Goering Cheats Gallows As Ten Others Hang S'ide Fish Plant Destroyed By Fire

Dosco General Manager Calls Return-To-Work Movement A Failure

SYDNEY, N. S., Oct. 15—(CP)—C. M. Anson, general manager of the Dominion Steel and Coal Corporation, said in a lengthy statement today that union insistence for the resumption of operations with the pre-strike surplus labor force was making the return-to-work movement a failure.

His statement was a full reply to a message from C. H. Millard, United Steel Workers president, asking Dosco to speed re-employment of Dosco workers.

Mr. Millard said it had been understood the strike settlement called for "immediate return to work without discrimination of any kind."

Mr. Anson asserted that the management had been ready to start operations since last Wednesday, but only on condition that the "number of men employed shall be no more than is required to carry on the work to be done."

In explaining what he termed the Sydney plant's "surplus labor force," Mr. Anson said one of the most glaring examples of the situation was at the coke oven batteries where, "through pressure of the men working thereon, at times supported by the union," there were at least two men employed for practically every job and, in some cases, as many as four men employed on one job.

He continued: "On most of these jobs this meant that while one man worked the second man sat down and rested. In some cases as many as six men were resting while two men carried on the work. Many of these men worked more than four hours in every eight-hour shift and in some cases far less than that. Even though a third battery of ovens was put into operation during the strike, the figure of men employed was less than in pre-war days."

The same situation, Mr. Anson added, appeared in many other departments of the plant, though not to such an extent.

(The S-day strike in Canada's basic steel industry, which affected Dosco's Sydney plant, the Steel Company of Canada, at Hamilton and the Algoma Steel Corporation at Sault Ste. Marie, Ont., ended officially Oct. 3 when the United Steelworkers of America (U.S.W.A.) voted to accept a 15-cent-an-hour wage bonus, authorized by steel controller F. B. Kilbourn.

(Dosco, whose 4,000 workers are to be granted an additional five cents an hour as the wage "differentiator" between Nova Scotia and Ontario steelworkers, said it could not afford to pay the increase because it had been operating at a loss financially.

Work at Sydney was finally resumed Oct. 9 after the company had been granted additional subsidies by the Federal Government to meet the wage boost.

Mr. Anson said that in every one of the reasons the company had operated at a financial loss was that during the war, rather than have work stoppages, the management had given way before demands of employees and union for "more and more men to be employed to do specific jobs."

"These demands," said Mr. Anson, "have contributed to a very low figure of tons of steel produced per man employed—far lower than that experienced in competitive plants."

"In order to place the industry in a better competitive position, in an endeavour to do everything possible to give the industry (at Sydney) a chance to live in the post-war world, and further so

\$15,000 Loss Sustained By Western Firm

A fire which broke out at 10.45 last night along the Summerside waterfront destroyed the three-story fish plant of Arsenault and Delaney. A two-story annex was left standing but the fire and the volume of water from four streams of hose left the interior of the annex badly damaged.

The origin of the fire is unknown. The loss, approximately \$15,000, included the destruction of \$3,000 worth of cans and \$1,000 worth of oysters. Considerable fishing equipment and a large quantity of smelt shooks were consumed in the blaze. The loss is partially covered by insurance.

The origin of the fire is unknown. The plant was locked up between five and six o'clock yesterday evening. It is thought there might have been some fire in the office stove at closing time.

The fish plant was purchased from Mr. Andre Paturel, formerly of Summerside, by Messrs Carroll Delaney and Fred Arsenault about three months ago. Previously, Messrs. Arsenault and Delaney had had the plant leased from Mr. Paturel.

There was little if any wind blowing at the time. The calmness of the air rendered other buildings in the vicinity comparatively safe from the flames which, at their highest development, illuminated considerable portions of the town.

Dominion Turndown Of Local Housing Scheme Discussed By Council

The removal of the Dominion Government to assist the housing shortage in Charlottetown and the proposed installation of an incineration plant in the City next Spring were discussed at last night's regular monthly meeting of the City Council.

