Thank You

We wish you to extend our thanks to those who contributed to the success we had with our holiday stock.

We had some fears that in view of recent conditions we had provided more goods than we should, but the result shows that the character of the stock and the reasonableness of the price were appreciated by the public and that it responded with hearty good will.

Trade was satisfactorily in volume and was made doubly satisfactory by the manner in which our line was appreciated by careful buyers.

PROFITABLE FRUIT GROWING.

W. E. Schwartz in his splendid Review of Prosperity in the Annapolis Valley, contributed to the Maritime Merchant, tells that "the actual quantity of apples picked for export in 1907 is eight hundred thousand barrels." And again: "It does not take much time to figure out the total revenue the valley people have this year derived from the apple branch of the farming industry. It cannot be under two and a quarter millions of dollars." And there was a large addition to this total in pears, plums, grapes, strawberries, blackberries and raspberries. The Annapolis Valley like our own Province is also famous for the growth of potatoes.

Two and a quarter millions of dollars in apples alone produced in one small section of Nova Scotia, not a quarter the size of our own small Province! This gives some idea of what might be done and will yet be done in Prince Edward Island when the fruit-growing industry is developed to something like its easy possibilities. The yield and the quality of our orchard fruits wherever the attempt has been made with care, skill and persistence, proves that the Garden of the Gulf can yet be made the fruit garden of Canada, thus enormously increasing the value of our soil products and the incomes of our farmers. All honor to the active promoters of fruit-growing in this Province. Some day they will be recognized as benefactors.

Prince Edward Island was never more financially sound and hopeful in a business way than at the beginning of 1908. A banker in a good position to know estimates the savings of our people for the year at $1 250 000.

Toronto, though far removed from the coal-fields of either Canada or the United States, has gas delivered to its citizens at 75 cents per thousand feet, as the St. John Telegraph says, "not because a kind hearted company willingly reduced the price, but because the people were independent enough to demand fair play."

The simple life! John Ward, an Indian of Newcastle, N. B. died the other day aged 93. He had a brother who died last year aged 108 and a sister who still lives at Richibucto aged 102. The Indian wigwam has its disadvantages as a place of abode but it is at least well ventilated. Plain food, open air exercise and an absence of worry prolong the redman's days.

TORONTO HAS AN ELECTION.

Toronto is a strongly Conservative city in federal affairs, but has just elected a Liberal Mayor, Joseph Oliver by a majority of some 5,500 votes. But Federal politics are kept pretty well apart from civic affairs, and there were three Conservatives in the field, which also had its effect. On the Board of Control our old friend F. S. Spence, well known in this city as a temperance advocate, obtains a place this year again, Dr. Beattie Nesbitt, a persistent and successful Conservative ward "boss" was among the defeated candidates for Mayor, and in the course of the contest some strictures of The Globe on his private conduct led to his suing that journal for libel.

So the election was a lively and spirited one. But the most important result of the election was the adoption of the power by-law by a vote of nearly twelve thousand to three thousand. At present Toronto has electric light and power in part supplied from Niagara Falls by a company which has a virtual monopoly and which charges rates that are alleged to be too high. By adopting the power by-law the city obtains the means to duplicate the present company system and it is likely that a compromise may be effected between the city and the company. The adoption of the by-law means cheap electric power for Toronto, a great boon for a large and progressive manufacturing city.

There is apparently no political reaction in Quebec and the fact is pretty well established by the increased Liberal majority in Nicolet. This county is situated on the south shore of the St. Lawrence, midway between Montreal and Quebec. It had a Conservative record in eight out of ten general elections with majorities of 15 to 188. But a too solid Quebec tends somewhat to increased opposition in the English-speaking Province.

HOT AIR HEATING

Was your home comfortable last winter? If not you'll face a chilly proposition again shortly and one of our Improved Hot Air Furnaces will prove a warm friend with the glass below zero. With one of these up-to-date Furnaces, your fire may be kept the entire winter at an even temperature day and night. On a cold winter's night the cheerful effect of a well-heated home more than repays you for the cost. It is economical too in the small amount of fuel it consumes for the heat it affords. Come in and talk the matter over.

TO MOVE OFF A COLD

Cough mixtures "dope" a cold—but don't cure. Above all else, keep the bowels regular and stimulate the eliminating organs. More valuable than any cough syrup are Dr. Hamilton's Pills. They clear the system of every trace of cold—the dull headache, aching limbs, and cough disappears. Take the pills before retiring, they work while you sleep, and by morning your cold is broken and passes quickly away. All dealers sell Dr. Hamilton's Pills in 25 ct boxes
