TALENTED ARTIST. — Home friends will be interested to know that Mrs. (Dr.) Nelson F. Waters of Ames, Iowa, formerly Miss Clair Benoit of this city, was among those having pictures hung in Iowa's Art Salon at the Iowa Fair and Exposition last month. Mrs. Waters chose as her subject in still life "An Old Fashioned Bouquet" which was favorably commented upon and in water colors and pastels. "Hibiscus Flowers." Mrs. Water's whose work was also honorably mentioned in the special exhibition of Iowa Artists from the Iowa Art Salon. State Galleries for September and October, and among those attending the Artist Dinner in Ames when the address was given by Dewey Alb-nison of Minneapolis, Minn., Judge of the 1937 Iowa Art Salon.

WEDDING BELLS — A very pretty wedding was so omitted at the home of Mr. and Mrs. Walter Young of Kingsboro, on October 7, 1937 when their daughter, Doris Mildred was united in marriage to Mr. George Wayne Bruce of the same place. The Rev. M. Waterworth, officiating. At 8 o'clock they entered the parlor to the strains of the Bridal Chorus sweetly rendered by Mrs. Ethel McLean and took their place under a beautiful arch of autumn leaves, wedding bells and roses. The bride looked very winsome in a beautiful wedding gown of blue silk crepe adorned with rhinestones wearing a wreath of orange blossoms and carried a bouquet of sweet peas and maiden hair fern. She was attended by her twin sister, Miss Dorothy who also wore a pretty dress of blue and carried a bouquet of flowers. Mr. Arnold Bruce brother of the groom acted as groomsman. After the signing of the register they entered the dining-room which was prettily decorated for the occasion, where a sumptuous supper was served to a large number of invited guests. The bride was the recipient of many useful and valuable presents including cheques. The evening was pleasantly spent and at a late hour the guests left for their various homes wishing the bride and groom many years of happy wedded life. Mr. and Mrs. Bruce will reside in Kingsboro. Standard Oil Gets Lower Freight Rates

The enterprise of industry in seeking economies for its own operation is often best by unusual barriers.

Because the Standard Oil Company of Indiana announced its intention to build a pipeline, the Interstate Commerce Commission of the United States, on application of the railways, has authorized a

lash of almost 50 percent in rail-way freight rates from Superior, Wis., to Minneapolis and St. Paul, Minn. The rate cut granted was from 17.5 cents per 100 pounds to 9 cents per 100 pounds, without corresponding reduction to intermediate points. Standard of Indiana hauls gasoline from its Whiting, Ind., refinery to Superior in its own tankers. At Superior it has large storage facilities, from which it distributes gasoline and other petroleum products in the north-west.

Recently it decided it would be more economical to distribute to much of this territory by moving the commodity by pipeline to a central point and by rail and other means beyond.

The rail carriers resisted building of the pipeline. During 1935 they said, they carried 55,041,000 gallons of gasoline from Superior to destinations in the northwest, about one third to Minneapolis and St. Paul. For this transportation they were paid \$777,000.

If the pipeline were constructed and the same tonnage distributed from a pipeline terminal, their revenue would be \$300,000 a year less.

The average man wastes a lot of time trying to figure out why he isn't making more money.