His Worship B. Earle MacDonald, president of Councilors W.R. LePage and J. Gordon MacDonald, said he was unavoidably absent.

Commenting on the seriousness of the housing conditions in the City, Mayor MacDonald said he could see no prospect of any improvement in the near future. For a brief time last summer, he, like many other citizens, thought the formation of Housing Enterprises Ltd. was the answer to many prayers.

Last May, Mr. Stevenson, an engineer representing Housing Enterprises Ltd., had called upon him and had told him the corporation was interested in building houses across Canada. After hearing Mr. Stevenson's proposition the Mayor had taken the engineer to every City land in the City, showing, on a map, the areas which might be purchased. A month later, Mr. Stevenson reported the eastern end of the City to be most suitable for the erection of apartments and immediately started negotiations for the purchase of the land. In all, approximately \$25,000 was paid to City land by Housing Enterprises Ltd. for the purchase of the site.

As soon as the land was purchased, His Worship said, he was told that the corporation was not interested in the erection of the apartments and that of M.F. Schurman and Company Ltd., was

Fulltime Engineer At \$3,600 Salary For Utility Board

The newly appointed Board of Commissioners for Public Utilities is working in temporary quarters in the Speakers' room adjoining the Legislative Assembly in the Provincial Building. It intends making exhaustive inquiries into every matter presented for its consideration, states the secretary, Mr. L.B. MacMillan, who is also a member of the Board along with the chairman, Judge C. St. Clair Trainor, and Mr. W.R. Brennan, Summer-

The latter is a qualified electrical engineer and has been engaged as investigator for the Board on a full-time basis at a salary of \$3,600 a year. The Board was informed yesterday that the salaries of the other members will be nominal. It was stated.

Mr. MacMillan has officially retired as Deputy Minister of Public Works, although he will be busy in the Department for some time clearing up details. It is unlikely that a successor will be appointed for some weeks. In the meantime, Mr. P.A. Murnaghan, assistant Deputy Minister, is acting Deputy. Mr. MacMillan's official retirement was necessitated when he was sworn in as a member of the Utility Board on Oct. 9. Under the Public Utilities Act, no commissioner "shall be directly or indirectly employed by or interested in any public utility," and this is interpreted as meaning any government employment civic or provincial.

Drinks Poison Shortly Before Execution Time

By THOMAS A. REEDY
NUERNBERG, Oct. 16—(AP)—Ten condemned Nazi ringleaders died on the gallows in the Nuernberg jail yard early today but Hermann Goering, Adolf Hitler's No. 2 man, cheated the noose by swallowing poison in his cell before the death sentence was read to him.

Col. B. C. Andrus, security chief for the prison, made this announcement:

"Goering was not hanged, he committed suicide at 10:45 P.M. (4:45 P.M. E.S.T.—5:45 P.M. A.S.T.) last night by taking cyanide of potassium."

He was discovered at once by the sentinel who watched and heard him make an odd noise and twitch," Col. Andrus continued. "The sentinel called the doctor and chaplain who were in the corridor and who found him dying."

"There were pieces of glass in his mouth and an odor of cyanide of potassium on his breath."

Col. Andrus announced that 10 other Nazis, sentenced by the International Military Tribunal on Oct. 1 for war crimes, crimes against the peace and crimes against humanity, were hanged.

Goering's hands did not go beneath the blankets and were not observed to go in his mouth. An investigation is now going on to learn how he could conceal the poison when he was subjected to daily and rigorous searches, both of his clothes and his person. The cyanide was contained in a small cartridge case similar to those found before on other Nazis and like the one found on him a year ago last May at Mondorf prison. At that time it was hidden in a can of nectar."

Kingsbury Smith, representing the combined American press, said Joachim Von Ribbentrop, the German Foreign Minister, before and after the war, was the first man to be executed. While awaiting the placing of the black hood over his head, he uttered his last words: "In German, in a firm, clear voice: 'I am proud to die for my country.'"

Smith said most of the doomed men made brief "long live Germany" statements on the scaffold. None of them collapsed, and most of them mounted the 13 steps to the rope steadily, though with United States army guards at each side.

