—Two interesting games of hockey were played at Cape Traverse on Saturday, March 5th, the first between the Crescents of Crapaud and the Wanderers of Cape Traverse. This game was very closely contested, although the score does not indicate it. The visitors had the most speed, and played a good game throughout, but the combination of the home team, and the good work of Buxton at centre, when near the opponents' goal, accounts for the Wanderers' victory by a score of 4-0. The second game was between the second Wanderers and the All-Tryon team, which resulted in a victory for the former by a score of 4-2. The home team showed their superiority from the first, while the visitors showed a tendency to rough it, for which they were frequently penalized. If it had not been for the brilliant work of the Tryon goal-keeper they would have suffered a much greater defeat. Mike Deegan refereed the two games to the entire satisfaction of everybody.

The result was to disprove the favorite prognostication of the market based on the appearance of several factors that aroused some apprehension. Unfavorable influences were entirely ignored in New York, although the market for Americans in London was slightly affected before trading began here.

Loss banks, where an increase estimated up to \$3,000,000 was looked for. The suggestion was heard that the great sum of cash had gone into some one of the great private international banking houses. The purchase of such with-drawal remained a mystery. An arbitrary withdrawal of cash from the money market might be expected to raise the interest rate. The time loan market today, in fact, became notably strong and the supplies offered sensibly diminished. The call loan market was not affected. The advance in foreign exchange halted, notwithstanding continued hardening of London discounts and large sales here of stocks for London account. The day closed in the midst of great animation and all-embracing strength in the market.
