MANY YEARS A DYSPEPTIC.

Mrs. Joseph Tennier, Hopetown, Que., could get no relief until she tried Laxa-Liver Pills, which cured her.

Another sufferer freed from Dyspepsia by Laxa-Liver Pills.

Another one who tried all sorts of remedies and doctors' treatment without avail, and who had to come to Laxa-Liver Pills at last for a cure.

MRS. JOSEPH TENNIER, Hopetown, Que., recently wrote as follows: "For several years I had been troubled with dyspepsia and sick headache, and could get nothing to do me any good, until I tried Laxa-Liver Pills. I had taken many remedies and was attended by different doctors without being cured, and had given up all hope of ever getting well, when a friend advised me to take Laxa-Liver Pills. I have used in all seven bottles, and they have made a complete cure. I have told hundreds of people that Laxa-Liver Pills are the best medicine in the world" Price 25c.

A MEW PARTY.

The advent of an independen labor party has been announced from Toronto. Usually a third party in Canada has been short-lived and rather barren of results. The order of Patrons of Industry, the most prominent of a number of new parties that have been started in Canada, remained extant but a few years, but in that time was not without its influence upon political affairs. It no doubt contributed to the overthrow of the Conservative party in the Dominion during its lifetime and has since died.

There are chances, however, that a party based upon organized labor may yet come to the front and hold a strong position in the public affairs of Canada. The labor party is a most important factor in the politics of the Australian colonies, in one or more of which it is virtually dominant and in all well to the front. In the United Kingdom the labor organisations not only nominate their own candidates for parliament but in some cases elect them. In other instances they so disturb the balance between Liberals and Tories as to cause the election of candidates who could not otherwise be returned.

Almost every calling and line of imdustry has now its special organisation, and if these can be grouped together in one general organization, with a strong executive, such a a body would easily make its influence felt. Much will depend upon the capacity of its executive head. We see great possibilities before a labor party in Canada, but there are many difficulties in the way of their realization. The chances are that in the near future the institution will flourish best, if at all, in three or four of our larger cities.

City people and visitors will alike be pleased to learn that there will be band music on Queen Square this evening, weather permitting. The excellent Citizen's Band will furnish the exhilarating strains.

It was boasted that the license law would give us comparatively decent saloons in place of the dens where liquor had been sold before. Yesterday in a hotel in this city a member of the Provincial Government said that this result had been already attained. A by-standard at once asked, "What about Joy's place?"

While out on the train the other day the writer of this note heard the following remark: "The government hoped to get $8 000 from liquor licenses. And one big freshet might sweep away bridges that would cost twice that sum." We mention the words, so that they may be on record, in case they should turn out to be prophetic. Of course we must remember that judgment against an evil wrok is not always executed speedily, and we know not what form it may take. But it is sure to come.

Sir Wilfrid Laurier has spoken in regard to the P. E. Island claims in a manner that is not altogether discouraging to our hopes. His deliverance is not, however, quite satisfactory. There has been a notorious failure of the pledge to give us continuous steam navigation connection with the mainland. Sir Wilfrid contends that the second winter steamer to be put on will meet our claim on that score, but it certainly cannot atone for what we have suffered for 25 years past, whatever may be its success in the future. Sir Wilfrid holds out strong hopes that the federal government will construct the Murray Harbor Railway in the near future. As to the division of the fishery award there are no doubt legal questions involved, as Sir Louis Davies says.

ACADIA UNIVERSITY.

Miss Clark stands Third and Mr. Simpson in their Class.

WOLFVILLE. N. S,, June 7.—(Special.)— Miss Zella Clark, Bay View; Edwin Simpson, Belmont, and Jeremiah S. Clark, Bay View, graduated to day.

Miss Clark stands third and Mr. Simpson fourth in a class of 23, the former taking honors in Classics and the latter in Literature.

WOLFVILLE, June 6.—Class day at Acadia is getting to be one of the marked features of the closing exercises. On Tuesday morning College Hall was filled by an expectant audience, who had come from near and far to listen to the last act in this drama of the class of '99. The hall was beautifully draped with class flags, that of '99 being gracefully arranged over the platform bearing the motto "Palmam qui meruit ferat."

The class, clad in their gowns, occupied seats upon the platform. In the opening address by President A.B. Webster, of Coldbrook, he welcomed the visitors and friends.

The roll call by Miss Clark gave a chance for the display of considerable wit by the different members, in answering to the names of those who belonged to the class, but failed to complete their course. A graceful tribute of affection was paid to the late Sandford Doleman, who died suddenly at Acadia in his sophmore year.

WILL NOT TALK.

Dreyfus Refuses Newspaper Interviews, but is Well.

PARIS, June 7.—(Special)—Dreyfus is well and all efforts to interview him have been futile. He will take no risks by talking to the newspapers.