Julius Streicher, the Jew baiter, was the only one to shout "Hitler," as he was about to mount the scaffold.

He made the most commotion, Smith continued, shouting bitterly and defiantly: "The Bolsheviks will handle you."

He was the only one to speak after the hood had been placed over his head, mentioning something about "Adele, my beloved wife," Smith added.

The executions took place under electric lights inside a small gymnasium.

Coming Events

- Moves at Borden to-night.
- Talks Oynco Cove Friday.
- Show Bridgetown Saturday.
- Talks Malpeque Wednesday.
- Show Emerald Thursday.
- Don't forget Dance, Morell Hall tonight, Mackenzie Orchestra.
- Reserve November 6th for Tropic Bazaar and Supper.
- Poultry buying daily live and dressed poultry, paying top market price, Davis & Fraser, Ltd.
- Chicken Supper, Bingo, etc., E. Charles Hall, Wednesday, Oct. 16th.
- Dance Curling Rink, Montserrat, Wednesday, Oct. 16th, Don Mizer and Islanders.
- Arriving soon, car of bulk wheat, book orders now, R. L. Dickson, New Glasgow.
- Dance at Seven Mile Bay Hall, Wednesday, October 16th. Good music.
- Chicken Supper and Dance, Little Pond Hall, Tuesday, October 22nd.
- Come to Chicken Supper, Kingston, Wednesday, October 16th, starting 6 o'clock.
- Regular meeting Hamilton L. O. L. Clyde River, Thursday night Oct. 17.
- Hampshire W. M. S. Cake Sale at Rogers Hardware, Friday, Oct. 20th.
- Meadowbank W. I. Pantry Sale at Rogers Hardware, Friday, Oct. 18th, 3 P. M.
- Dance, Mt. Stewart Legion Hall, Thursday, October 17th, Webster's Orchestra.
- Regular Hospital Dances, Maritime Curling Rink, Saturday night.
- High tea, bazaar, bingo, St. James Church, Town Hall, Gloucester, Wednesday, Oct. 23.
- To avoid congestion Hunter River starch factory will accept potatoes by appointment only.
- Federation of Agriculture meetings: Vernon River, Wednesday, St. Peter's, Thursday, De Grosse Mare, Friday.
- Special Meeting of P. E. I. Querny Club to be held at Dept. of Agriculture, Tuesday, October 17th, at 8 o'clock.
- Collecting Hogs each Friday for Davis and Fraser Ltd. for trucking service through Summerside, Alberton, Vernon River, Summerside and Herculane. Phone Gordon 353-3.
- A meeting to select a suitable monument for soldiers killed in World War II, will be held at Geddie Memorial Church, Wednesday at 8 o'clock. All interested please attend.
- Thrashing belts, crusher belt and all other heavy and light rubber belts, new and used, 3 inch, 4 inch, 5 inch, 6 inch, 8 inch, 10 inch, 12 inch, 14 inch, 16 inch, 18 inch, 20 inch, 22 inch, 24 Mentally Unfit To Stand Trial

TEMPERANCE, Ont., Oct. 15—(CP)—Marcel Desreses, 24, today was adjudged mentally ill and unable to continue on trial for the murder of John Dubinsky during a holdup on the Porcupine, Ont., branch of the Bank of Toronto last Nov. 28.

Possibility of continuation of his retrial—Desreses was convicted of the crime last spring and sentenced to be hanged in July but the appeal court of Ontario ordered a second hearing was seen for next year's spring sessions of the Supreme Court of Ontario if the accused is considered mentally fit again by that time.

Following a week-end of "violent" outbursts of prayer interspersed with nude dances about his jail cell, Desreses was examined by Dr. J.I. Benn, mental specialist, who declared him unfit for trial. It was expected Desreses would shortly be committed to a mental institution.

Testifying today, Dr. Benn said the accused would not be able to stand trial "for at least a week or 10 days and perhaps not then. He will never be able to continue unless he receives treatment immediately at a mental hospital."

