Total exports from the United States to Canada for 1929 were \$948,501,227 against \$914,713,215 the previous year, while imports from Canada in 1929 amounted to \$504,276,828, against \$489,303,211 the previous year.

Statistics issued by the Department of Commerce today showed the United Kingdom, which ranks next to Canada in purchase of United States commodities, received exports of \$847,979,856 from this country last year, which was practically identical with the like exports for 1928. In furnishing imports to the United States, however, Great Britain was pushed from second place by Japan, which during 1929 supplied imports to a total value of \$431,872,664, while imports from Great Britain were \$329,766,636.

SHOOTING IS TO BE FULLY INVESTIGATED

U. S. Preventive Officers Shoot Canadian in the Back From Ambush, It is Charged by Ontario M. P.

WINDSOR, Ont., Feb. 9.—The shooting of Arthur Laframboise, allegedly by United States border patrol officers, will be thoroughly investigated, according to Col. Sidney C. Robinson, M. P. for Essex West, speaking at a meeting of the Conservative Association of the riding last night.

"I have investigated the matter personally and I am now waiting for the report made by the provincial police. I am going to push this thing to the limit," he said.

"The United States," he continued, "sends men to the border who do not know anything about international law. They do not know where the international boundary is and they do not care. Officers on the border treat us as if we were Chinamen. Residents of the district have been turned back when they wished to visit Bob-lo, a Canadian island. It is a most humiliating position. Preventive officers have ambushed themselves on a Canadian island and have shot a Canadian in the back."

Chicago Talks Of Naming Body Of Vigilantes

CHICAGO, Feb. 9.—A prediction that the time is not far off when gangland kings will virtually rule Chicago, and a hint that the time is ripe for the citizens to take matters in their own hands through the formation of vigilante units and a sort of Scotland Yard force to drive the crooks and killers out of the city, were voiced today by aroused business men on the eve of a meeting of the executive committee of the Association of Commerce, called for tomorrow to consider remedies for the reign of underworld savagery that has brought eight killings, numerous bombings, shootings and robberies in the last week.

Coincident with these dire forebodings, rumors reached the City Hall that a movement is being footed among the 30,000 municipal employees to call a strike in protest against "payless" pay days, which have resulted, through the local government's financial crisis, in poverty-stricken conditions in the families of hundreds of them and threatened evictions of at least a dozen because of unpaid rents.

The gathering of the leading business men tomorrow is expected to evolve into a "crime indignation" meeting aimed at the police and other law-enforcing authorities, at whose door much of the blame is laid for the "rule of the jungle" now said to be threatening the city's 3,000,000 citizens.

STORMY SCENE IN U. S. TARIFF STRUGGLE

Leaders of the Republican and Democratic-Republican Independent Coalition in Senate Fight Over Slashing of Import Duties.

WASHINGTON, Feb. 9.—(A. P.)—In one of the stormiest scenes yet witnessed in the long tariff struggle, leaders of the Republican and Democratic-Republican-Independent coalition fought over in the Senate today the right of the opposition coalition to slash existing import levies.

Out of it all came a score of three to two on rate changes in favor of the coalitionists. They succeeded in cutting the duty on red lead, used in the manufacture of preservative paints, from 2 3-4 to 2 1-8 cents a pound; in cutting the duty on litharge, a lead pigment used in glass and pottery manufacture, from 2 1-2 to 2 1-8 cents and in reducing the levy on carbon black from 20 to 15 percent, ad valorem. One was decided by only one vote and another by two.

Republicans rallied their "fortes" however, and defeated 38 to 37 an attempt to reduce the rate of white lead used for exterior paint making from 2 1-2 to 2 cents a pound. By 39 to 34 they also rejected an amendment to slash from 30 to 25 percent, the existing tariff on all lead pigment not specially provided for in the bill.
