FRUIT—THE GREAT PHYSICIAN

Wonderful Medicinal Value of Apples, Oranges, Figs and Prunes. How many people realize what remarkable curative principles are contained in fruit juices. There are two—the bitter and the sweet. There is about ten times as much of the bitter principle as the one which has the curative effect on disease. Apples, oranges, figs and prunes contain the highest percentage of bitter principle and thus are the most healthful.

It was a theory of a physician in Ottawa, that if the amount of bitter principle in fruit juice could be doubled, the curative property would be increased, not twice but many times.

After many tests, this physician succeeded in forcing into the combined fruit juices an additional atom of bitter principle, and in doing so formed an entirely new compound. The combined juices were added valuable tonics and antiseptics and the whole made into tablets.

These are "Fruit-a-lives"—the only remedy known to science that is made of fruit. The wonderful cures in cases of Stomach Trouble, Biliousness, Constipation, Rheumatism, Chronic Headaches and Neuralgia, Kidney, Liver and Skin Diseases are due solely to the fact that "Fruit-a-lives" contain the medicinal properties of fruit. 50c a box, \$1.00 or \$2.50, or trial box, 25c. At all dealers or from Fruit-a-lives Limited, Ottawa.
