Mary McGonnell of Boston.

Rebel Ship Shells Spanish Vessel Near French Waters

ROCHEFORT, France, March 10—A Spanish insurgent warship, raking a Spanish Government freighter with shell fire almost in the lane of trans-Atlantic shipping, was reported tonight to have chased the vessel to the edge of French territorial waters. The attack against the freighter Conde de Zubiria, was said to have started off the Island of Ouessant, near Brest.

The armed trawler abandoned the chase, an eyewitness of the running sea battle said, when a French armed sloop and hydroplane appeared on the scene. Naval authorities at Brest said they dispatched the sloop and two

SAYS OTTAWA DOING NOTHING FOR INDUSTRY

Yarmouth Member Calls For Showdown From King Administration.

OTTAWA, March 10—(CP)—Some 200,000 square miles of fishing grounds, an area more than three times as great as all the cultivated land in Canada, are available to fishermen of the Maritime Provinces. V. J. Pottier (Lib. Shelburne-Yarmouth-Clare) told the House of Commons today.

The Maritime Provinces had not held their own in world fish production in recent years which accounted in part for the distress now prevailing in the fishing industry, he said.

Other countries were lending assistance to the fishing industry either directly or indirectly but there was no assistance for the Canadian fishermen.

Confusion as to the responsibilities of the federal and provincial governments left the fishermen's difficulties unattended to, said Mr. Pottier. The Dominion had passed the obligation on to the provinces and the provinces had passed it back to the Dominion.

Mr. Pottier submitted, however, the responsibility rested with the Dominion. The fisheries question had become a national emergency and should be dealt with by the Federal Government.

The King Government had gone a long way to help out the western farmers in a period of drought. He cited the Wheat Board Act, fixed price for wheat, loans, relief from debt and the Prairie Farm Rehabilitation Act.

Mr. Pottier said he had no criticism of this but thought the same generous policy should be applied to the fishing industry which was suffering from domestic and world conditions similar to those which had created a crisis in Western Canada.

The one gesture made towards the fishing industry was the passing of a Fisherman's Loan Act in 1935 and so far not a single loan had been made under it. That Act should be amended to permit of loans on the security of fishing equipment as well as on the security of houses and real estate.

Italo-German Aid To Rebels?

GIBRALTAR, March 10—(AP)—Three mystery ships, a usually reliable source said today, landed new contingents of Italian troops at Cadix, Spain, Saturday and Sunday.

The craft, this source said, displayed neither names nor flags. The informant said more than 2,000 soldiers were landed.

From Algieras came an unconfirmed report that the German ship Deutschland landed a cargo there, believed to include guns and ammunition.

The German warship Admiral Graf Spee, the Algieras reports stated, arrived there during the afternoon and joined the Deutschland and the German liner, Max Albrecht.

British naval authorities here said they were unable to obtain confirmation of another report, that six Soviet submarines had arrived at Barcelona.