Seven In Hospital After Crash

CAMPBELLTON, N. B., Oct. 15—(CP)—Seven automobile passengers remained in hospital tonight after head-on collision of the car and a truck at nearby McLeod's last night. The patients were John McLean, Ed. River; John Berthelot, Mrs. Florence Beaudry and Leo Barriault, all of Dalhousie; Therese Parent and two children, Jeanne Pitre and Billy Beaudry, all of St. Andre. Parent was believed the only one seriously injured.

Henry Hache, the truck driver, accompanied by his son, Clement, was proceeding toward Montreal with a load of empty bottles. The automobile was on the way to Dalhousie. Both vehicles were wrecked.

Cattle Prices Soar As Price Control Ends

By J.W. DAVIS
WASHINGTON, Oct. 15—(AP)—Cattle prices soared today and the stock market shot up on the prospect that the whole structure of United States wage and price controls is toppling.

President Truman's orders sending all livestock and meat controls to the scrap heap had sweeping repercussions.

Policymakers of both parties sought a development depending on the time maintenance crews required to put the other departments in repair.

There was no indication when other mills would be called back, but a development depending on the time maintenance crews required to put the other departments in repair.

The company announcement that another battery of coke ovens were resumed today on a partial scale with men being called back to work in the 12 and 18 inch steel rolling mills, company officials said today, exactly three months after the start of the basic steel strike.

Two Bodies Discovered By Police

EAST HAVEN, Conn., Oct. 15—(AP)—Police reported today that two bodies were found in a wooded area here where they found two decomposed bodies.

A skeleton which has been identified tentatively as that of Henry Edwards of New Haven, was found here Sept. 10, but at a spot several miles from where the other two bodies were discovered last night and today.

Police said the bodies might be those of Oscar Matheny and Benjamin Carter, New Haven men reported missing Aug. 17 and Sept. 9 respectively. Edwards was reported missing July 22.

Robert Bradley, 36, has been held since Oct. 8 on a coroner's warrant, which contains no charge, for questioning in connection with the disappearance of the three men. Police questioned Bradley after automobiles belonging to Edwards, Matheny and Carter were found in New York City.

Bradley said the police reported that he sold the cars at the request of three missing men, with whom he was acquainted, as a "favor" to them prior to their respective disappearances, and that he had no knowledge of their whereabouts.

Operations Resumed At Steel Plant

SAULT STE. MARIE, Ont., 15—(CP)—Operations at the Algoma Steel Corporation were resumed today on a partial scale with men being called back to work in the 12 and 18 inch steel rolling mills, company officials said today, exactly three months after the start of the basic steel strike.

There was no indication when other mills would be called back, but a development depending on the time maintenance crews required to put the other departments in repair.

Crown Testimony Nears End In Torso Slaying

By Alan Randall, Canadian Press Staff Writer
HAMILTON, Oct. 15—(CP)—Crown testimony in the trial of Mrs. Evelyn MacLean Dick, charged with murdering her husband, John, neared completion tonight after police officers described the slaying for them.

Police said that on the same day Mrs. Dick gave the fifth in a series of statements—in this final one describing how William Bohozuk, her one-time friend, killed Dick with a revolver.

This statement was a tale, lurid in its detail, of her March 6 drive with Bohozuk and Dick to a point approximately 18 miles south of Hamilton, where her 40-year-old Russian-born husband died from two gunshot wounds in the back of the head—the bullet came out the right eye and blood spurted all over.

In an effort to speed up this trial, now in its eighth day, Mr. Justice F. H. Barlow called a night sitting tonight after a short closed session late in the day in which he considered admissibility of important Crown testimony—just about last of the Crown's case against the dark-haired, 36-year-old widow.

Late in the day it was learned that Mrs. Dick, already in the witness box once during the time the jury was excluded from this trial, will not be put in the box in her own behalf.

Not only that, no other wit-

Are Taken Into Custody

PARIS, Oct. 15—(Reuters)—Police today arrested an undisclosed number of men, believed members of a gang suspected of a holdup in Montparnasse Station last month which resulted in theft of mail bags containing 6,000,000 francs worth (about \$48,000) of securities.

No Sign Of Settlement In Bushmen's Strike

TEMPERANCE, Ont., Oct. 15—(CP)—Nearly five days after an A.F.L. Union called a strike in the lumber camps and sawmills of the Cochrane and Thunder Bay districts of Northern Ontario, reports reaching here from operators and bushmen's representatives still did not clearly indicate progress or effectiveness of the walkout.

In Toronto, W.A. Delahay, manager of the Ontario Forest Industries Association, told reporters only three to five per cent of the approximately 18,000 bushmen now employed in those areas had answered the strike call issued at midnight Friday. His figures were based on latest information available to operators.

The lumber and sawmill workers did not estimate how many of a claimed 12,000 members—Mr. Delahay said the figure did not exceed 800—in the bush had left their jobs. The men are seeking a 30-day minimum wage and improved working and living conditions in the camps, as well as Union recognition.

Spitting was reported in some areas and police stood by here at the week-end to prevent violence. The violence was reported from the wooded areas in which men were available.

Mayor J. Emil Brunette, meanwhile, offered his services as a conciliator or in an advisory capacity to any group of conciliators that

Two Bodies Discovered By Police

EAST HAVEN, Conn., Oct. 15—(AP)—Police reported today that two bodies were found in a wooded area here where they found two decomposed bodies.

A skeleton which has been identified tentatively as that of Henry Edwards of New Haven, was found here Sept. 10, but at a spot several miles from where the other two bodies were discovered last night and today.

Police said the bodies might be those of Oscar Matheny and Benjamin Carter, New Haven men reported missing Aug. 17 and Sept. 9 respectively. Edwards was reported missing July 22.

Robert Bradley, 36, has been held since Oct. 8 on a coroner's warrant, which contains no charge, for questioning in connection with the disappearance of the three men. Police questioned Bradley after automobiles belonging to Edwards, Matheny and Carter were found in New York City.

Bradley said the police reported that he sold the cars at the request of three missing men, with whom he was acquainted, as a "favor" to them prior to their respective disappearances, and that he had no knowledge of their whereabouts.

SAULT STE. MARIE, Ont., 15—(CP)—Operations at the Algoma Steel Corporation were resumed today on a partial scale with men being called back to work in the 12 and 18 inch steel rolling mills, company officials said today, exactly three months after the start of the basic steel strike.

There was no indication when other mills would be called back, but a development depending on the time maintenance crews required to put the other departments in repair.

The company announcement that another battery of coke ovens were resumed today on a partial scale with men being called back to work in the 12 and 18 inch steel rolling mills, company officials said today, exactly three months after the start of the basic steel strike.

Crown Testimony Nears End In Torso Slaying

By Alan Randall, Canadian Press Staff Writer
HAMILTON, Oct. 15—(CP)—Crown testimony in the trial of Mrs. Evelyn MacLean Dick, charged with murdering her husband, John, neared completion tonight after police officers described the slaying for them.

Police said that on the same day Mrs. Dick gave the fifth in a series of statements—in this final one describing how William Bohozuk, her one-time friend, killed Dick with a revolver.

This statement was a tale, lurid in its detail, of her March 6 drive with Bohozuk and Dick to a point approximately 18 miles south of Hamilton, where her 40-year-old Russian-born husband died from two gunshot wounds in the back of the head—the bullet came out the right eye and blood spurted all over.

In an effort to speed up this trial, now in its eighth day, Mr. Justice F. H. Barlow called a night sitting tonight after a short closed session late in the day in which he considered admissibility of important Crown testimony—just about last of the Crown's case against the dark-haired, 36-year-old widow.

Late in the day it was learned that Mrs. Dick, already in the witness box once during the time the jury was excluded from this trial, will not be put in the box in her own behalf.

Not only that, no other wit-

Are Taken Into Custody

PARIS, Oct. 15—(Reuters)—Police today arrested an undisclosed number of men, believed members of a gang suspected of a holdup in Montparnasse Station last month which resulted in theft of mail bags containing 6,000,000 francs worth (about \$48,000) of securities.

Operations Resumed At Steel Plant
